### BRIEF DESCRIPTION FOR CALENDAR - Provide a brief description (maximum 6 lines) to be included in the Graduate Calendar.
Data mining is the discovery of hidden information from historical data. With data mining, it is possible to better manage product warranties, predict purchases of retail stock, unearth fraud, determine credit risk, and define new products and services. This course introduces basic data mining technologies and their use for business intelligence. Students will learn how to analyze the business needs for knowledge discovery in order to create competitive advantages and apply data mining technologies appropriately in order to realize their real business value. Student will also learn through hands-on practice with SAP software "Business Intelligence" and "Strategic Enterprise Management" systems. This course is suitable for MBA students with interests in IS, finance, marketing, operational management, and healthcare management. Students can use this course towards 3-course requirements for eligibility to obtain SAP-Certification in "Business Integration" through McMaster-SAP University Alliance program.

### CONTENT/RATIONALE - Provide a brief description, i.e., outline the topics or major sub-topics, and indicate the principal texts to be used.
This course introduces basic data mining concepts, technologies, and their use for business intelligence. Students will learn how to leverage data for knowledge discovery and gain hands-on experience with data mining and business intelligence software. The course will cover the following topics:
- the need for business intelligence;
- data mining methods and processes;
- data mining technologies;
- data mining applications; and
- data mining case studies.

Required textbooks:
1. **STATEMENT OF PURPOSE** (How does the course fit into the department’s program?)

Data mining and business intelligence is a very important topic not only for MBA students in IS area but also for MBA students in other areas such as finance, marketing, operations management, healthcare etc. It will help students to advance in their future career.

2. **EXPECTED ENROLMENT:**

15-20

3. **DESCRIBE IN DETAIL THE METHOD OF PRESENTATION OF COURSE MATERIAL** (i.e., lectures, seminars):

Lecture, guest speech, class discussion, hands-on lab tutorial, student presentation

4. **DESCRIBE IN DETAIL THE METHOD OF EVALUATION:** (For 600-level course, indicate the Extra Work to be required of graduate students, i.e., exams, essays, etc.)

assignments 60%,
final exam 40%

Financial Statement Analysis
Fall 2008 Course Outline

Accounting and Financial Management Services
Degroote School of Business
McMaster University

COURSE OBJECTIVE

The course is designed to provide you with advanced conceptual background and analytical tools necessary to evaluate financial statements issued by publicly held enterprises. The course is meant to complement related studies in accounting, finance, economics, business policy, and statistical analysis. It focuses on understanding the uses and the limitation of both the financial statements and the traditional and non-traditional methods used in analyzing them. We will discuss the financial statements, the accounting disclosure rules, the differential effects of alternative accounting principals, and the interpretation of financial information. Students' motivation and skill development will be enhanced by using problems and cases for actual companies. You will ultimately be better able to make judgements about the cash flows, earnings quality, hidden assets and liabilities, and the overall performance of the enterprise.

COURSE DESCRIPTION

This course will look at the Accounting Policies which can effect the profit activity of a corporation.

Prerequisite:
It is assumed that all students have a basic knowledge of accounting principles comparable to the materials covered in A611/12 (Financial Accounting). If you do not, you should catch up as quickly as possible. (You may choose to review Appendix 1-A, pp. 35-55, in the first reference text.)

LEARNING OUTCOMES

Upon completion of this course, students will be able to complete the following key tasks:

➢ Play the role of the main decision-maker(s) while taking all stakeholders into account;
➢ Formulate a strategic plan while considering the organization’s capabilities and environmental context;
➢ Identify the important opportunities and challenges facing a business and setting out a course of action for dealing with them;
➢ Detail an action plan that is operationally specific.

REQUIRED COURSE MATERIALS AND READINGS

Custom Courseware

OPTIONAL COURSE MATERIALS AND READINGS

**EVALUATION**

**Group=s hand-in cases and presentation:**

The cases are used to reinforce, integrate and supplement the course material, and to provide practice in its application. A total of 6 cases will be analyzed throughout the semester. Only your best 4 will be counted towards your grade. Each case will be assigned to groups: one group will be responsible for presenting the case and the other groups will critique the analysis of the presenting group. The presenting group will have 25 minutes to present the highlights of its solution to the case and the other groups will have 10 minutes critique. At the end of the class, all groups will hand in their written analysis. The maximum length of a hand-in case will not exceed 8 pages of double-spaced typed text (inclusive of exhibits and figures).

Groups will be formed on a volunteer basis with 3-4 students in each group. Each group is required to submit a list with the names and student numbers for all the group=s members.

**Term project**

The project involves in-depth analysis of a firm=s financial statements and its industry. You select the firm to be analyzed. It must be a publicly-traded American (i.e., U.S.) firm in the manufacturing or merchandising sectors. You may select any company. Ask the firm to mail you the last two recent annual reports, the most recent 10-K form, any 10-Q forms since the last annual report, and the most recent proxy statement. Also, it is possible to obtain the most recent annual report by calling 1-800-4-ANNUAL (also at http://www.cedar.com). In order for the analysis to be meaningful, you will need at least 5 years of data. You may want to call the company, instead of writing, to expedite the process. Phone numbers are available in the analyst report (see below) and in Standard & Poor=s Registerer of Corporation.

The analysis should include, among other things, risk and profitability evaluation for the company and its primary industry and an estimate of net assets for the most recent balance sheet date, which considers such items as inventories, marketable securities, pensions, and leases. The project is due on the last day of classes, and must be accompanied by copies of the latest annual report used in the analysis. The expected length is 15 double-spaced typed pages (including appendices). The project will be presented in class.

**Group evaluation**

Your individual mark for group work will be based on a combination of:

- the mark assigned to the group=s hand-in cases and term project;
- your contribution to the group work as evaluated by your peers and yourself. You will be given the opportunity to make your confidential peer evaluation in writing.
Participation
You are expected to be prepared for each class by reading the assigned material and be a willing participant in discussions.

Midterm exam
This will be closed book, short answer and problem oriented exam on all topics covered prior to the exam date. It is likely that part of this exam will involve finding and developing information from an annual report. It is tentatively scheduled for Tuesday, October 31, 2006. If you cannot take the exam at the scheduled time, you must have a truly excellent excuse.

Important dates in the course
September 15  Form groups and inform instructor
September 29  Inform instructor of the term project topic (i.e., name of company to be analyzed).
November 14  Midterm examination
(Tentative)
December 1  Project presentations and Term project report is due

Learning in this course results primarily from in-class discussion and participation of comprehensive business cases as well as out-of-class analysis. The balance of the learning results from the lectures on strategic concepts, from related readings, and from researching your presentations, cases, assignments, simulation decisions and projects. All work will be evaluated on an individual basis except in certain cases where group work is expected. In these cases group members will share the same grade adjusted by peer evaluation. Your final grade will be calculated as follows:

**Communication and Feedback**

Students that are uncomfortable in directly approaching an instructor regarding a course concern may choose to send a confidential and anonymous email to the respective Area Chair at:

http://www.degroote.mcmaster.ca/curr/emailchairs.aspx

Instructors should conduct an informal course review with students by Week #4 to allow time for modifications in curriculum delivery. Instructors should provide evaluation feedback for at least 10% of the final grade to students prior to Week #8 in the term.

**ACADEMIC DISHONESTY**

It is the student’s responsibility to understand what constitutes academic dishonesty. Please refer to the University Senate Academic Integrity Policy at the following URL:

http://www.mcmaster.ca/univsec/policy/AcademicIntegrity.pdf

This policy describes the responsibilities, procedures, and guidelines for students and faculty should a case of academic dishonesty arise. Academic dishonesty is defined as to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. Please refer to the policy for a list of examples. The policy also provides faculty with procedures to follow in cases of academic dishonesty as well as general guidelines for penalties. For further information related to the policy, please refer to the Office of Academic Integrity at:

COPYRIGHT

McMaster University has signed a license with the Canadian Copyright Licensing Agency (Access Copyright) which allows professors, students, and staff to make copies allowed under fair dealing. Fair dealing with a work does not require the permission of the copyright owner or the payment of royalties as long as the purpose for the material is private study, and that the total amount copied equals NO MORE THAN 10 percent of a work or an entire chapter which is less than 20 percent of a work. In other words, it is illegal to: i) copy an entire book, or ii) repeatedly copy smaller sections of a publication that cumulatively cover over 10 percent of the total work’s content. Please refer to the following copyright guide for further information:

http://library.mcmaster.ca/about/copying.pdf

POLICY ON MISSED MID-TERM EXAMINATIONS / TESTS

Where students miss a regularly scheduled midterm for legitimate reasons as adjudicated by the Academic Programs Office (APO), the weight for that test will be distributed across other evaluative components of the course at the discretion of the instructor. Documentation explaining such an absence must be provided to the APO within five (5) working days upon returning to school. The approved McMaster Medical Form must be used to document absence for health related reasons. If an exam is missed without a valid reason, students will receive a grade of Zero (0) for that component. University policy states that a student may submit a maximum of three (3) medical certificates per year after which the student must meet with the Director of the program. Please see the following URL for APO forms:

http://www.degroote.mcmaster.ca/UG/register.html

Students unable to write at the posted exam time due to the following reasons: religious; work-related (for part-time students only); representing university at an academic or varsity athletic event; and conflicts between two overlapping scheduled midterm exams, have the option of applying for special exam arrangements. Such requests must be made to the APO at least ten (10) working days before the scheduled exam along with acceptable documentation. There will be only one common sitting for the special exam. Instructors cannot themselves allow students to unofficially write make-up exams/tests. Adjudication of the request must be handled by the APO.

STUDENTS WITH DISABILITIES

Students with disabilities are required to inform the Centre for Student Development (CSD) of accommodation needs for examinations on or before the last date for withdrawal from a course without failure (please refer to official university sessional dates). Students must forward a copy of such CSD accommodation to the instructor immediately upon receipt. If a student with a disability chooses NOT to take advantage of a CSD accommodation and chooses to sit for a regular exam, a petition for relief may not be filed after the examination is complete. Financial Decision Making and Data Interpretation Analysis
Winter 2009 Course Outline

Finance and Business Economics Area
DeGroote School of Business
McMaster University

**COURSE OBJECTIVE**

The course is designed to provide you with advanced conceptual background and analytical tools necessary to evaluate financial statements issued by publicly held enterprises. The course is meant to complement related studies in accounting, finance, economics, business policy, and statistical analysis. It focuses on understanding the uses and the limitation of both the financial statements and the traditional and non-traditional methods used in analyzing them. We will discuss the financial statements, the accounting disclosure rules, the differential effects of alternative accounting principals, and the interpretation of financial information. Students motivation and skill development will be enhanced by using problems and cases for actual companies. You will ultimately be better able to make judgements about the cash flows, earnings quality, hidden assets and liabilities, and the overall performance of the enterprise.

COURSE DESCRIPTION

This course will look at the Accounting Policies which can effect the profit activity of a corporation.

Prerequisite:
It is assumed that all students have a basic knowledge of accounting principles comparable to the materials covered in A611/12 (Financial Accounting). If you do not, you should catch up as quickly as possible. (You may choose to review Appendix I-A, pp. 35-55, in the first reference text.)

LEARNING OUTCOMES

Upon completion of this course, students will be able to complete the following key tasks:

➢ Play the role of the main decision-maker(s) while taking all stakeholders into account;
➢ Formulate a strategic plan while considering the organization’s capabilities and environmental context;
➢ Identify the important opportunities and challenges facing a business and setting out a course of action for dealing with them;
➢ Detail an action plan that is operationally specific.

REQUIRED COURSE MATERIALS AND READINGS

Custom Courseware

• purchase a copy at the bookstore "Courseware Notes for Selected Topics: Financial Decision Making and Data Interpretation Analysis"

OPTIONAL COURSE MATERIALS AND READINGS

EVALUATION

Groups hand-in cases and presentation:
The cases are used to reinforce, integrate and supplement the course material, and to provide practice in its application. A total of 6 cases will be analyzed throughout the semester. Only your best 4 will be counted towards your grade. Each case will be assigned to groups: one group will be responsible for presenting the case and the other groups will critique the analysis of the presenting group. The presenting group will have 25 minutes to present the highlights of its solution to the case and the other groups will have 10 minutes critique. At the end of the class, all groups will hand in their written analysis. The maximum length of a hand-in case will not exceed 8 pages of double-spaced typed text (inclusive of exhibits and figures).

Groups will be formed on a volunteer basis with 3-4 students in each group. Each group is required to submit a list with the names and student numbers for all the group’s members.

Term project
The project involves in-depth analysis of a firm’s financial statements and its industry. You select the firm to be analyzed. It must be a publicly-traded American (i.e., U.S.) firm in the manufacturing or merchandising sectors. You may select any company. Ask the firm to mail you the last two recent annual reports, the most recent 10-K form, any 10-Q forms since the last annual report, and the most recent proxy statement. Also, it is possible to obtain the most recent annual report by calling 1-800-4-ANNUAL (also at http://www.cedar.com). In order for the analysis to be meaningful, you will need at least 5 years of data. You may want to call the company, instead of writing, to expedite the process. Phone numbers are available in the analyst report (see below) and in Standard & Poor’s Registrar of Corporation.

The analysis should include, among other things, risk and profitability evaluation for the company and its primary industry and an estimate of net assets for the most recent balance sheet date, which considers such items as inventories, marketable securities, pensions, and leases. The project is due on the last day of classes, and must be accompanied by copies of the latest annual report used in the analysis. The expected length is 15 double-spaced typed pages (including appendices). The project will be presented in class.

Group evaluation
Your individual mark for group work will be based on a combination of:
- the mark assigned to the group’s hand-in cases and term project;
- your contribution to the group work as evaluated by your peers and yourself. You will be given the opportunity to make your confidential peer evaluation in writing.

www.degroote.mcmaster.ca
Participation
You are expected to be prepared for each class by reading the assigned material and be a willing participant in discussions.

Midterm exam
This will be closed book, short answer and problem oriented exam on all topics covered prior to the exam date. It is likely that part of this exam will involve finding and developing information from an annual report. It is tentatively scheduled for Friday, March 13, 2009. If you cannot take the exam at the scheduled time, you must have a truly excellent excuse.

Important dates in the course
January 14  Form groups and inform instructor
January 21  Inform instructor of the term project topic (i.e., name of company to be analyzed).
March 13  Midterm examination
(Tentative)
April 1  Project presentations and Term project report is due

Learning in this course results primarily from in-class discussion and participation of comprehensive business cases as well as out-of-class analysis. The balance of the learning results from the lectures on strategic concepts, from related readings, and from researching your presentations, cases, assignments, simulation decisions and projects. All work will be evaluated on an individual basis except in certain cases where group work is expected. In these cases group members will share the same grade adjusted by peer evaluation. Your final grade will be calculated as follows:

**BRIEF DESCRIPTION FOR CALENDAR** - Provide a brief description *(maximum 6 lines)* to be included in the Graduate Calendar.

This course examines the various components of working capital, how they interact with one another, and how they affect firm liquidity, default risk and shareholder wealth. The course will build on the principles of financial management taught in F600 and will apply the principles and concepts of financial theory to problems and decisions associated with short-term (working) capital. The objective will be to use working capital optimally, and ultimately to maximize shareholder wealth.

**CONTENT/RATIONALE** - Provide a brief description, i.e., outline the topics or major sub-topics, and indicate the principal texts to be used.

This course was offered on Dean’s permission in Fall 2007 and in Fall 2008. It has been well received by students, and the interest level warrants offering this course on a regular basis. A course outline is attached.
1. **STATEMENT OF PURPOSE** (How does the course fit into the department's program?)

   This course will complement current offerings in corporate finance. It will focus on an area of corporate finance - working capital management - that is presently not covered in any of the other courses, apart from a brief introduction in Business F600.

2. **EXPECTED ENROLMENT:**

   25

3. **DESCRIBE IN DETAIL THE METHOD OF PRESENTATION OF COURSE MATERIAL (i.e., lectures, seminars):**

   Lecture and case studies.

4. **DESCRIBE IN DETAIL THE METHOD OF EVALUATION:** (For 600-level course, indicate the Extra Work to be required of graduate students, i.e., exams, essays, etc.)

   Exams and a group project.

5. **TO PREVENT OVERLAP, IS A COURSE IN THE SAME OR A RELATED AREA OFFERED IN ANOTHER DEPARTMENT? IF YES, PLEASE ATTACH TO THIS FORM ANY RELEVANT CORRESPONDENCE WITH THE OTHER DEPARTMENT(S).**

COURSE DESCRIPTION

Although finance managers spend a significant amount of time (close to 50%, according to some studies) on problems related to short-term finance, short-term or working capital management is only taught as a chapter or a section in most Financial Management or Corporate Finance courses. This course, however, is entirely devoted to working capital management. We will study the different components of working capital (cash, receivables, payables, inventory, etc.), and how to manage them so as to maximize shareholder wealth. The principles and concepts of finance theory will be applied to problems and decisions associated with working capital. We will focus on the optimal (or value-maximizing) use of working capital. This course includes theoretical and applied components. Practical applications are useful, but cannot be studied fruitfully without a sound knowledge of the underlying theory. Hence there will be considerable emphasis on the theory. Numerical examples will be very important in illustrating the concepts and applications to be covered in this course. The format will be predominantly lecture-oriented, supplemented by a set of cases.

LEARNING OUTCOMES

Upon completion of this course, students will be able to complete the following key tasks:

➢ analyze the effects of working capital policies on equity value and default risk;
➢ design optimal working capital policies (cash, inventory, etc), given the characteristics of the industry and the firm;
➢ determine the best way to invest surplus short-term funds and the best way to raise short-term funds; and
➢ design an optimal overall working capital management policy for the firm.

**Communication and Feedback**

Students that are uncomfortable in directly approaching an instructor regarding a course concern may choose to send a confidential and anonymous email to the respective Area Chair at:

[www.degroote.mcmaster.ca](http://www.degroote.mcmaster.ca)
Students who wish to correspond with instructors directly via email must send messages that originate from their official McMaster University email account. This protects the confidentiality and sensitivity of information as well as confirms the identity of the student.

Instructors should conduct an informal course review with students by Week #4 to allow time for modifications in curriculum delivery. Instructors should provide evaluation feedback for at least 10% of the final grade to students prior to Week #8 in the term.

**ACADEMIC DISHONESTY**

It is the student's responsibility to understand what constitutes academic dishonesty. Please refer to the University Senate Academic Integrity Policy at the following URL:

http://www.mcmaster.ca/univsec/policy/AcademicIntegrity.pdf

This policy describes the responsibilities, procedures, and guidelines for students and faculty should a case of academic dishonesty arise. Academic dishonesty is defined as to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. Please refer to the policy for a list of examples. The policy also provides faculty with procedures to follow in cases of academic dishonesty as well as general guidelines for penalties. For further information related to the policy, please refer to the Office of Academic Integrity at:

http://www.mcmaster.ca/academicintegrity

**COPYRIGHT**

McMaster University has signed a license with the Canadian Copyright Licensing Agency (Access Copyright) which allows professors, students, and staff to make copies allowed under fair dealing. Fair dealing with a work does not require the permission of the copyright owner or the payment of royalties as long as the purpose for the material is private study, and that the total amount copied equals NO MORE THAN 10 percent of a work or an entire chapter which is less than 20 percent of a work. In other words, it is illegal to: i) copy an entire book, or ii) repeatedly copy smaller sections of a publication that cumulatively cover over 10 percent of the total work's content. Please refer to the following copyright guide for further information:

http://library.mcmaster.ca/about/copying.pdf

**POLICY ON MISSED MID-TERM EXAMINATIONS / TESTS**

Where students miss a regularly scheduled midterm for legitimate reasons as adjudicated by the Academic Programs Office (APO), the weight for that test will be distributed across other
evaluative components of the course at the discretion of the instructor. Documentation explaining such an absence must be provided to the APO within five (5) working days upon returning to school. The approved McMaster Medical Form must be used to document absence for health related reasons. If an exam is missed without a valid reason, students will receive a grade of Zero (0) for that component. University policy states that a student may submit a maximum of three (3) medical certificates per year after which the student must meet with the Director of the program. Please see the following URL for APO forms:

http://www.degroote.mcmaster.ca/UG/register.html

Students unable to write at the posted exam time due to the following reasons: religious; work-related (for part-time students only); representing university at an academic or varsity athletic event; and conflicts between two overlapping scheduled midterm exams, have the option of applying for special exam arrangements. Such requests must be made to the APO at least ten (10) working days before the scheduled exam along with acceptable documentation. There will be only one common sitting for the special exam. Instructors cannot themselves allow students to unofficially write make-up exams/tests. Adjudication of the request must be handled by the APO.

**STUDENTS WITH DISABILITIES**

Students with disabilities are required to inform the Centre for Student Development (CSD) of accommodation needs for examinations on or before the last date for withdrawal from a course without failure (please refer to official university sessional dates). Students must forward a copy of such CSD accommodation to the instructor immediately upon receipt. If a student with a disability chooses NOT to take advantage of a CSD accommodation and chooses to sit for a regular exam, a petition for relief may not be filed after the examination is complete. The CSD website is:

COURSE DESCRIPTION

Upon completion of this course, students will be able to name and discuss the issues in insurance and will be able to demonstrate this knowledge by being able to evaluate possible outcomes for various courses of actions.

LEARNING OUTCOMES

Upon completion of this course, students will be able to complete the following key tasks:

➢ Recognize risk exposures in various situations;
➢ Classify risks in order to assess risk exposures;
➢ Use appropriate risk management techniques for various situations; and
➢ Understand how the basic principles apply to both themselves and others.

REQUIRED COURSE MATERIALS AND READINGS

EVALUATION

A combination of lectures, discussion and problem solving. Students will be encouraged to think, analyze, evaluate, and problem-solve, not memorize. Students are expected to come to class on time and be prepared for the class, i.e., to have read the assigned reading and to have done the assigned problems. Your final grade will be calculated as follows:

The group assignment report must be typed (double space). They can be completed in groups of no more than 4 students. The groups are to be organized by students themselves. Your mark will be first based on content, and second, on presentation. Presentation includes effective and correct use of the English language.

The assignment is due at the start of class indicated on the class schedule section of the course outline. Late assignments will not be accepted unless the student and the professor have made prior arrangements.

The term-tests and final exam are 60% closed book, multiple choice and 40% open book, short answer. Students may use any aids with the exception of another person or a personal computer.

Students must pass the combination of the term tests and final exam in order to pass the course.

Class Contribution
Your contribution is essential component in the overall education process. Contribution takes place in many forms: asking informed questions in class, making intelligent comments, reading the case and being prepared to discuss the issues, actively listening to your peers and working with others. Please remember that quantity is no substitute for quality.

There will be ample opportunity to contribute to the class. The format of the in-class discussions of cases may take a variety of forms including: group analysis of single case issues during class, presentation of issues and leading discussions of the case issues.

It is your responsibility to ensure that you take an active role in class. If this is a problem for you, I urge you to talk to me to discuss ways that you can make a contribution. The grading for the class contribution in each class is as follows:

<th>LECTURE</th>
</tr>
</thead>
</table>
| Sept 10 | 1       | *Introduction to Risk and Insurance*  
            *Risk, Risk Management and Insurance*  
            This chapter introduces the concept of risk and the various ways to evaluate and manage it. The basics of insurance – one way of managing risk – is then introduced. |
| Sept 17 | 2       | *Insurance Basics*  
            This chapter provides the underpinnings of insurance rates as well as the essence of Contracts – all insurance policies are contracts – and Negligence – the basis for the need for liability insurance |
| Sept 24 | 3       | *General Insurance*  
            *Automobile Insurance*  
            After covering the fundamentals of personal auto insurance, the Ontario Automobile Policy is covered in order to know how and what is covered. |
| Oct 1   | 4       | *Homeowners’ Insurance*  
            Again, details of a policy are examined to uncover the mysteries of the various parts of the policy. |
| Oct 15  | 5       | *Term Test #1 – Chapters 1 to 3 inclusive*  
            *Commercial Insurance*  
            Commercial coverage has many more aspects to it than personal coverage because there are many more loss exposures. |
| Oct 22  | 5       | *Term Test #2 Chapters 4 to 6 inclusive* |
| Oct 29  | 6       | *Life and Health Insurance*  
            *Health Care*  
            The Canada Health Act regulates provincial and territorial health plans. Workers’ Compensation, Canada Pension Plan and Employment Insurance also provide support for workers when they are unable to work due to illness. |
| Nov 5   | 7       | *Income Protection Plans*  
            This covers individual and group (employer-sponsored) coverage for health, disability, critical care, long-term care and travel insurance. |
| Nov 12  | 8       | *Term Test #2 Chapters 4 to 6 inclusive*  
            *Life Insurance*  
            The basic life insurance contract is reviewed and the various types of contracts available – term life, whole life, universal life and segregated funds. |
| Nov 19  | 9       | *The Insurance Industry*  
            *Group Assignment Due*  
            *Insurance Operations and Insurance Industry*  
            This includes the build-up of reserve – funds set aside to meet future operations and the special accounting rules employed by the insurance industry – as well the distribution system for insurance products and special accounting principles for the insurance industry. Also covered is the insurance industry – its size, regulations covering licensing, and organizations which support both the insurance industry and consumers. |
| Dec 3   | 9       | *Final Exams*  
            The open book part of the final exam covers the entire course while the closed book part covers only the last 3 chapters. |

**Academic Dishonesty**

It is the student’s responsibility to understand what constitutes academic dishonesty. Please refer to the University Senate Academic Integrity Policy at the following URL:  
http://www.mcmaster.ca/univsec/policy/AcademicIntegrity.pdf

This policy describes the responsibilities, procedures, and guidelines for students and faculty should a case of academic dishonesty arise. Academic dishonesty is defined as to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. Please refer to the policy for a list of examples. The policy also provides faculty with procedures to follow in cases of academic dishonesty as well as general guidelines for penalties. For further information related to the policy, please refer to the Office of Academic Integrity at:  
http://www.mcmaster.ca/academicintegrity

**Copyright**

McMaster University has signed a license with the Canadian Copyright Licensing Agency (Access Copyright) which allows professors, students, and staff to make copies allowed under *fair dealing*. *Fair dealing* with a work does not require the permission of the copyright owner or the payment of royalties as long as the purpose for the material is private study, and that the total amount copied equals *NO MORE THAN 10 percent* of a work or an entire chapter which is less than 20 percent of a work. In other words, it is illegal to: i) copy an entire book, or ii) repeatedly copy smaller sections of a publication that cumulatively cover over 10 percent of the total work’s content. Please refer to the following copyright guide for further information:  
http://library.mcmaster.ca/about/copying.pdf
**Missed Exams / Tests**

The Faculty of Business has approved the following policy:

When students miss a regularly scheduled mid-term exam for legitimate reasons, as adjudicated by the Academic Programs Office (APO), the weight for that exam will be redistributed across other evaluative components of the course as deemed most appropriate by the instructor.

There are two exceptions to this “no make-up” rule.

1) If a student has a documented stress-related or retention-related disability (assessed through the Centre for Student Development) that is in conflict with mark redistribution, then a make-up exam may be given. In such cases, the test/exam will be administered through the CSD. When a student cannot write a final exam for documented, legitimate reasons, the student will be granted a deferred exam privilege.

2) If a student is representing the University at an academic or athletic event and is available at an overlapping scheduled time of the test/examination, the student may write the test/examination at an approved location with an approved invigilator, as determined by the APO.

Instructors cannot themselves allow students to unofficially write make-up exams/tests for finals. Adjudication of the request must be handled by the APO.

For any other issues pertaining to missed exams, tests or assignments, please contact the APO.

**Students With Disabilities**

Students with disabilities are required to inform the Centre for Student Development (CSD) of accommodation needs for examinations on or before the last date for withdrawal from a course without failure (please refer to official university sessional dates). Students must forward a copy of such CSD accommodation to the instructor immediately upon receipt. If a student with a disability chooses NOT to take advantage of a CSD accommodation and chooses to sit for a regular exam, a petition for relief may not be filed after the examination is complete. COURSE DESCRIPTION

Case studies will explore comprehensive financial planning which reflects the client’s goals. Students will be introduced to Financial Counselling and the ways it impacts a client’s financial dealings. Students are also introduced to an alternative model of Financial Planning. In addition, the course covers managing a professional practice.

LEARNING OUTCOMES

Students will know all the issues and many strategies for dealing with various financial planning issues. At the end of the course, students will be able to analyze various situations and recommend appropriate strategies for handling them.

REQUIRED COURSE MATERIALS AND READINGS

☑ Handouts, cases and material distributed in class.

☑ A financial calculator.

☑ Daily reading of The Globe and Mail or The National Post.

EVALUATION

A combination of lectures, discussion and problem solving. Students will be encouraged to think, analyze, evaluate, and problem-solve, not memorize. Students are expected to come to class on time and be prepared for the class, i.e., to have read the assigned reading and to have done the assigned problems. Your final grade will be calculated as follows:

NOTE: The use of a financial calculator is allowed during examinations in this course. See McMaster calculator policy at the following URL:

http://www.mcmaster.ca senate/academic/calculator.htm
Students must pass the combination of the term tests and final exam in order to pass the course although the final mark will include the assignment.

Closed book, individual quizzes will be given at the beginning of the class (see schedule on the on page 6). The best 6 out of 8 will be counted. They are multiple-choice and will cover the case and the review topic that will be distributed in class the prior week. The quizzes will test basic facts of the cases and the requirements for the CFP exam that are covered in the class and handouts.

The term test and exam are closed book, 50% multiple-choice and 50% essay question. If a student misses the term test, a doctor's note will allow them to move the weight to the final exam. Makeup quizzes and term test will not be given. The term test and final exam will cover handouts, web site material assigned and all information from the classes.

The group assignment report must be typed (double space). They can be completed in groups of no more than 4 students. The groups are to be organized by students themselves. Your mark will be first based on content, and second, on presentation. Presentation includes effective and correct use of the English language.

Each report must include an executive summary (maximum length of one page) outlining key issues and conclusion. Figures and tables should be put in an appendix at the end of the report. All tables and figures must be numbered and all pages (including pages with tables and figures) must also be numbered.

**Class Contribution**

Your contribution is essential component in the overall education process. Contribution takes place in many forms: asking informed questions in class, making intelligent comments, reading the case and being prepared to discuss the issues, actively listening to your peers and working with others. Please remember that quantity is no substitute for quality.

There will be ample opportunity to contribute to the class. The format of the in-class discussions of cases may take a variety of forms including: group analysis of single case issues during class, presentation of issues and leading discussions of the case issues.
It is your responsibility to ensure that you take an active role in class. If this is a problem for you, I urge you to talk to me to discuss ways that you can make a contribution. The grading for the class contribution in each class is as follows:

<table>
<thead>
<tr>
<th>Grade</th>

<tbody>
<tr>
<td>0</td>
<td>Does not show up for class.</td>
</tr>

</tr>
</tbody>
</table>

Every effort will be made to manage the course as stated here. However, adjustments may be necessary for various reasons at the discretion of the professor. Any alterations will be announced prior to being implemented.

**Conversion**

At the end of the course your overall percentage grade will be converted to your letter grade in accordance with the following conversion scheme.

Students are expected to come to class on time and be prepared for the class, i.e., to have read the assigned reading and to have done the assigned problems. Your final grade will be calculated as follows:

The group assignment report must be typed (double space). They can be completed in groups of no more than 4 students. The groups are to be organized by students themselves. Your mark will be first based on content, and second, on presentation. Presentation includes effective and correct use of the English language.

The assignments are due at the start of class indicated on the class schedule section of the course outline. Late assignments will not be accepted unless the student and the professor have made prior arrangements.

Each report must include an executive summary (maximum length of one page) outlining key issues and conclusion. Figures and tables should be put in an appendix at the end of the report. All tables and figures must be numbered and all pages (including pages with tables and figures) must also be numbered.

The midterm and final exams are open book. Students may use any aids with the exception of another person or a personal computer.

Students must pass the combination of the term tests and final exam in order to pass the course.
Class Contribution

Your contribution is essential component in the overall education process. Contribution takes place in many forms: asking informed questions in class, making intelligent comments, reading the case and being prepared to discuss the issues, actively listening to your peers and working with others. Please remember that quantity is no substitute for quality.

There will be ample opportunity to contribute to the class. The format of the in-class discussions of cases may take a variety of forms including: group analysis of single case issues during class, presentation of issues and leading discussions of the case issues.

It is your responsibility to ensure that you take an active role in class. If this is a problem for you, I urge you to talk to me to discuss ways that you can make a contribution. The grading for the class contribution in each class is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Contribution</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>Does not show up for class.</td>
</tr>
<tr>
<td>1</td>
<td>Attends class but says very little.</td>
</tr>
<tr>
<td>2</td>
<td>Makes a significant contribution to the class by making important points with a significant element of originality or demonstrating mastery of difficult theoretical issues or concepts; is always prepared having read and analyzed prior to class, the various aspects of the problems and issues involved, shares in class presentations, contributes to in-class group work.</td>
</tr>
</tbody>
</table>

Every effort will be made to manage the course as stated here. However, adjustments may be necessary for various reasons at the discretion of the professor. Any alterations will be announced prior to being implemented.

Academic Dishonesty

It is the student’s responsibility to understand what constitutes academic dishonesty. Please refer to the University Senate Academic Integrity Policy at the following URL:

http://www.mcmaster.ca/univsec/policy/AcademicIntegrity.pdf

This policy describes the responsibilities, procedures, and guidelines for students and faculty should a case of academic dishonesty arise. Academic dishonesty is defined as to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. Please refer to the policy for a list of examples. The policy also provides faculty with procedures to follow in cases of academic dishonesty as well as general guidelines for penalties. For further information related to the policy, please refer to the Office of Academic Integrity at:

COPYRIGHT

McMaster University has signed a license with the Canadian Copyright Licensing Agency (Access Copyright) which allows professors, students, and staff to make copies allowed under fair dealing. Fair dealing with a work does not require the permission of the copyright owner or the payment of royalties as long as the purpose for the material is private study, and that the total amount copied equals NO MORE THAN 10 percent of a work or an entire chapter which is less than 20 percent of a work. In other words, it is illegal to: i) copy an entire book, or ii) repeatedly copy smaller sections of a publication that cumulatively cover over 10 percent of the total work’s content. Please refer to the following copyright guide for further information:

MISSED EXAMS / TESTS

The Faculty of Business has approved the following policy:

When students miss a regularly scheduled mid-term exam for legitimate reasons, as adjudicated by the Academic Programs Office (APO), the weight for that exam will be redistributed across other evaluative components of the course as deemed most appropriate by the instructor.

There are two exceptions to this “no make-up” rule.

1) If a student has a documented stress-related or retention-related disability (assessed through the Centre for Student Development) that is in conflict with mark redistribution, then a make-up exam may be given. In such cases, the test/exam will be administered through the CSD. When a student cannot write a final exam for documented, legitimate reasons, the student will be granted a deferred exam privilege.

2) If a student is representing the University at an academic or athletic event and is available at an overlapping scheduled time of the test/examination, the student may write the test/examination at an approved location with an approved invigilator, as determined by the APO.

Instructors cannot themselves allow students to unofficially write make-up exams/tests for finals. Adjudication of the request must be handled by the APO.

For any other issues pertaining to missed exams, tests or assignments, please contact the APO.

STUDENTS WITH DISABILITIES

Students with disabilities are required to inform the Centre for Student Development (CSD) of accommodation needs for examinations on or before the last date for withdrawal from a course without failure (please refer to official university sessional dates). Students must forward a copy of such CSD accommodation to the instructor immediately upon receipt. If a student with a disability chooses NOT to take advantage of a CSD accommodation and chooses to sit for a regular exam, a petition for relief may not be filed after the examination is complete. **MBA DEFERRED EXAM PROCEDURE**

**PURPOSE:** To change the DSU’s procedure in scheduling deferred exams for MBA students

**CURRENT SITUATION:**
- **Deferred examination privileges,** if granted, must be satisfied during the examination period at the end of the term immediately following. Failure to write an approved deferred examination at the pre-scheduled time will result in a failure for that examination, except in the case of exceptional circumstances where documentation has been provided and approved. Requests for a second deferral or rescheduling of a deferred examination will not be considered.

**REFERENCE IN MBA ACADEMIC CALENDAR:**
Any student who is unable to write a final examination because of illness is required to submit a statement from a doctor certifying illness on the date of the examination. The Application for Deferred MBA Final Examination form and the McMaster University Student Medical Certificate can be found in the Academic Programs Office or on the DeGroote website at http://registrar.mcmaster.ca/forms/medical.htm. Students who write examinations while ill will not be given special consideration after the fact.

*In such cases, the request for a deferred examination privilege must be made in writing to the Academic Programs Office within five working days of the missed examination. Special examination arrangements may be made for students unable to write at the posted exam time due to compelling reasons (for example religious, or for part-time students only, work-related reasons): Students who have religious obligations which make it impossible to write examinations at the times posted are required to produce a letter from their religious leader stating that they are unable to be present owing to a religious obligation. Part-time students who have business commitments which make it impossible to write examinations at the times posted are required to produce a letter on company letterhead from the student's immediate supervisor stating that they are unable to be present owing to a specific job commitment. In such cases, applications must be made in writing to the Academic Programs Office at least ten working days before the scheduled examination date and acceptable documentation must be supplied.*

If a student is representing the University at an academic or athletic event and is available at an overlapping scheduled time of the test/examination, the student may write the test/examination at an approved location with an approved invigilator, as determined by the Academic Programs Office. In such cases, the request for a deferred examination privilege must be made in writing to the Academic Programs Office within ten working days of the end of the examination period.

**CURRENT ARRANGEMENTS MADE BY THE APO:**
- The current process uses several options that have evolved out of a the perceived goal to accommodate specific student requests and internal administrative and scheduling issues
- Student should write the deferred exam during the same time that the next exam in that course is being offered (as long as it is in the term immediately following). If this is not possible, the exam is scheduled to be written with another exam in the same discipline (e.g. Accounting, Finance, Marketing), and an invigilator is assigned.
- For students on a work-term, the above procedure is applied and the APO tries to schedule the exam on an evening or a Saturday to avoid a work conflict.
- Before a deferred exam time is confirmed, the APO must check with the course instructor to ensure that students can write their deferred exam during instructor’s scheduled final exam. If the instructor objects to this, APO must repeat this process until an instructor is found. Students are then notified of confirmed date and time.
- If student is unable to write the deferred exam during the Final Exam period, special accommodations are made:
  - The student needs to write the exam no later than one week after the end of the Final exam period
  - The exam has to be written during the day
APO books a room, obtains a copy of the deferred exam and supervises the writing of the exam.

PROBLEMS WITH THIS PROCEDURE:
- Process can become cumbersome, especially when there are several students writing different deferred exams
- Difficult to arrange rooms and invigilators
- Instructors are not there to answer students’ questions
- Students are dissatisfied with the process and vocalize this through complaints to the APO

PROPOSAL:
- Designate one during the Final Exam Period for all Deferred Exams (which may be a Saturday). All students write at the same time, same room with one invigilator.
- Try to ensure appropriate Instructors are available at this time to answer questions.
- Add the following to the MBA Calendar: “One day during the examination period will be designated for the writing of all deferred examinations (which may be a Saturday). It is the student’s responsibility to ensure they are available to write the deferred on this pre-determined day.”
