API Response

- Basic header information
- Item records (Solr fields)
- Solr facet fields
- Result set information
Query Syntax

- Subset of Solr’s native query capabilities
- Same or similar to native Solr syntax
  - Wildcard
  - ”phrase matching”
  - -exclusion
  - or | any terms
  - ti:field su:specific au:queries
• Alternative query forms:

• search?q=contributor:ooag+duck +farming+media:text
  is equivalent to
  search?q=duck +farming&contributor=ooag&media=text
Queryable Fields

- Text fields
  - title
  - subject
  - author (creator etc.)
  - query (everything)
  - more to come

- Controlled
  - media
  - contributor
  - set
  - language (ISO 693-3)
  - df; dt (date range)
We Want You To...
