Using the Calendar

Please read carefully all sections in this Calendar which pertain to your residency at McMaster University.

The first sections describe University-wide procedures and regulations. These are *Sessional Dates, Degrees and Programmes, Degrees by Programme, Glossary, Admission Requirements, Application Procedures* and *Academic Regulations, Senate Policy Statements* and *Financial Information*.

The next sections begin with descriptions of the Arts and Science programme, the School of Business, the Engineering, Health Sciences, Humanities, Science and Social Science Faculties, and the Women's Studies programme. The programme section concludes with a description of Theme Schools, Minors and Thematic Areas and Part-Time Degree Studies. Each programme section describes the undergraduate degree programme requirements by department. The *Course Listings* section completes the academic part of the Calendar.

When choosing your courses, please be careful to note all prerequisites, antirequisites, corequisites and cross-listings; they may have a significant impact on your programme. If you are not sure of the meanings of these terms, please consult the *Glossary* section of the Calendar.

Information about awards, scholarships, bursaries, loan funding, University services, the libraries, residences, computing facilities, and student activities and organizations are included in the latter sections of this Calendar.

McMaster University

McMaster University, through its continued dedication to innovative education and ground-breaking research, has earned its reputation as one of the leading post-secondary institutions in Canada.

McMaster is a medium-sized, full-service university offering educational programmes through six Faculties. The extensive activity in research, supported by more than \$74 million in grants and contracts, means there are first-class libraries and sophisticated facilities. Undergraduate teaching is conducted through the School of Business, the Faculties of Engineering, Health Sciences, Humanities, Science, and Social Sciences, and the distinctive Arts and Science programme. The Department of Kinesiology and the School of Social Work are part of the Faculty of Social Sciences.

DISCIPLINES AND DEGREES

The Arts and Science Programme offers B. Arts Sc. and Honours B. Arts Sc. degrees. It is possible to combine the programme leading to the Honours B. Arts Sc. degree with programmes that fulfill the requirements for Honours degrees in a number of different disciplines.

The Michael G. DeGroote School of Business offers the Honours B.Com. and B.Com. degrees in accounting, business policy, finance, management science and information systems, marketing and international business, and human resources and labour relations.

The Faculty of Engineering offers the Bachelor of Engineering programme in Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Engineering Physics, Manufacturing Engineering, Materials Engineering and Mechanical Engineering.

Students may register in the Faculty of Engineering to take the five-level Engineering and Management programme, which is offered jointly by the School of Business and Faculty of Engineering, or the five-level Engineering and Society programme.

The Faculty of Health Sciences has gained an international reputation for its innovative educational programming, and offers, through the School of Medicine, the M.D. programme, and through the School of Nursing offers the B.Sc.N. degree programme. The Bachelor of Health Sciences (B.H.Sc.) degree may be earned in Occupational Therapy, Physiotherapy or Midwifery.

The Faculty of Humanities offers programmes in Art, Art History, Classics (Ancient History and Archaeology, Classical Languages and Literature) Comparative Literature, Drama, English, French, History, Japanese Studies, Literary Studies, Modern Languages (German, Hispanic Studies, Italian, Russian), Modern Languages and Linguistics, Music, and Philosophy leading to B.A. degrees, as well as a Bachelor of Music degree. Students pursuing Honours degree programmes may complete and receive credit for the third level of the programme in study at a university in a country approved by the Faculty.

Bachelor of Science programmes are available in the Faculty of Science at the B.Sc. and B.Sc. Honours levels. Programmes are offered in Biochemistry, Biology, Chemistry, Computer Science, Earth Science, General Science, Geography, Geography and Environmental Science, Geology, Life Science, Mathematical Science, Mathematics, Materials Science, Medical and Health Physics, Molecular Biology and Biotechnology, Physical Science, Physics and Astronomy, Psychology, Science, and Statistics.

The School of Social Work offers the combined B.A./B.S.W. degree, and the Department of Kinesiology the B.Kin. degree.

THE UNIVERSITY

Named after Senator William McMaster, who bequeathed funds to endow a Christian school of learning, the University grew out of educational work initiated by Baptists in central Canada as early as the 1830s. After its initial years in Toronto, from 1887 to 1930, the University was moved to Hamilton. It became non-denominational in 1957, although the historic Baptist connection continues through the separately incorporated McMaster Divinity College.

More than 13,000 full-time students attend McMaster University, 1,500 of whom are pursuing advanced degrees offered through the School of Graduate Studies. In addition, about 4,000 part-time students are registered in the Fall/Winter session, from September to April, and 3,000 in the Spring/Summer session, from May to August. The University also provides courses in centres located outside Hamilton, for which full credit is granted.

Most of the 1,000 members of the University faculty hold doctoral degrees in their areas of specialization. Faculty members are expected to teach both graduate and undergraduate courses and may be involved in the academic counselling of students.

The University's diverse academic programmes are supported by some fine, and even unique, facilities. The University Library is a member of the Association of Research Libraries and contains

over 1.6 million volumes, and has subscriptions to nearly 14,000 periodical titles. The Library has an extensive special collections section which includes the Bertrand Russell Archives, 18th Century materials and major Canadian collections. Facilities for programmes in the Humanities include modern language laboratories, music rehearsal rooms, art studios, a museum of art and seminar rooms. The work of the Faculties of Science and Engineering is supported by sophisticated facilities, which include a nuclear reactor and Van De Graaff Accelerator. Computing facilities include mainframes, terminal clusters, and microcomputers. The Faculty of Engineering has arranged for students to purchase microcomputers.

The recreation, fitness and intramural programmes offer more than 30 different sports in which over 6,000 students participate. The Intercollegiate Athletic Programme provides 16 sports for men and 14 for women. The athletic facilities include a 50-metre pool, a 400-metre, all-weather track, eight hard surface all-weather tennis courts, a state-of-the-art strength training facility known as the Pulse, as well as fully equipped laboratories for exercise, physiology and biomechanics.

McMaster's campus, which is restricted to pedestrian traffic, is adjacent to the Royal Botanical Gardens at the western end of Lake Ontario. On-campus men's, women's and co-educational residences are available for about 2,786 students.

The University is minutes from downtown Hamilton, and the activities that a major city has to offer. Students can get there by car or by taking one of the buses from the region's public transit system, which make frequent stops on campus.

Sessional Dates

The academic year is divided into sessions, as shown on the chart below.

Most undergraduate students register for the Fall/Winter Session, which runs from September to April.

The Spring/Summer Session starts at the beginning of May and ends in early-August.

■ The University also offers Thematic Areas of Study and a large number of Minor programmes. Suggested lists of courses, which constitute non-degree Thematic Areas, have been assembled in the section *Minors and Thematic Areas of Study*. Also in that section are two Minors which are not connected to a specific department of Faculty. Other Minors are found in the programme sections of most departments.

GLOSSARY

Academic Probation, which may be assigned to students whose CA is at least 3.0 but less than 3.5, will allow a student to continue at the University for one reviewing period.

Advanced Standing may be granted to an applicant who has completed work at another university or college, subject to the applicant having met the minimum requirements prescribed by the University.

Antirequisite is a course which cannot be taken for credit before, after, or at the same time as the course with which it is listed.

Bursaries are granted based upon demonstrated financial need, a minimum expectation of academic accomplishment and, in some cases, other forms of earned merit. They may vary in monetary value, based upon the level of financial need demonstrated.

Continuing Student is a university graduate who is not proceeding to an advanced degree, but wishes to take one or more undergraduate courses.

Corequisite is a course which must be taken together with another course.

Course Numbers (e.g. 1A03) can be interpreted as follows: the initial digit indicates the Level of the course; the letter(s) in the middle identifies the specific courses within the Level; and the final digit(s) defines the number of units of credit associated with the course.

Cross-listed Course is a course which is listed under two or more subjects.

Cumulative Average (CA) is a weighted average based on the grades obtained in all courses taken.

Degree is conferred when a student completes a programme of study (e.g. Bachelor of Arts, Bachelor of Kinesiology, Master of Science, Doctor of Philosophy).

Department is a subdivision of a Faculty, responsible for a particular subject or group of subjects (e.g. Department of Chemistry, Department of Modern Languages).

Elective Courses are those courses taken by a student which are not specifically designated in a student's programme, but which form part of the total number of units required to complete the programme.

Extra Courses are those courses designated as "Extra", which are not included as units toward completion of a student's programme. The grades obtained in such courses will not be included in the computation of the Cumulative Average. However, they will be included in the computation of the Sessional Average and the Full-load Average.

Faculty is a major administrative and teaching unit of the University responsible for programmes and courses relating to common fields of study or academic disciplines (e.g. Faculty of Humanities, Faculty of Engineering).

Full Load is the number of units specified in the Calendar for an individual level of a programme (e.g. Honours Biology and Psychology, Level II: 33 units). If the Calendar does not specify the programme requirements by individual levels, divide the total units for all levels by the number of levels, discarding the remainder. Full-time students must carry a full load of McMaster courses to be eligible for Undergraduate In-Course Academic Awards. A full load is not required to be eligible for graduand awards.

Full-load Average (FA) is the weighted average used for Undergraduate In-Course Academic Awards. It is based on the successful completion of a full load of course units (see *Full Load* definition), and includes only courses taken in the Fall/Winter session. Overload units (those above Full Load) and Extra Courses taken during the Fall/Winter session are included in the FA.

Full-time Student for academic purposes is an undergraduate student who is registered in at least 24 units in the Fall/Winter session, including Extra Courses. Full-time status for students in the Faculty of Science Co-op programmes is granted to those students registered in at least 12 units in Term 1 or Term 2 of the Fall/Winter session.

Letter of Permission is a formal document which allows a McMaster student to take one or more courses at another university for credit towards a McMaster degree.

Level is used to describe a student's progression through a programme.

Loans are monetary advances granted to students currently registered, based upon a demonstrated means and promise of repayment.

Mature Student is at least 21 years old prior to his or her first day of classes; has not attended secondary school for at least two years; and has not previously attended university.

Minor is an option available to students enrolled in four- or five-level programmes. A Minor consists of at least 24 units — of which no more than six units may be from Level I — that meet the requirements set out in the programme description of that Minor.

Part-time Student is an undergraduate student who is registered in fewer than 24 units in the Fall/Winter session, including Extra Courses.

Post-Degree Student is a university graduate or a person with professional qualifications who is not proceeding to an advanced degree, but wishes to take one or more graduate courses.

Prerequisite is a requirement to be fulfilled before registration in a course is permitted. This is usually the successful completion of another course.

Programme is a specific combination of courses that fulfils the requirements for a degree.

Programme Probation which may be assigned to students whose CA falls within the probationary band below the minimum CA required to remain in the programme in good standing, will allow a student to continue in his/her programme for at least one reviewing period. (See the *General Academic Regulations* section in this Calendar.)

Registration is the process whereby a student enrolls in a programme of study and/or courses and pays, or makes acceptable arrangements to pay, all fees.

Required Courses are those courses which are specifically designated for inclusion in a programme.

Result of Session is the statement of the academic standing of a student at the end of a reviewing period. "May continue in programme", "May not continue" and "Clear to graduate" are three examples.

Review is an assessment of a student's performance to determine eligibility to continue in a programme or to graduate.

Reviewing Period is the time between two reviews for a student. Reviews will take place in May and August, provided the student has attempted 18 units of work since the last review or is a potential graduand.

Session is a period of study within the academic year. For example, the Fall/Winter session runs from September to April.

Sessional Average (SA) is a weighted average based on the grades attained in a session. Overload courses and Extra courses are included in the Sessional Average.

Term is a period of study within a session. The Fall/Winter session, for example, contains three terms, Term 1 runs from September to December; Term 2 runs from January to April; Term 3 runs from September to April.

Transcript is an official document summarizing the entire academic record of a student at a particular educational institution.

Tuition is fees paid in consideration for enrolment in a programme of study and selected courses.

Undergraduate Student is a student enrolled in a programme of study leading to a bachelor's degree or to the degree Doctor of Medicine.

Units define the number of credits associated with a course. Three-unit courses are usually one term in length. Six-unit courses are usually two terms, or one session.

Weighted Average is calculated by multiplying the grade points achieved in each course by the number of units in each course, totalling these results, and then dividing this result by the total number of course units. (See example under *Grading System* in the *General Academic Regulations* section in this Calendar.)

Withdrawal is the formal process of discontinuing studies in a particular course or programme.

ADMISSION REQUIREMENTS

ADMISSION FROM ONTARIO SECONDARY SCHOOLS

To be considered for admission, you must satisfy the general requirements of the University and the subject requirements for the specific programme to which you applied.

If you are an applicant from an Ontario secondary school you must meet three requirements:

1. The Ontario Secondary School Diploma with acceptable standing; and
2. An overall (and area average, where applicable) in Ontario Academic Credits (OACs) completed, which is above the minimum specified by each programme; and
3. Satisfactory completion of the subject requirements for the appropriate programme.

OAC Music is acceptable as a credit and the mark you obtained can be included in your average for admission. Alternatively, you may submit certificates from a recognized conservatory of music in Grade 4 theory, or in Grade 9 practical and Grade 3 theory. Marks supplied by an acceptable Conservatory of Music may be used to determine your average for admission.

Early Admission from Ontario Secondary Schools

Early Admission is granted annually in mid-June on a date agreed upon by all Ontario universities. Early Admission is based on interim marks, or a combination of interim and final marks, supplied by secondary schools in April and may be granted to you if you expect to acquire final standing later in the year.

If you are granted Early Admission, you must successfully complete six OACs, including all required subjects. The University reserves the right to withdraw its offer of admission if you do not meet the minimum final average prescribed for your chosen programme; if you have not received the Ontario Secondary School Diploma; or if you have not responded within the two-week response period.

Final Admission from Ontario Secondary Schools

If, prior to June, you have fulfilled the requirements for the Ontario Secondary School Diploma, including the subject requirements for your chosen programme, you may be granted an offer of Final Admission prior to June.

If you do not receive an offer of admission by June 30, you may still be considered for admission in July, when final marks are received, depending on availability in the chosen programme.

Deferral of Admission for Ontario Secondary School Students

Applicants who have been admitted to an undergraduate programme may request to defer their registration for a period of time. The University does not normally grant deferral of registration, except under exceptional circumstances.

Programme Transfer After Admission

If you have been admitted to one programme and subsequently wish to transfer to another, you may be able to do so, provided you have met the subject requirements for the second programme and a place is available. If you wish to make such a transfer please contact the Office of the Registrar.

Minimum Final Average

For Students Entering in September 1995:

All secondary school applicants admitted conditionally on interim grades must achieve the following minimum final grades in order to maintain their admission status:

Programme	Overall Average	Area Average
Business	70%	N/A
Engineering	75%	75%
Humanities	70%	65%
Midwifery	70%	N/A
Music	70%	65%

For all other Level I programmes, all secondary school applicants admitted conditionally on interim grades will be required to achieve overall averages and, where applicable, area averages, on final grades no less than 5% or its equivalent, lower than the minimum average established for conditional offers in that programme.

Applicants whose final averages fall below this level or its equivalent or whose final overall averages fall below 70%; will have their offers of admission and registrations rescinded.

The required minimum final average will be stated on the offer of conditional admission.

For Students Entering in September 1996:

All secondary school applicants admitted conditionally on interim grades will be required to achieve overall averages and, where applicable, area averages, on final grades no less than 5% or its equivalent, lower than the minimum average established for conditional offers in that programme.

Applicants whose final averages fall below this level or its equivalent or whose final overall average falls below 70%, will have their offers of admission and/or registrations rescinded.

The required minimum final average will be stated on the offer of conditional admission.

SUBJECT REQUIREMENTS FOR SPECIFIC LEVEL I PROGRAMMES

All Level I programmes have limited enrolment and admission is made by selection. Possession of the minimum admission requirements does not guarantee admission.

McMaster University offers ten Level I programmes: Arts & Science I, Business I, Engineering I, Humanities I, Kinesiology I, Midwifery I, Music I, Nursing I, Natural Sciences I and Social Sciences I.

➤ **ARTS AND SCIENCE I 0027**
You are required to submit a completed Supplementary Application. The information provided enters into the selection process. Only applicants with high academic standing are selected. In recent years successful candidates had an admission average in the upper 80s or higher. The following are the minimum requirements:

1. One of OAC English I, OAC anglais I or OAC anglais II
2. OAC Calculus
3. Completion of additional OACs to total six credits. At least three of the additional OACs must be selected from among English, Francais, other languages, Algebra and Geometry, Finite Mathematics, Biology, Chemistry, Physics, Geography, History, and Music.

➤ **BUSINESS I 0725**

The Faculty of Humanities strongly recommends that you select at least one OAC from Humanities subjects (Art, Drama, English, French, français, other languages, History and Music) in addition to Requirement 1 above.

ART 1F06: The prerequisite for ART 1F06 requires permission of the department based on **required portfolio interview**. If you intend to take ART 1F06 which is required for entrance into any Honours Art programme, you must make an appointment with the department for a portfolio interview in March. The portfolio should contain a variety of original work in different media including work derived from both first-hand observation and the imagination. Aptitude in art and academic ability are both considered in the selection process. In exceptional circumstances where distance does not allow for an interview, portfolios may be submitted in the form of colour slides or photographs. Late applications will be considered subject to space availability and merit after the first allocations have been confirmed in June. **Acceptance into ART 1F06 is contingent upon receiving written confirmation from the School of Art, Drama and Music. Please use the MHA OUAC Code to ensure proper consideration of your application.**

** Applicants to Engineering I without Calculus at the time of application will be considered conditionally providing an appropriate Calculus course is completed prior to September registration.

*** AP Mathematics or International Baccalaureate Calculus are also acceptable.

You also are required to present subjects appropriate to the programme as described under *Subject Requirements for Specific Level I Programmes* and the chart in this section.

B. Admission from Other Countries

We welcome applications from international students. We have, for convenience, indicated below our admission requirements for applicants from selected countries.

You should arrange for official matriculation certificates to be sent well in advance of the session. The equivalent of first-class standing may be required for some limited enrolment programmes. Clear notarized photocopies of certificates in a language other than English should be accompanied by notarized English transla-

tions. Clear photocopies of English language certificates must be notarized.

You are considered on an individual basis, but are strongly advised not to come to the University until you have been informed of your acceptance.

If your first language is not English, you must satisfy at least one of the following conditions. You must have:

- (i) achieved a score of at least 580 on TOEFL, or the equivalent on other recognized tests, or
- (ii) attended a Canadian educational institution for at least three years, or
- (iii) resided for at least four years in an English speaking country.

Applicants from the **General Certificate of Education** system require:

1. five GCE subjects at least two of which must be at the Advanced Level;
2. Advanced Level subjects appropriate for the programme desired, (refer above to *Subject Requirements for Specific Level 1 Programmes* in this section);
3. an average of at least C in the two Advanced Level subjects.

If you are from **Hong Kong**, you need:

1. five subjects in the GCE or University of Hong Kong Matriculation Examinations, at least two of which must be at the Advanced Level;
2. Advanced Level subjects appropriate for the programme desired, (refer above to *Subject Requirements for Specific Level 1 Programmes* in this section);
3. an average of at least C in the two Advanced Level subjects

If you are an applicant from the **United States of America**, you should have high standing from Grade 12 of an accredited high school in the U.S.A. Normally, high standing will have been demonstrated by an A (80%) standing. If you do not meet these requirements, you may qualify for admission by completing one year of college-level work with standing acceptable to the University.

C. General Policy on the Transfer of Course Credits

To facilitate programme completion by undergraduate students seeking to transfer course credit from one Ontario university to another, the universities comprising the Council of Ontario Universities agree to implement the following principles:

1. Acceptance of transfer credits among Ontario universities shall be based on the recognition that, while learning experiences may differ in a variety of ways, their substance may be essentially equivalent in terms of their content and rigour. Insofar as possible, acceptance of transfer credit shall allow for the maximum recognition of previous learning experience in university-level courses;
2. Subject to degree, grade and programme requirements, any course offered for credit by one Ontario university shall be accepted for credit by another Ontario university when there is an essential equivalency in course content. However, no course for which a grade of less than C has been achieved will be considered.

D. Advanced Credit

As noted in sections (E), (F), (H), (I), and (J) below, advanced credit may be granted if you have completed work at another university or college, and you have met the minimum requirements prescribed. Advanced credit may shorten your degree programme.

If you have acquired knowledge at another kind of institution or in a manner that makes assessment of your qualifications difficult, the University may require an examination. In such a case, the Associate Dean (Studies) of the Faculty will request that the appropriate academic Department assess the feasibility of such an examination. If an examination is deemed feasible, the academic department involved will decide the appropriate method of evaluation and will be responsible for administering it. The examination must be arranged by the last date for registration in your initial term at the University and may not be repeated. Any credit granted as a result of the examination will be shown on your transcript in the normal manner used for advanced credit.

E. Transfers from Other Universities

When you transfer to McMaster University, normally you will receive credit only for courses in which you have obtained at least a C (third-class honours) standing. Assessment of courses for transfer credit is subject to the guidelines of the individual Faculties.

You must also satisfy the Residence Requirements set out in Academic Regulations; the University will not accord to you privileges which would not be granted by your own university.

Grades obtained in courses taken at another university will not be included in McMaster's Cumulative Average, and, therefore, cannot be used to raise your standing.

If you have been required to withdraw from another university and have fulfilled your period of suspension, you may apply for admission. However, you must present a letter of explanation and clarification concerning your past academic performance. In addition, you may be asked to provide academic documentation for proof of further academic achievement which is both current and relevant.

If you are transferring from a university in a country whose native language is not English and your first language is not English, you must satisfy at least one of the following conditions. You

- (i) must have achieved a score of at least 580 on TOEFL, or the equivalent on other recognized tests, or
- (ii) must have attended a Canadian educational institution for at least three years, or
- (iii) must have resided for at least four years in an English speaking country.

F. Graduates Applying for a Second Bachelor's Degree

Admission is by selection. If you have a first degree, you may apply to take a second degree in the same discipline or in another discipline. The requirements are set out in the *Academic Regulations* section in this Calendar.

If you wish to enter a Second Bachelor's Degree in a subject area from the Faculty of Science, please note the additional regulations for such a programme in the *Faculty of Science* section, *Second Bachelor's Degree Programmes*.

G. Continuing and Post-Degree Students

As a continuing student, you need only apply formally through Admissions in the first instance. In subsequent sessions, only submission of a Registration form is necessary.

You will be expected to have at least a C (third-class standing) average, with no failures, in your final year's work (or the equivalent, in the case of a degree taken in part-time studies), and academic records which are satisfactory to the Department and the Office of the Associate Dean (Studies) of the appropriate Faculty.

Acceptance as a Continuing Student carries no implications with respect to acceptance in the School of Graduate Studies. Students who plan to proceed to a graduate degree should apply directly to the specific department of your programme of interest.

As a post-degree student, you must apply to the appropriate departments and have your admission and registration approved by the School of Graduate Studies for each session in which you wish to take courses. You will register and pay fees as an undergraduate.

Acceptance as a post-degree student carries no implications with respect to admission to advanced degrees, and even if such admission is granted subsequently, credit toward the advanced degree will not normally be granted for the work previously taken.

H. Admission from Ontario Colleges of Applied Arts and Technology

If you apply from an Ontario College of Applied Arts and Technology and have completed at least one year of work in a diploma programme and you have an A average, you are invited to apply for admission to Social Sciences I or Humanities I. Each case will be considered individually on its merits and the programme desired.

If you are applying to Engineering and have achieved a first-class honours standing in the last two years of a three-year technology programme in an Ontario College of Applied Arts and Technology, you will be considered for admission to the second level of a relevant Engineering programme.

Technician programmes are not recognized for credit toward admission in either Engineering I or Natural Sciences I.

Advanced credit could be up to 24 units if you are a well-qualified graduate of a three-year programme, and at least six units if you have completed two years and performed well, provided the college work is appropriate to your chosen university programme.

Credit beyond this may be given on an individual basis where the college and university programmes are in similar areas, and where your academic record warrants special consideration.

In the granting of credit, attention will be given to:

1. your performance in the college programme;
2. the duration of the college programme;
3. the programme taken at the college and the programme to which entry is sought;
4. your secondary school record.

I. Admission from Redeemer College

As a student from Redeemer College, you must present, with an appropriate average, six Year 1 courses from Redeemer College which are appropriate for the McMaster programme. Redeemer College courses in the 110-119 series are treated as equivalent to OACs for purposes of admission. If you wish advanced credit for work completed at Redeemer College, you are required to write an examination set by McMaster for each course in which credit is sought.

J. Graduates of McMaster Certificate Programmes

If you have completed certificate programmes, you may be granted advanced credit up to maxima specified by Undergraduate Council. Faculties will take into account the subject matter of both the certificate and degree programmes. The credit will normally be applied against your elective courses.

K. Mature Students (Part-time Admission)

If you do not qualify to be considered under one of the above categories, McMaster will assess your eligibility as a mature student. Applicants may be considered for limited admission to part-time study, provided all of the following conditions are satisfied:

- (i) You are at least 21 years old, or will be, prior to the first day of classes for the session to which you apply.
- (ii) You have not attended secondary school for at least two years.
- (iii) You have not been enrolled in a college diploma programme within the last five years.
- (iv) You have never attended university.

You are not admissible as a mature student if you plan to study Engineering. If you apply to the Natural Sciences I programme as a mature student, you will be required to present satisfactory standing in the four area OAC Mathematics and Science requirements, as described in *Admission from Ontario Secondary Schools* in this section. If you apply to Business I, you will be required to present Grade 12 Mathematics or its equivalent.

If admitted, you may register as a mature student to take Level I courses, one course at a time. If after the first six units, you have achieved a grade of B- or better, you may petition your Faculty to be allowed to take two courses at a time.

After taking at least 12 units, your performance will be reviewed as follows:

If you have a Cumulative Average (CA) of at least 3.5 with no failures, you will be allowed to register for full-time study.

If you have a CA of at least 3.0 with no more than six units of failure, you will be allowed to register in another six units of study and will be reviewed again after completion of these six units (see Second Review below).

If you have failed more than six units, you may not continue at the University.

If your CA is less than 3.0, you may not continue at the University. Second Review:

If you have a CA of at least 3.5, you will be allowed to register for full-time study.

If you have a CA of less than 3.5, you may not continue at the University.

L. Nursing Occasional Category

If you are applying to McMaster University to take degree course work in order to become academically eligible to apply to the B.Sc.N. programme, you may apply to enrol in a maximum of 12 units of academic work per calendar year. You may take courses in any Faculty, subject to prerequisites and enrolment limits.

Once you have achieved academic eligibility for the B.Sc.N. programme, you may apply to that programme and participate in the regular admission process.

M. Enrichment Programme for Secondary School Students

For more information about this programme, please contact the Office of the Registrar.

N. For Credit At Another University

If you are a student at another university, you may apply to take a McMaster course for credit at your own institution. Please note that not all courses are available for credit outside McMaster and are subject to enrolment limits.

O. Listener

If you are not sure about degree courses, you may register as a listener in a degree course for half the normal fee, but not for credit. You attend all classes, but do not complete any of the essays, tests and other formal requirements.

Retention of Documents

All documentation which you submit in support of your application for admission becomes the property of the University.

If you are not accepted, or you fail to enrol following acceptance, your documentation normally is destroyed at the end of each admissions cycle. If you reapply, you must submit any additional academic information and any documentation submitted previously.

Readmission

If you are seeking readmission, you usually fall into one of three categories. You must adhere to the application deadlines listed above.

1. You were ineligible to continue at McMaster University.

You should submit a letter to the Office of the Associate Dean (Studies) of the appropriate Faculty outlining your activities since leaving McMaster University and your reason for returning to the specified Faculty. Your application will be reviewed by the Office of the Associate Dean (Studies) of the appropriate Faculty.

2. You voluntarily withdrew from McMaster University.

Provided the last semester attended was within five years, you will be automatically admitted to the same programme. If you have been absent more than five years, you must reapply through the Office of the Registrar.

3. You completed the last semester registered and are in good academic standing.

Please see (2) above.

Academic Counselling for Those Offered Admission

If you are offered full-time admission to Level I, you will be asked to confirm that you have accepted the offer of admission and will attend the University.

Your admission package will include a Registration Kit with information about the University, academic counselling and registration procedures.

Your Faculty may also arrange a visit to the University so you may meet with a Faculty advisor to set up your programme. Although attendance at the summer counselling and registration sessions is not compulsory, you are strongly advised to do so. If you cannot attend one of these sessions, counselling will be provided at the September registration.

If you are offered admission above Level I, you may arrange for academic counselling with the Office of the Associate Dean (Studies) of the Faculty offering the programme, or the Office of the Director of the programme.

ACADEMIC REGULATIONS

The regulations which follow are the general regulations of the University. You should read both these general regulations and your Faculty regulations which may be more specific. They appear in the Faculty sections of this Calendar. Since the Academic Regulations are continually reviewed, we reserve the right to change the regulations in this section of the Calendar. This University also reserves the right to cancel the academic privileges of a student at any time should the student's scholastic record or conduct warrant so doing.

In the event there is a conflict between the programme regulations and the general regulations in this chapter, the programme regulations take precedence.

Faculties are authorized to use discretion in special situations by taking into account past practice, the spirit of the regulations, and extraordinary circumstances. Students who believe their situations warrant special consideration should consult the appropriate Office of the Associate Dean (Studies).

The Academic Regulations listed below are effective as of September 1993. These regulations apply to all undergraduate students admitted or readmitted to the University from September 1993 onward.

All other students will be governed by transitional arrangements, under which the CA will be calculated using:

1. "area courses" (as defined in the 1992/93 Undergraduate Calendar) taken before September 1993; and
2. all courses taken from September 1993 onward.

1. UNIVERSITY REGULATIONS

Residence Requirements

While most students will complete all their undergraduate work at McMaster University, the minimum requirements set out below apply to students who take part of their work at other institutions.

In order to obtain any four- or five-level, first undergraduate degree, you must complete at least two of the levels (approximately 60 units of work) beyond Level I, including the final level, at McMaster.

To obtain a three-level, first undergraduate degree, you may satisfy the residence requirements either:

1. by completing the final level and at least one other level (a minimum of approximately 60 units of work) at McMaster University; or
2. by completing the final level (approximately 30 units of work) at McMaster University, including at least 18 units of programme-specific courses.

The work used to satisfy the residence requirements must be completed at McMaster University; work taken at another university on a Letter of Permission will not count toward the minimum residence requirements.

All the work for a second bachelor's degree must be completed at McMaster University.

Registration

The purpose of registration is to record officially your selection of programme and courses. This is done before each session, and information on how to register will be sent to eligible students. Counselling is available to assist you in course selections.

■ **Approval of Programmes:** You are responsible to ensure that your registration documents are complete and accurate. Your programme and course selections — and deletions — must be approved by the Office of the Associate Dean (Studies) of your Faculty. If you try to register in a programme or courses from which you are restricted, your registration will not be approved.

■ **Selection of Courses:** *Before you select the courses you wish to take, please read the requirements for your programme in the appropriate Faculty sections of this Calendar.* If you fail to meet the programme requirements, you will not be eligible to graduate.

Select the courses required for your programme; then select your electives. Ensure that you have completed the courses which are listed as **prerequisites** and have completed or chosen courses that are listed as **corequisites**. If you have not passed the prerequisite courses, you will not be able to take the course selected.

■ **Limit on Level I Courses:** In most Faculties, credit may be obtained in no more than 42 units of Level I courses in a three-level programme, and in no more than 48 units in a four-level programme.

■ **Eligibility for Awards:** (See *Section 5* in this section and *Undergraduate Academic Awards* section for more information.)

■ **Overload Work:** If you wish to take more than the normal number of units prescribed for a Level, you may do so only with the permission of the Office of the Associate Dean (Studies) of your Faculty. Normally, a Sessional Average of at least 7.0 in the immediately preceding review period will be required if an overload is to be permitted. Additional academic fees will be assessed for overload work. (See *Financial Information* section.)

■ **Repetition of Courses:** To repeat a course for which credit has been obtained, you need approval of the Office of the Associate Dean (Studies). There is no limit on the number of repetitions of a failed course. The grades for all attempts appear on the transcript and enter into the computation of the Cumulative Average. However, only one successful attempt will enter into the computation of credit earned towards your degree.

■ **Auditing Courses:** If you do not wish to have credit for a course, you may, with the approval of the Chair of the Department and the Office of the Associate Dean (Studies), audit the course. You must satisfy the prerequisite for the course, but will not complete assignments nor write the final examinations. You will not be permitted to register for credit in the course after the registration deadline for the session has passed.

■ **Letters of Permission:** If you wish to attend another university to take courses which will carry credit towards a McMaster degree, you must obtain permission ahead of time. To do this you must seek a **Letter of Permission** from the Office of the Associate Dean (Studies) and pay the appropriate fee. Please take note of any conditions that might apply, including the requirement of a grade of at least C- for transfer credit. You should note that the grades obtained in courses taken at another university will not be included in the Cumulative Average. Full-time students taking courses on a Letter of Permission must continue to carry a full load at McMaster during the Fall/Winter session if they wish to be considered for Undergraduate In-course Academic Awards; i.e. courses taken on a Letter of Permission do not count toward your load for purposes of academic awards.

■ **Changes to Registration:** You may change the courses you have selected until approximately the second week of the term. (Please see the tables in the *Sessional Dates* section for the relevant dates for this academic year.) You may add new courses; or drop courses which you originally selected. After the above-mentioned period, you may drop a class until the last day to withdraw without failure by default. Any course dropped will be shown on your transcript with the notation CAN (Cancelled). After this date, you will remain registered in the course whether or not you attend. Your transcript will show a grade of F for any course not successfully completed.

■ **Withdrawal from the University:** If you wish to withdraw from the University, you must consult the appropriate Office of the Associate Dean (Studies). Your student identity card must be surrendered to the Office of the Associate Dean (Studies). Your record in the courses being taken will be handled as outlined above in *Changes to Registration*.

■ **Transfer of Credit between Faculties:** Transfer of credit between Faculties is handled by the Office of the Associate Deans (Studies) to which you wish to transfer. It is possible that full credit may not be given at the time of transfer between Faculties and additional courses may need to be taken.

■ **Calculation of Cumulative Average Following Readmission After Poor Academic Performance:** If you are readmitted, your Cumulative Average will be calculated on all courses taken that are applicable to your current degree, including those taken before you were not allowed to continue at the University. The Associate Dean (Studies) has the discretion to designate courses as Extra to your current degree when you are readmitted. If you are readmitted, you will be on academic probation.

International Study

If you wish to engage in international study, you may do so either by participating in one of the formal exchange programmes that exist between McMaster and a number of universities in other countries; by participating in one of the programmes available through specific Faculties; or by independent study abroad.

Formal exchange programmes are those in which McMaster has an agreement with another institution, involving a temporary exchange of students. As an exchange student, you register and pay your tuition fees, and supplementary fees at McMaster. No tuition is paid at the foreign institution. If you are interested in participating in a formal exchange programme, you can obtain further information and an application form from the Student Exchanges Officer, Hamilton Hall, Room 405. Applications are normally due February 1 for exchanges expected to begin the following September. Admission is by selection. A registration checklist is available to assist you in making all necessary arrangements.

McMaster also offers other programmes which allow you to spend all or part of your third year of a four-year programme at another institution. You register but do not pay tuition at McMaster. These programmes are not available at universities with which McMaster University has a formal exchange agreement. For more information on these programmes, please see your Faculty advisor or the Student Exchanges Officer.

You may also choose to study independently at a foreign university. For information about programmes and universities, please contact the Student Exchanges Officer, Hamilton Hall, Room 405.

2.ACADEMIC STANDING AND PROGRAMME REQUIREMENTS

Academic Standing

Academic standing is reviewed in May and August each year for students who

1. have attempted at least 18 units of work since the last review; or
2. may be eligible to graduate at the next Convocation; or
3. were admitted under the part-time mature student provision and have attempted the first 12 units of work.

In the review of academic standing, three sets of decisions are made:

1. whether a student may graduate;
2. whether a student may continue at the University; and
3. whether a student may continue in a programme.

Minimum Requirements to Continue at the University

All students must maintain a CA of at least 3.5 at each review to continue at the University. Under certain circumstances, as described below, students may be allowed to continue on academic probation for one reviewing period with a CA of 3.0 to 3.4. If your CA is less than 3.0, you may not continue at the University.

Level I Registration and Academic Standing Requirements

When you are admitted to McMaster University for a first degree, you will register in one of the following Level I programmes: Arts and Science I, Business I, Engineering I, Humanities I, Kinesiology I, Midwifery I, Music I, Natural Sciences I, Nursing I, or Social Sciences I. If you enter the University without Advanced Standing being granted, you must normally attempt a full load of Level I work before proceeding to the work of higher levels.

If you are studying part-time, the Office of the Associate Dean (Studies) has the discretion to permit you to take some of the work in the higher levels prior to having attempted the full load of Level I. Decisions will be made on an individual basis, according to the special circumstances that apply in the particular case.

At any review during Level I before you complete the Level I work, as in the case of a part-time student, you must attain a CA of at least 3.5 to continue at the University in good standing. If you attain a CA of 3.0 to 3.4 you may remain at the University for one reviewing period, but will be placed on academic probation. You may be on academic probation only once during your University career. If your CA is less than 3.0 you may not continue at the University.

At the review when you complete the Level I work, if you attain a CA of at least 3.0 and have not previously been on academic probation, but fail to meet the admission requirements of any programme, you may continue at the University for one additional reviewing period on academic probation. You will be registered in your original Faculty, and will be classified as a Level I irregular student if your work may only qualify you to be considered for admission to a programme in another Faculty. If, at the end of the next reviewing period, you again do not qualify for admission to a programme, you may not continue at the University. If your CA is less than 3.0 you may not continue at the University.

Students in Arts & Science I should refer to the *Arts & Science Programme* regulations listed below.

Nursing I and Midwifery I students should refer to the programme regulations listed in the *Faculty of Health Sciences* section in this calendar.

Minimum Requirements for Entering and Continuing in a Programme Beyond Level I

Admission to the programmes beyond Level I is based on performance in Level I. You must meet both the minimum requirements to continue at the University, as described above, and programme-specific requirements of each Faculty, as described in this Calendar.

> ARTS & SCIENCE PROGRAMME

■ **B. Arts Sc. (Honours) and B. Arts Sc. Programmes:** You must have a CA of at least 6.0 to continue in the programme. If your CA is from 5.5 to 5.9, you may remain in the programme, but will be placed on programme probation for one reviewing period. You may be on programme probation only once.

If your CA is 3.5 to 5.4, you must transfer to another programme for which you qualify, or register in the Art & Science programme as an irregular student for one reviewing period. During that period you cannot take Arts & Science programme courses. At the end of that period you may apply for readmission to the Arts & Science programme.

If your CA is 3.0 to 3.4, you will be placed on academic probation. You may continue in the programme for one reviewing period as an irregular student but cannot take Arts & Science programme courses. The purpose of this period is to prepare yourself for a programme outside the Arts & Science programme. You may be on academic probation only once. (Potential graduands may not continue at the University.)

If your CA is less than 3.0 you may not continue at the University.

> SCHOOL OF BUSINESS

Level II

To be considered for Commerce Level II, you must have a CA of at least 5.0 on your Business I courses with no failures. When calculating your CA and checking for failures, only first attempts at Business I courses are considered. **However, enrolment in Commerce II is limited to a maximum 300 students. Up to 50 of those spaces may be given to transfer students from other universities or from other Faculties within McMaster.** Therefore, being eligible for consideration for entry to Commerce II does not guarantee you entry. In 1994-95, only students with CAs of 5.0 or greater were admitted. Normally, the CA required for entry into Commerce II is between 5.0 and 6.0.

If you are not admitted to Commerce II at the end of Business I, you have the following options available to you.

If your CA is 3.5 or greater, although you may not continue in Commerce, you are still in good standing at the University. You may continue at the University in a programme outside the School of Business or as an irregular student in Business. To continue in a programme outside the School of Business you must apply for admission to that programme through the Office of the Associate Dean (Studies) appropriate for that programme. You should consult that office for more details. If you are not admitted to another Faculty you may register in the School of Business as an irregular student for one reviewing period. During that period you cannot take Commerce courses and at the end of it you will not be eligible for consideration for admittance to Commerce II or readmittance to Business I. The purpose of your registration as an irregular student is to make yourself eligible for admission to a programme outside the School of Business. If you have a CA of at least 3.0 but less than 3.5, you will be on academic probation and may continue at the University for one reviewing period. While on academic probation, you will be registered at the School of Business as an irregular student but cannot take Commerce courses. At the end of your probation period you will not be eligible for consideration for admittance to Commerce II or readmittance to Business I. The purpose of the probation period is to make yourself eligible for a programme outside the School of Business.

If you have a CA which is less than 3.0 at the end of Business I you may not continue at the University.

Levels III and IV

At the end of Level II, your CA determines in which programme you may continue. In Levels III and IV, Commerce students register in either the Commerce programme or the Honours Commerce programme. A higher CA is required to register in the Honours programme. The School of Business introduced changes to its Commerce programmes in the Fall of 1994. Those changes will be applied to Level III beginning in September, 1996 and to Level IV beginning in September, 1997.

The following regulations apply to those who enter Level III before September 1996 and Level IV before September, 1997. To enter Level III or continue in Level IV of the Honours Commerce programme, you must have a CA of at least 7.0 (with no more than six units of failures). To enter Level III or continue in Level IV of the Commerce programme, you must have a CA of at least 4.0 (with no more than six units of failures). However, if you fail to achieve a CA of at least 4.0, but have a CA of at least 3.5 (with no more than six units of failure), you are permitted to continue in Commerce on programme probation for one reviewing period. If your CA is less than 3.5, you may not continue at the University.

The following regulations apply to those who enter Level III in September, 1996 or later, or Level IV in September, 1997 or later. To enter Level III or continue in Level IV of the Honours Commerce programme, you must have a CA of at least 6.0. Those who complete Level III of the Honours programme with a CA of at least 5.5 but less than 6.0 may continue in the Honours programme in Level IV on programme probation. If your CA is less than 5.5, you may transfer to the Commerce programme. You must have a CA of at least 4.0 to continue in the Commerce programme. If your CA is at least 3.5 (with no more than six units of failure), you are permitted to continue in Commerce on programme probation for one reviewing period. If your CA is less than 3.5, you may not continue at the University.

> FACULTY OF ENGINEERING

■ **B.Eng. Programmes:** To be admitted to a Level II Engineering programme, you must have completed all Engineering I programme requirements and have obtained a minimum CA of 4.0.

In Level II and above, you must maintain a CA of at least 4.0, with no failures, to continue in an Engineering programme. If your CA is at least 4.0 and includes a failure since your last review, and you have not previously been placed on probation, you will be placed on programme probation. If you have a CA of 3.0 to 3.9, you may not continue in the Faculty. If your CA is less than 3.0, you may not continue at the University.

> FACULTY OF HEALTH SCIENCES

■ For specific minimum requirements, please see the descriptions for the individual programmes within the *Faculty of Health Sciences* section in this Calendar.

> FACULTIES OF HUMANITIES and SOCIAL SCIENCES

■ **Honours Programmes; B.A./B.S.W.; B.S.W.:** You must have a CA of at least 6.0 to continue in an Honours programme. If your CA is 5.5 to 5.9, you may remain in the Honours programme, but will be placed on programme probation for one reviewing period. You may be on programme probation only once. If your CA is 3.0 to 5.4, you must transfer to another programme for which you qualify. If your CA is less than 3.0, you may not continue at the University.

■ **B.A. Major (Psychology); B.Kin; B.P.E. Programmes:** You must have a CA of at least 4.0 to continue in a four-level Major (Psychology) or a B.Kin. or a B.P.E. programme. If your CA is 3.5 to 3.9, you may remain in the programme, but will be placed on programme probation for one reviewing period. You may be on programme probation only once. If your CA is 3.0 to 3.4, you must transfer

to another programme for which you qualify, and be placed on academic probation. If your CA is less than 3.0, you may not continue at the University.

■ **B.A. Programmes:** You must have a CA of at least 3.5 to continue in, or graduate from, a three-level B.A. programme. If your CA is 3.0 to 3.4; you may remain in the programme, but will be placed on academic probation. You may be on academic probation only once. If your CA is less than 3.0, you may not continue at the University.

➤ FACULTY OF SCIENCE

■ **Honours B.Sc. Programmes:** You must have a CA of at least 6.0 to continue in an Honours B.Sc. programme. If your CA is 5.0 to 5.9, you may remain in the Honours B.Sc. programme, but will be placed on programme probation. You may be on programme probation for only two reviewing periods. If your CA is 3.0 to 4.9, you must transfer to another programme for which you qualify. If your CA falls below 3.0 you may not continue at the University.

■ **B.Sc. Programmes:** You must have a CA of at least 3.5 to continue in a three-level B.Sc. programme. If your CA is 3.0 to 3.4, you may continue on academic probation for one reviewing period. You may be on academic probation only once. If your CA is less than 3.0, you may not continue at the University.

Transfer Between Programmes

If you wish to transfer from one programme to another, you should discuss the possibility with the appropriate Office of the Associate Dean (Studies) to which you wish to transfer. It is possible that full credit may not be given at the time of transfer between Faculties and additional courses may need to be taken.

Minors

If you are enrolled in a four- or five-level programme, you are eligible to obtain a Minor in another subject area, provided that the subject area is not integral to the requirements of your degree programme. You should check the calendar requirements statement for your programme in the case of Science programmes, or check with your Faculty in the case of other programmes, for subject areas that are excluded from consideration as a Minor in your programme.

If you wish to receive a Minor, you should check the information under the heading Minor in the appropriate department's listing. McMaster also offers Minors in Indigenous Studies and Peace Studies, which are not connected to a specific Faculty or Department. (See *Minors and Thematic Areas* section.) The University also has two Theme Schools — International Justice and Human Rights, and New Materials and Their Impact on Society — which give you, upon successful completion of one of the programmes, a Minor in that area of study. (See *Theme Schools* section.) You will be responsible for ensuring that you register in the required Minor courses. Normally, you must complete a minimum of 24 units in the Minor subject, of which no more than six can be at Level I. At least 18 units above Level I must be completed at McMaster.

In the final year of your programme, when you file your Graduation Information Card, you must indicate your desire to receive a Minor in the chosen subject. The Faculty Reviewing Committee will verify that the requirements have been met. If you are successful, your transcript will contain a designation for Minor in that area. See *Sessional Dates* section for deadlines.

You may apply for only one Minor. Minors cannot be revoked once approved, nor applied for retroactively. (See *Note 4* under *Second Bachelor's Degree Programmes*.)

Second Bachelor's Degree Programmes

For admission to a second undergraduate degree programme you must hold a first undergraduate degree. The minimum admission requirements and programme of study for the second degree depend on the subject areas of the two degrees.

■ **Honours Degree following a Three-Level Degree in the Same Subject:** For entry, a Cumulative Average of at least 6.0 in the first degree programme is required. If admitted, you must take at least 30 units beyond the first degree, including all Honours requirements specified for the programme. In some Faculties, this includes a minimum number of units of work in the discipline.

■ **B.A. or B.Sc. in Another Subject:** For entry, you must meet the admission requirements for the programme. If admitted, you must complete at least 30 units beyond the first degree, including all programme requirements. In some Faculties, this includes a minimum number of units of work in the discipline.

■ **Honours B.A. or B.Sc. in Another Subject:** For entry, you must meet the admission requirements for the programme and have a Cumulative Average of at least 6.0. If admitted, you must complete at least 60 units beyond the first degree, including all Honours requirements specified for the programme.

■ **B. Eng.:** For entry, you must meet the admission requirements for the programme. If admitted, you must complete at least 60 units beyond the first degree including all programme requirements. (Admission to a second B.Eng. degree is **not** possible if your first degree is in Engineering.)

Notes

1. All work for the second degree must be completed at McMaster University.
2. Some additional regulations are applied by the Faculty of Science involving cognate disciplines. e.g. Mathematics and Statistics. These are described in the *Faculty of Science* section of this Calendar.
3. A second degree is not available in all subject areas. See individual Faculty regulations for further information.
4. Minors will not be revoked to permit later registration in a three-level second degree in the same subject. Students may return for a second degree in a subject in which they have obtained a Minor, but only at the Honours level. (See *Minors* above.)
5. Extra courses taken while you are registered in a first degree programme, or courses completed as a Continuing Student, may, with the approval of the Faculty, be applied to the second degree programme.
6. You must meet the same standards for continuation and graduation as are applied to students registered in a first degree programme.
7. Credit from the first two degrees cannot be applied to a third undergraduate degree. To obtain a third undergraduate degree you must take the complete programme. i.e. approximately 90 units for a three-level degree and approximately 120 units for a four-level degree.

Deans' Honour List

Each year outstanding students with a minimum Sessional Average of 9.5 are named to the Deans' Honour List. Full-time students must have completed a full programme load in a Fall/Winter session. The Associate Deans (Studies) may exercise discretion where the full load for a particular level of a programme is not 30 units. Part-time students will be assessed at the reviewing periods where 30, 60, 90 and 120 units have been completed (based on the units completed since your last assessment).

3.EXAMINATIONS

The Office of the Registrar schedules and conducts most final examinations and December mid-year examinations for full-year Level I courses. See the *Sessional Dates* section in this Calendar.

Examinations organized by the Office of the Registrar during these dates may be scheduled in the morning, afternoon, or evening, Monday through Saturday.

Other instructor-scheduled tests and examinations may be held throughout each session but may not be scheduled during the last five days of the terms of the Fall/Winter session, or between the last day of classes for the term and the first day of the examination schedule, except as approved by the Undergraduate Council. See the *Sessional Dates* section.

Examinations Conducted by the Office of the Registrar

- **McMaster student photo identification cards are required at all examinations.** If you arrive at an examination without a proper I.D. card you will be required to have a substitute card made before being seated. There is a fee for this service. No additional time is given to compensate for examination time missed.
- You may only use books, papers or instruments during an examination if they are specifically prescribed on the examination paper.
- You may leave an examination only after the first 45 minutes have elapsed.
- If you become ill during an examination, you may be excused by a presider.
- If you miss or leave an examination for medical reasons you must submit a medical certificate from Student Health Services, or a doctor, to the Office of the Associate Dean (Studies) of your Faculty before the end of the examination schedule. The certificate must indicate that you were medically unfit to write the examination.
- If you are late for an examination, report immediately to the presider in your examination location or to the Examinations Section of the Office of the Registrar.
- If you miss or leave an examination for any other reason, report immediately to the Examinations Section of the Office of the Registrar. You will be advised whether you can write your examination before the end of the examination schedule, or whether you must apply for special consideration by submitting documentation to the Office of the Associate Dean (Studies) of your Faculty.
- Special examination arrangements may be made upon application to the Examinations Section of the Office of the Registrar in some circumstances, such as:
 - a conflict with religious obligations
 - a conflict between two Registrar-scheduled examinations
 - a schedule with three examinations in one calendar day or three consecutive examinations

Application must be made at least 10 working days before the scheduled examination date and acceptable documentation must be supplied.

■ Students with disabilities are required to inform the Office for Ability and Access of accommodation needs for examinations at least one month before the start of the examination schedule. This allows sufficient time to verify and arrange appropriate accommodation. See *Academic Facilities, Student Services and Organizations--Office for Ability and Access* section of this Calendar.

■ **Examinations are not rescheduled for purposes of travel.** You must arrange to be available for the entire range of examination dates as listed in the *Sessional Dates* section.

Deferred Examinations

A deferred examination may be granted by your Faculty Reviewing Committee if you fail to write a final examination for certifiable medical or compassionate reasons. Documentation must be submitted to the Associate Dean (Studies) of your Faculty before the end of the examination schedule.

Deferred examinations must be written in the examination session which follows the one for which the privilege is granted (e.g. in the April session for an examination missed in December).

The decision to grant you a deferred examination will be reported on your grade report. You must confirm your intent to write by submitting an application to the Examinations Section of the Office of the Registrar.

Examination and confirmation deadline dates appear in the *Sessional Dates* section of this Calendar.

4. GRADING SYSTEM

The method for determining your final grade will be given in the course outline. Unless otherwise specified in a course outline, course results determined on a percentage scale will be converted to an official letter grade, as indicated in the equivalent percentage scale which follows. The results of all courses attempted will appear on your transcript as letter grades.

- Before submitting a failing grade, your instructor reassesses whatever examples of your work are available.
- To satisfy prerequisite requirements, a grade of at least D- is required, unless otherwise stated.
- You retain credit for all courses with grades of D- or better, except in those programmes for which a higher grade is specified in the programme regulations.

◆ Since September 1982, the grading scale has been:

Grade	Equivalent Grade Point	Equivalent Percentages
A+	12	90-100
A	11	85-89
A-	10	80-84
B+	9	77-79
B	8	73-76
B-	7	70-72
C+	6	67-69
C	5	63-66
C-	4	60-62
D+	3	57-59
D	2	53-56
D-	1	50-52
F	0	0-49 — Failure

◆ Example of a Weighted Average Calculation, using the grade points and units for courses completed:

Course Grade	Grade Points		Course Units		
A-	10	x	6	=	60
C+	6	x	3	=	18
B	8	x	6	=	48
B+	9	x	3	=	27
Total			18		153

To calculate Average: 153 / 18 = 8.5

5. UNDERGRADUATE ACADEMIC AWARDS

To retain Entrance Scholarships and to qualify for major In-Course Awards, full-time students must complete, during the Fall/Winter session, a full load of course units, as defined by the programme and level. A Full-load Average will be computed to determine your eligibility for these awards.

Terms and conditions of awards for full-time and part-time studies are defined in the section *Undergraduate Academic Awards* section.

6. GRADUATION

Graduation "With Distinction" standing may be awarded if a minimum CA of 9.5 is achieved.

The following Cumulative Averages are required to graduate:

- B.A. — 3.5
- B.A. (Honours) — 5.0
- B.A. (Major) — 4.0
- B.A. /B.S.W. and B.S.W. — 6.0
- B.Arts Sc. and B.Arts Sc. (Honours) — 5.0
- B.Com. — 4.0

Please see the graduation regulations for individual Health Sciences programmes in the *Faculty of Health Sciences* section.

If, at the time of graduation, you fail to meet the requirements for an Honours degree, you may seek to transfer to another programme. If you are registered in Level III of an Honours or Major programme and wish to transfer to a three-level degree programme to be eligible for graduation at the next Convocation, you must apply to the appropriate Office of the Associate Dean (Studies) by March 1 for Spring Convocation, and by September 1 for Autumn Convocation. If permission is granted, you must go to the Office of the Registrar and complete a **Graduation Information Card**.

During the session in which you expect to complete your graduation requirements, you must file a Graduation Information Card in the Office of the Registrar before February 9 for Spring Convocation and before September 6 for Autumn Convocation.

If you wish to apply to receive a Minor in addition to your major programme of studies, you must indicate this on your Graduation Information Card.

You must take the degree at the Convocation *immediately* following the completion of the appropriate degree work.

7. RECORDS POLICY

Transcripts

Transcripts, which summarize your academic career at McMaster University, are available from the Office of the Registrar.

Transcripts
Office of the Registrar
Room 108, Gilmour Hall
McMaster University
L8S 4L8
Phone: (905) 525-4600
FAX: (905) 527-1105

Requests for transcripts may be made in person, by mail, or by fax. To protect the confidentiality of student records, all requests must be signed by the student whose transcript is being requested.

The transcript fee for 1994-95 is \$3.00 per copy. An additional charge of \$10.00 applies to transcripts which are faxed from McMaster. Fees are due at the time that transcripts are ordered.

Requests are filled promptly on receipt of payment. Official transcripts are usually delivered to other Ontario universities by courier and elsewhere by Canada Post. To avoid disappointment, please allow for processing and delivery time. Transcripts will not be issued if you have outstanding accounts at the University.

Retention Policy

When you apply for admission to McMaster University and register in programmes at the University, you accept the University's right to collect pertinent personal information. The information is needed to assess your qualifications for entry, establish records of performance in programmes and courses, provide the bases for awards and governmental funding, and to assist the University in the academic and financial administration of its affairs.

All documentation that you submit to the University in support of applications for admission, residence accommodation or financial awards, or any appeals or petitions, becomes the property of the University. You are notified of your academic performance in courses by grade reports sent by the Office of the Registrar.

All information needed to produce official transcripts is maintained permanently.

If you are not accepted, or if you fail to enrol following acceptance, your documentation is normally destroyed at the end of each admissions cycle. If you reapply, you must resubmit any previous documentation and any additional academic information.

Supporting documentation relevant to your admission to, and performance at, the University will normally be eliminated seven years after the end of your enrolment at the University (regardless of whether you graduate).

Senate Policy Statements

The University has defined its expectations of students in both the academic and non-academic life of the University community, and developed procedures to ensure that all members of the community receive equitable treatment. Each year at registration, you will receive the document *Senate Policy Statements* which contains the following:

- Statement on Academic Ethics
- The University's Statement on Human Rights
- Code of Conduct
- Student Appeal Procedures
- General Regulations for McMaster University Library
- Policy Statement on Applicants and Students with Disabilities
- Policy on Undergraduate Student Access to Final Examinations

The following provides a brief summary of the major policies contained in the *Senate Policy Statements*. Complete versions of the policies may be obtained from the Senate Secretariat, Room 104, Gilmour Hall.

Academic Ethics

The *Senate Statement on Academic Ethics* explains the expectations the University has of its scholars. Some Departments and instructors have also developed more specific rules and regulations designed to maintain scholarly integrity. It is the responsibility of each instructor to make students aware of these expectations.

It is the responsibility of each student to adhere to the *Senate Statement on Academic Ethics* (and to any additional rules and regulations developed by Departments and instructors), not only in course work, tests and examinations, but also in other scholarly activities such as laboratory research, and the use of computing and library resources.

Breaches of academic ethics fall into two general categories:

- (a) A disregard for the norms of scholarly integrity, without necessarily intending to deceive, and
- (b) Academic dishonesty, which is an intentional disregard for the norms of scholarly integrity.

Minor breaches of academic ethics that fall into category a) are normally drawn to students' attention by instructors and may result in penalties such as a reduced mark or a zero for the piece of work.

Academic dishonesty is not qualitatively different from other types of dishonesty. It consists of *misrepresentation by deception or by other fraudulent means*.

The *Senate Resolutions on Academic Dishonesty* define academic dishonesty and specify the procedures to be followed in the event that a student is charged with academic dishonesty. Penalties include expulsion from the University. A copy of the Senate Resolutions may be obtained from the Senate Secretariat, Gilmour Hall, Room 104.

Appeal Procedures

The University has a responsibility to provide fair and equitable procedures for the lodging and hearing of student complaints arising from University regulations, policies and actions that affect them directly. The procedures described in the *Student Appeal Procedures* are intended to provide a mechanism to remedy injustices and may culminate in a hearing before the Senate Board for Student Appeals.

However, students are strongly encouraged to pursue any complaint or grievance through informal channels, before following the formal procedures. Experience has shown that many complaints can be resolved satisfactorily through informal communication.

Students should seek remedies for their grievances as promptly as possible, and must do so within six months of the end of the academic year in which the grievance has occurred. The end of the academic year is August 31.

Decisions on admission or readmission to the University may not

be *appealed*, except under the conditions described in the next paragraph. However, applicants may ask for a *review* of a decision on admission or readmission or on the granting of transfer credits. To initiate such a review, the applicant must write to the Registrar within one week of receiving the original decision and state the grounds for seeking the review.

Applicants who have been refused readmission to a degree programme may appeal the decision, using the procedures described in the *Student Appeal Procedures*, if the following two conditions have been met:

- 1) the applicant withdrew voluntarily from the University, and
- 2) the applicant alleges error or injustice on grounds other than academic judgment.

Code of Conduct

McMaster University is a community dedicated to furthering learning, intellectual inquiry, and personal and professional development. Membership in the community implies acceptance of the principle of mutual respect for the rights of others and a readiness to support actively an environment conducive to intellectual growth, both for individuals and for the whole University.

The *Code of Conduct* contains regulations which outline the limits of conduct considered to be consonant with the goals and the well-being of the University community, and defines the procedures to be followed in cases of violation of the accepted standards.

Statement on Human Rights

McMaster University wishes to ensure the full and fair implementation of the principles of the *Ontario Human Rights Code* which states:

Every person has the right to equal treatment with respect to services, goods and facilities, without discrimination because of race, ancestry, place of origin, colour, ethnic origin, citizenship, creed, sex, sexual orientation, age, marital status, family status or handicap.

The University Senate has approved Procedures on Human Rights which outline the procedure to be followed in the event that a student has a complaint regarding an alleged violation of human rights.

Student Records

The University has developed operating procedures which are designed to protect the confidentiality of undergraduate student records. The full text of the Policy Statement on the Security of Student Data is found in the *Senate Policy Statements*, available at the Office of the Registrar.

The following have been defined as public information: student number, student name, sex, degrees earned and when, undergraduate awards earned and when, and whether a student is full-time or part-time. Additional information may be used by the various offices and officials of the University where a *need to know* has been established.

Information about applicants for admission who do not gain admission will be kept for a limited period only. A separate admission file is maintained for those admitted to the Nursing, M.D., Occupational Therapy and Physiotherapy programmes.

While a student may have access to his or her file, documents received from a third party in confidence are not normally placed in the student's file. But, in those cases where they have been, they will not be disclosed.

The operating procedures also define the circumstances under which information may be disclosed to: judicial and law enforcement agencies, the Ontario Universities' Application Centre, Statistics Canada, agencies charged with the recovery of funds provided under OSAP or CSL, and secondary schools.

Transcripts are issued only with the consent of the student. Addresses will not be released except under provisions noted above.

FINANCIAL INFORMATION

Upon receiving official acceptance from the Registrar's Office and upon submission of registration, you are responsible for the payment of all fees as defined in this Calendar.

Payment of academic fees does not imply your acceptance to the University or approval of your registration. Academic requirements have to be fulfilled before your registration is completed.

If you are a new student, you may not forward academic fees to Financial Services until you have received your Letter of Acceptance.

You should not send residence fees unless you have received notification of acceptance.

You are responsible for the fees for each academic session. No fee credits can be transferred from one academic session to another.

It is the policy of the University not to accept registrations until all previous accounts are paid in full. Any payments received are, therefore, first applied to previous debts and any balances to the most recent debts.

The following fees and regulations were in effect at the time of publication of this Calendar. The University reserves the right to amend the fees and regulations at any time.

UNDERGRADUATE FEES

If you are a full-time student, fees cover your portion of the tuition cost, registration, library, diplomas, campus health services, student organizations, and athletics, and are payable by all students.

No caution deposits are required, but students will be assessed for any unwarranted loss or breakage.

The University reserves the right to assess other supplementary fees or charges in some courses or programmes to recover — in part or in full — the cost of providing course materials, accommodation and transportation for field trips, and the costs of breakages.

Fees charged by the University are approved annually by the Board of Governors for the academic year beginning September 1.

The McMaster Students Union Health Plan Premium fee of \$46.20 includes reimbursement of expenses resulting from an accident incurred during the academic year, where such expenses are not recoverable under the Ontario Health Insurance Plan. These expenses may include X-ray, ambulance, dental treatment, prescribed drugs, wheelchairs or similar appliances. Reimbursement is not made for accident expenses to dental plates, crowns, fillings, glass frames, lenses or similar items. Accidents should be reported to Student Health Services within 10 days.

Prescribed drugs, excluding contraceptives, may be claimed through this plan. For details concerning dollar amounts allowable, contact the McMaster Students Union Office.

A husband and wife attending the same course as Listeners may pay the reduced rate of one Listener fee, plus half of the fee for another Listener.

This category excludes currently registered students, who may audit a course. See *Academic Regulations* section in this Calendar for details.

Persons Aged 65+

Subject to meeting admission and prerequisite requirements, if you are aged 65 or over, you may register without payment of tuition and supplementary fees.

For further information, contact Conference Services, Commons Building, Room 101, telephone (905) 525-9140, ext. 24781.

PAYMENT OF FEES

Tuition fees and residence/meal plan fees are payable in full during the registration period in August/September. Prepayment of fees will significantly simplify the registration process (see Prepayment of Fees). If you are unable to make full payment at the time of registration, you may be registered by paying the minimum first payment at the time of registration. The balance must be paid no later than January 20. Failure to make payment by January 20 will result in a late payment fee. **Interest is added monthly to the unpaid balance. (Current rate is 1.2 % per month.)**

Cheques can be made payable to **McMaster University**. Any cheque not accepted and returned by the bank will be subject to an additional administrative charge of \$28 for the first occurrence and an additional \$10 for each subsequent occurrence.

In addition, if you refuse to pay fees, or any part of the fees, you may be refused admission to the University or you may be requested to withdraw with all privileges suspended. Fees to the date of withdrawal will be assessed. If you wish to re-register within the same academic session, you will also be assessed a \$75 reinstatement fee.

You are not considered to be registered at McMaster University unless *all* fees are paid or acceptable arrangements have been made with the Financial Services Office by November 1 of each year. The names of students who are not registered by that date will be removed from all official class lists.

You will not be eligible for any examination results, transcripts, diplomas or the payment of awards of any kind, until fees and any other accounts owed to the University are paid, or until acceptable arrangements are made.

Note: Graduands who have outstanding accounts with the University will be permitted to attend convocation, but will not receive their diplomas until their accounts have been cleared in full.

Prepayment of Fees

All tuition, supplementary, residence and meal plan fees and any debts from prior sessions should be received by Financial Services prior to registration.

For payment deadlines, please refer to the registration handbook.

You must complete the Payment Arrangement Form and send it with a cheque, which for 1994-95, may be post-dated to September 2. Your student identification number should be written on the back of your cheque. By following this procedure you will significantly reduce the time needed to complete registration.

If you expect to receive financial assistance under the Ontario Student Assistance Programme, or will receive scholarships, bursaries or other awards, you may select the appropriate option on the Payment Arrangement Form. All fees are payable upon receipt of financial assistance. Any difference between the amount of the award, and minimum first payment should accompany the Payment Arrangement Form.

If you are being sponsored by outside organizations, e.g. Vocational Rehabilitation Services, RCMP, Canadian Armed Forces, etc., you are required to submit copies of fee authorizations with the Payment Arrangement Form.

If you are unable to pay your fees at the time of registration, please contact Financial Services, Room 208, Gilmour Hall, Ext. 24478, prior to registration.

Refunds

If you are forced, by illness or other personal reasons, to withdraw from courses, you will be charged a partial fee for courses that are cancelled. The charge is determined by the date on which notices of withdrawal in writing are received at the Office of the Dean of the appropriate Faculty. A full refund will be given for courses dropped until the end of the drop and add period.

Costs Other Than Fees For Students in Clinical Courses

You must buy uniforms, shoes, stockings and uniform accessories, for clinical practice.

If you are a Nursing student, your uniform and accessories are ordered under the direction of the School of Nursing. The approximate cost is \$200. White shoes and hose are also necessary.

Registration Examinations

Graduates of the B.Sc.N. programme can expect to pay fees (\$267 in 1993) to write the comprehensive registration examinations administered by the College of Nurses of Ontario.

Insurance of Personal Property on University Premises

The University cannot assume any responsibility for the personal property of any employees, faculty members, or students, nor does the University carry any insurance that would cover their personal property.

In most cases, personal fire insurance policies provide an automatic 10% extension covering property away from home. You should inspect your insurance policies to be certain that this is the case.

Death and Dismemberment Insurance

The University considers that the purchase of insurance coverage for death and dismemberment is the individual responsibility of its students.

There are various insurance plans available, and although the University does not specifically endorse any one of these plans, it has no objection to explanatory brochures and literature being posted on bulletin boards or distributed in appropriate places.

If you are involved in laboratory or field work, you are particularly encouraged to investigate such coverage.

- For information on student awards and financial aid, please refer to Undergraduate Academic Awards and Student Financial Aid sections of this Calendar.

ARTS & SCIENCE PROGRAMME

Director

B.M. Ferrier/B.Sc., Ph.D.

The Arts & Science Programme has been designed for students who wish to use their university years to further their intellectual growth through a study of significant achievements in both arts and sciences and of the methods of inquiry. The programme also allows for substantial specialization in a discipline or area through the use of electives. The philosophy of the Arts & Science Programme can be expressed by quoting A.N. Whitehead:

"What education has to impart is an intimate sense for the power of ideas, for the beauty of ideas, and for the structure of ideas, together with a particular body of knowledge which has peculiar reference to the life of the being possessing it."

— The Aims of Education and Other Essays, 1929

The core curriculum consists of courses offered by the Council of Instructors of the Arts & Science Programme, together with other courses offered by Departments. The core curriculum is designed to meet three major objectives:

1. to increase understanding of biological and physical sciences, behavioral sciences, technology, and the arts;
2. to develop skill in the use of the written and spoken word, and in quantitative reasoning; and
3. to foster the art of practical inquiry into problems of public concern.

Meeting the last of these objectives is the aim of inquiry seminars which begin in Level I and continue in upper levels. To investigate with skill and insight a complex public issue, such as world population growth in relation to food supply, requires an understanding of the methods and findings of many disciplines; it calls on a liberal education. Moreover, acquiring skill in such investigations requires practice in formulating questions, searching out evidence, and bringing the insights of academic disciplines to bear on the interpretation of evidence. The programme offers preparation for advanced study in many professional schools, including those of business, health administration, journalism, law, medicine, and teaching.

Students in this programme who wish to prepare for graduate study in an academic discipline should consult with the appropriate department concerning requirements. In general, preparation for graduate study may be accomplished by combining the core Honours Arts & Science curriculum with a concentration of electives in the intended area of graduate study. Combined Honours programmes, which are available in many subjects (see specific programme descriptions below), combine the core curriculum of the Arts & Science Programme with a prescribed set of courses in a subject and can be expected to satisfy course requirements for admission to graduate study in the particular subject.

ACADEMIC REGULATIONS

The Arts & Science Programme is governed by the General Academic Regulations of the University, (see the *Academic Regulations* section in this Calendar) and the regulations described below.

The Programme begins in Level I and leads to the degree, Bachelor of Arts & Science (B.Arts Sc.) on completion of Level III or B.Arts Sc. (Honours) on completion of Level IV. The four-level programme provides an increased opportunity for specialization through electives and through an individual study or thesis course.

You must have a CA of at least 6.0 to continue in the programme. In the case of some Combined Honours programmes, the average must include specified courses. These courses are indicated in the programme descriptions below.

Registration in Level I of the Arts & Science Programme is limited to approximately 50 students.

INQUIRY SEMINAR REQUIREMENTS

Inquiry seminars are comprised of ARTS&SCI 1C06 and a set of upper-level inquiry seminars on a variety of topics that change from time to time. The upper-level inquiry seminars are designated as "3C" at the beginning of the course code (3CA6, 3CB6, etc.) and are described in the programme listing as "upper level Inquiry". See the course listing for topic designations. ARTS&SCI 1C06 must be completed in Level I. Upper-level inquiry seminars may be taken in Level II and beyond.

All students are required to complete one upper-level inquiry course. B.Arts.Sc. students may complete this requirement in either Level II or III. B.Arts.Sc. (Honours) students should normally complete this requirement by the end of Level III.

COMBINED HONOURS

Students in the Arts & Science Programme may undertake Combined Honours programmes in many disciplines within the Faculties of Social Sciences, Humanities and Science. The combined programmes with Biology, Chemistry and Physics are five-level programmes. Combined programmes that are already established are described below. Students are encouraged to consult the Director of the Arts & Science Programme for consideration of other possible combinations. **An application is required for the Combined Honours Programme.**

Individual Study/Thesis: Students in the B.Arts Sc. (Honours) programme are required to complete either Individual Study or Thesis (ARTS&SCI 4A06, or 4C06). For students in Combined Honours programmes, this requirement can be, and in some cases must be, met by a Departmental course.

For further information, please see *Academic Standing and Programme Requirements* in the *Academic Regulations* section in this calendar.

SCHOOL OF BUSINESS

(FACULTY OF BUSINESS)

Dean of Business

D.W. Conrath/B.A., M.S., M.A., Ph.D., P.Eng.

Associate Dean of Business (Academic)

T.W. Chamberlain/B.S., M.B.A., Ph.D., C.A.

Administrator, Undergraduate Programmes

J. Osterman/B.A., B.Admin.

Undergraduate Student Advisor

B. Pegg/B.A.

The School of Business offers two programmes, each of which spans four levels of study. The Honours Commerce programme, which leads to the Honours Bachelor of Commerce (Honours B.Com.) degree, provides substantial concentration in business subjects beyond the essential core of studies. The Commerce programme, which leads to the Bachelor of Commerce (B.Com.) degree, contains essential grounding in business subjects and promotes the broadening of horizons through studies in Social Sciences, Humanities and Science. These programmes are referred to collectively as the Commerce programmes.

In addition, the School of Business and the Faculty of Engineering offer nine five-level joint programmes for the Bachelor of Engineering and Management (B.Eng.Mgt.) degree. These programmes provide a full course of study in Engineering and include a complete core of business subjects. Details concerning the B.Eng.Mgt. programmes and their academic regulations are given in the *Faculty of Engineering* section of this Calendar.

Also, the School of Business participates in the Committee of Instruction and offers courses for the B.A. programme in Labour Studies which is described in the *Faculty of Social Sciences* section of this Calendar.

THE COMMERCE PROGRAMMES

In Level I, a student who wishes to pursue either of the Commerce programmes establishes a foundation in introductory business, computer science, economics, mathematics and takes additional elective work. While this course of study is prescribed in Business I, a student who establishes a similar background in the Level I programme of another Faculty may also be considered for admission to Level II (Commerce II). Such a student should consult with the Office of the Administrator, Undergraduate Programmes, School of Business.

A student must gain admission to Commerce II in order to proceed towards the Honours B.Com. or B.Com. degrees. In Level II a wide range of business subjects including accounting, finance, marketing, human resources/labour relations, management information systems and communications are introduced and further course work in economics is required. Elective work is taken from non-Commerce courses.

While the same core of required Commerce courses is completed in Level II, the Commerce programmes diverge at Level III. In the Honours Commerce programme, about three-quarters of the work is in Commerce courses, with the remainder of the load coming from electives outside the Faculty. In the Commerce programme, about one-half of the course work is in each of Commerce subjects and non-Commerce electives.

INTERNATIONAL/CROSS-CULTURAL/LANGUAGE MENU

In the revised programmes, the School of Business is stressing the importance of breadth of knowledge. Students will be required to take courses in a variety of business disciplines, thus giving them a sound understanding of business functions and their relationships. They will also have exposure to international and cross-cultural issues. This will provide students with the knowledge needed for the world of global organizations. Prior to graduation, students will be required to select two courses from an International/Cross-Cultural/Language menu. The menu for 1995-96 is as follows:

FULL-TIME/PART-TIME STUDIES

You can take Business I and the Commerce programmes on a full-time or part-time basis. Progression to the next level is at the end of the successful completion of the 30 units of work that pertain to the lower level. It should be noted that only a few level IV Commerce courses are offered in the evenings or in the summer sessions.

CONTINUING STUDENTS

Graduates of McMaster's Commerce programmes or one of the Engineering and Management programmes may take as part-time students, Level III and IV Commerce courses (not previously taken, to a maximum of 18 units), excluding COMMERCE 4AG3*, 4AH3*, 4AI3*, with permission of the Office of the Administrator, Undergraduate Programmes. Such permission will be given only if normal prerequisites are satisfied and if space permits after meeting the requirements of in-course students. Registrations will be approved after classes start. (See *Admission Requirements, Continuing and Post-Degree Students*.)

*These courses are available as CCE 500, CCE 501, CCE 502, through McMaster's Centre for Continuing Education, subject to sufficient enrolments and availability of qualified instructors.

Other than those **graduates** specified above, Commerce courses are not open to Continuing Students. Such students are eligible for courses designated BUSINESS.

SECOND UNDERGRADUATE DEGREE

A student with an undergraduate degree will not be admitted or readmitted to any of the Commerce programmes. Such a student may wish to apply for admission to the M.B.A. programme.

CREDIT TOWARDS PROFESSIONAL DESIGNATIONS

Educational requirements toward a variety of professional designations can be met in varying degrees within the Commerce programmes and the Engineering and Management programme. The professional accounting designations C.A., C.M.A. and C.G.A. are awarded by the Institute of Chartered Accountants of Ontario, the Society of Management Accountants of Ontario and the Certified General Accountants Association of Ontario, respectively, while the designation C.H.R.M. is awarded by the Human Resources Professionals Association of Ontario.

Further opportunities for meeting educational requirements for professional designations are available to students in all Commerce and Engineering and Management programmes. Additional course work may be taken as Extras (see *Extra Courses* below) while in the programme. Further units of credit may also be taken after graduation (see *Continuing Students* above).

Information concerning credit towards these professional designations can be obtained from the Office of the Administrator, Undergraduate Programmes, School of Business.

ACADEMIC REGULATIONS

A student enrolled in either of the Commerce programmes, in addition to meeting the General Academic Regulations of the University, shall be subject to the following School of Business Regulations:

CHANGE OF PROGRAMME

A student may transfer between Commerce programmes prior to entering Level IV, provided that, after consultation with the Office of the Administrator, Undergraduate Programmes, of the School of Business, it has been determined that the academic requirements of the new programme have been met, and an acceptable revised programme of work can be established. This revised programme of work must be approved by the Office of the Administrator, Undergraduate Programmes. Approval will not be granted for a transfer from Level III Commerce into a Level IV Honours Commerce programme.

Students in good standing in the Engineering and Management programme may transfer to a Commerce programme with the permission of the Office of the Administrator, Undergraduate Programmes. The conditions for eligibility for entrance to the Commerce programmes are the same as for students registered in the School of Business.

WORKLOAD

In Business I, a full-time student must complete a 30-unit load in each Fall/Winter session. Advance credit and credit earned during the Spring/Summer session may not be used to reduce this load requirement. Such reductions will be applied as late as possible in a student's programme. A part-time student in Business I is permitted to take a maximum of 18 units in any Fall/Winter session.

In any Fall/Winter session, a student may not register for more than 30 units (including Extra courses) without the approval of the Office of the Administrator, Undergraduate Programmes. Such approval will not be given to a student with a Cumulative Average (CA) below 7.0. In any Spring/Summer session, a student may not register for more than 12 units.

REPEATED COURSES

Any failed course must be repeated if it is a required course for the programme, or must be repeated or replaced if it is not required. The grades for both the failed course and its repetition or replacement, as appropriate, will be included in the calculation of a student's CA. Voluntary repetitions of non-Commerce courses in which passing grades have been previously attained are designated as Extra courses. (See *Extra Courses* below and in the *Glossary* section of this Calendar.)

EXTRA COURSES

Courses in addition to those which constitute the student's programme must be designated Extra at registration. Extra courses may be taken only upon successful completion of Level III of any of the Commerce programmes. No Extra courses may be scheduled in a manner which would delay completion of a student's programme. Commerce courses previously taken cannot be repeated as Extras. The designation for Extra can be neither added nor removed retroactively. The last day to change the Extra designation is the last day for the Drop and Add period of the term to which it pertains.

LEVEL I COURSES

Students are not permitted to take more than 48 units of Level I courses in their programme.

LEVEL OF REGISTRATION

A student is required to register in the lowest level for which more than six units of work is incomplete. Work of the next higher level may be undertaken only when necessary to fill a programme load. Courses must be taken in the sequence specified by the School of Business.

READMISSION

A student in Level II, III or IV of a Commerce programme, who becomes ineligible to continue in the School of Business, may apply for readmission to the Commerce programme in a subsequent calendar year. **Readmission is not guaranteed.**

Application for readmission must be made in writing to the Associate Dean (Academic) by April 30 of the year for which readmission is desired. This application should explain why the student would expect to succeed in the programme if readmitted.

A student who is readmitted after having become ineligible to continue in a Commerce programme must repeat all the courses of the level at which he/she became ineligible to continue unless specific course exemptions are granted. The earliest possible session for readmission is the session starting in September of the year following the year in which the student became ineligible to continue.

FORMER COMMERCE STUDENTS

If a student was previously registered in a McMaster Commerce programme and was in good standing but did not attend in the preceding year, the student must write to the Office of the Administrator, Undergraduate Programmes, to seek readmission. The letter should describe the student's activities (academic and otherwise) since he/she was last registered.

If five years have passed since the student was last registered at McMaster, he/she should consult the *Application Procedures-Readmission* section of this calendar.

Graduates of McMaster's Commerce or Engineering and Management programmes should refer to *Continuing Students* above.

INQUIRIES RE: ACADEMIC REGULATIONS

A student seeking relief from the School of Business regulations must apply in writing, to the Associate Dean (Academic) with appropriate documentation attached. Guidelines for such requests may be obtained from the Office of the Administrator, Undergraduate Programmes, Michael G. DeGroote Building, Room 104.

Business Level I Students

To be considered for Commerce Level II a student must have a CA of at least 5.0 on Business I courses with no failures. When calculating the CA and checking for failures only first attempts at Business I courses are considered. **However, enrolment in Commerce II is limited to a maximum of 300 students.** Therefore, being eligible for consideration for entry to Commerce II does not guarantee entry.

Transfer Students

Transfer students may be admitted to Commerce II from other universities or from other Faculties within McMaster University.

A maximum of 50 of the 300 places in Commerce Level II may be given to transfer students. An engineer, as originally defined, is an ingenious person. The engineer today is concerned with the creation of devices, systems, and structures for human use. In this role of creator and of innovator, the engineer finds resourcefulness and capacity for invention at the heart of the practice of engineering. Modern society is challenged to advance from heedless exploitation of our world to an era of exercising responsible stewardship of resources, and the useful management of both the products and wastes of our industries. Engineering education at McMaster provides a host of choices which lead to this creative and fulfilling role in society.

Four-year programmes are offered leading to the Bachelor of Engineering Degree in the following fields of specialization:

- Chemical Engineering
- Civil Engineering
- Computer Engineering
- Electrical Engineering
- Engineering Physics
- Manufacturing Engineering
- Materials Engineering
- Mechanical Engineering

A five-year programme, leading to the Bachelor of Engineering and Society Degree, is offered in:

- Chemical Engineering and Society
- Civil Engineering and Society
- Computer Engineering and Society
- Engineering Physics and Society
- Electrical Engineering and Society
- Materials Engineering and Society
- Mechanical Engineering and Society

In addition, and in conjunction with the School of Business, five-year programmes leading to the Bachelor of Engineering and Management degree are offered in:

- Chemical Engineering and Management
- Civil Engineering and Management
- Computer Engineering and Management
- Electrical Engineering and Management
- Engineering Physics and Management
- Manufacturing Engineering and Management
- Materials Engineering and Management
- Mechanical Engineering and Management

Both five-year programmes have limitations on enrolment. Students are admitted to the programme following successful completion of Level I. Admission procedures and criteria can be obtained from the Office of the Associate Dean (Academic Programmes).

McMaster baccalaureate degree programmes in Engineering are accredited by the Canadian Engineering Accreditation Board (CEAB) of the Canadian Council of Professional Engineers, except the seven new programmes in Engineering and Society which will be examined for the first time at the next accreditation. Provincial Engineering Associations accept the accreditation as a major requirement for admission to the qualification Professional Engineer.

At McMaster, Engineering students take a common Level I programme comprising Mathematics, Physics, Chemistry, Engineering Design, Computation and a complementary studies elective. The specialized programmes are entered at Level II. Students interested in one of the Engineering and Management programmes must take the approved prerequisite course(s) as their elective in Level I. (Details are distributed with the registration information.) Students interested in one of the Engineering and Society programmes are advised to choose the six units complementary studies in Level I to be consistent with their chosen focus of the programme.

Programmes offered by the Faculty of Engineering include four types of elective courses, which are governed by regulations, as follows:

Complementary Studies Electives are broadening courses which are not in subjects that are an integral part of Engineering programmes.

In addition to ENGINEER 4A03 and 4B03, or their equivalent, 15 units of complementary studies electives is required in all B.Eng. programmes. Of these, three units must be selected from courses that are designated as being above Level I.

The Associate Dean of Engineering (Academic Programmes) must authorize each student's complementary studies elective courses. An approved list is published each spring and is available from the Associate Dean's office.

Technical Electives are Engineering or Applied Science courses in subjects relevant to the particular Engineering programme.

Commerce Electives are required in Level V of Engineering and Management programmes.

Engineering and Society Focus Electives are courses offered by various departments throughout the University. These courses are selected in consultation with the Director of the Engineering and Society programme, such that they form a proper sequence of the focus electives. With permission of the Director of the Engineering and Society Programme, students registered in a Theme School may use Theme School courses as focus electives.

Both the appropriate Department Chair and the Associate Dean of Engineering (Academic Programmes) must approve each student's Technical, Commerce and Engineering and Society Focus Elective Courses.

THEME SCHOOL PARTICIPATION

Students in engineering programmes, other than Engineering and Management, may participate in a Theme School. Admission to a particular Theme School is governed by the regulations of that Theme School. In general, Theme School courses are taken in addition to the course requirements of the Department. Some Theme School courses may be considered as complementary studies electives, technical electives, or Engineering and Society focus electives. Participation in a Theme School (including course selection) will require permission from the Director of the Theme School, the Department Chair and the Associate Dean (Academic Programmes.)

INDUSTRIAL INTERNSHIPS

The Faculty of Engineering offers 12 to 16-month full-time paid work placements in industry to provide students with the technical work experience based on their course work. Students who qualify compete for placements with participating companies through an application and interview process. Students must be in their second or third level of a four-level programme, or third or fourth level of a five-level programme and be eligible to return to complete their undergraduate engineering degree in order to accept an Internship Placement. An administrative fee is assessed following the start of the Placement. Industrial Internships are open to all disciplines and programmes within the Faculty of Engineering.

ACADEMIC REGULATIONS

Students enrolled in Engineering programmes, in addition to meeting the General Academic Regulations of the University, shall be subject to the following Faculty Regulations:

ENGINEERING I

A student in Engineering I whose Cumulative Average (CA) is less than 4.0 is required to withdraw from Engineering.

SEQUENCE OF COURSES

Courses must be taken in the sequence specified in the Calendar for the programme. Students must register for all outstanding work of one level before attempting work for a higher level.

REPEATED COURSES

All failed courses must be repeated if they are required courses for the Engineering programme or may be replaced if the courses are not explicitly required. Courses may be repeated only following failure or inability to achieve prerequisite standing for a required course or approved technical elective course.

LEVEL OF REGISTRATION

A student is required to register in the lowest level for which more than six units of work is incomplete. Work of a higher level may be undertaken only with the permission of the Associate Dean of Engineering (Academic Programmes).

FALL/WINTER SESSION WORKLOAD

The Faculty of Engineering has set a minimum Fall/Winter session workload of 34 units for Engineering I students. The work load for other students must be approved by the appropriate Department Chair and the Associate Dean of Engineering (Academic Programmes). In order to qualify for most scholarships and be eligible for Dean's Honour List, students should register in the full load of work prescribed by programme and level. No more than 21 units in one term will be approved.

READMISSION TO ENGINEERING

A student who may not continue may apply for readmission to Engineering after not less than one year of practical work experience. Application for readmission must be made in writing to the Associate Dean of Engineering (Academic Programmes) in March of the year for which readmission is desired and should include a recommendation from the current employer.

Readmission is not guaranteed.

A student who is readmitted after being ineligible to continue at a given level must repeat all the courses of that level, unless specific course exemptions are granted explicitly in the letter of readmission. Students who are readmitted will be placed on probation.

PROGRAMME CHANGES

All programme changes must be made through the Office of the Associate Dean of Engineering (Academic Programmes) and will be subject to the deadline dates established by the University (see *Sessional Dates* section of this Calendar).

PROGRAMMES FOR THE B.ENG., B.ENG.MGT., AND B.ENG. SOCIETY DEGREES

Admission to Level II Engineering Programmes

Admission to Level II Engineering programmes requires completion of Engineering I with a minimum CA of 4.0. A programme selection form must be submitted to the Office of the Associate Dean (Academic Programmes) by April 4, 1996. All programmes have limited enrolment; should there be more applicants than the limiting number in any programme, admission to that programme will be based on a full load using the Level I CA. Admission to a Level II programme for students registered in a reduced load will be by selection and/or an interview.

In addition, admission to a B.Eng.Mgt. programme is by written application and requires the completion of the approved prerequisite course(s) at a prescribed level; an interview may also be required.

Students admitted to a B.Eng. Society programme are required to submit a statement indicating the educational objectives for the focus electives.

Students seeking admission to the Engineering and Management programme or the Engineering and Society programme must first be admitted to the relevant department. Thereafter, they will be considered for admission to either of these two programmes.

Ceramic Engineering (B.Eng.) 4075

Ceramic Engineering as a full programme is being phased out. In 1994 the final class entered the programme at Level II. Transfer into Level III from Materials Engineering or Metallurgical Engineering Level II will be possible for the last time in September 1995. The concept of Health Sciences Education is based on the view that health is a broad subject encompassing not only the problems of ill health but also the impact of biology, environment and lifestyle on health. Each health professional has specific educational requirements, but by learning together in shared facilities there exists an opportunity to establish effective interprofessional working relationships.

The programmes in the Faculty attempt to meet these goals through a variety of learning approaches. Emphasis is placed on problem-based, small group learning experiences. Other approaches to learning, including interdisciplinary educational experiences, are used where appropriate.

In July 1974, the School of Nursing and the School of Medicine were brought together to form the Faculty of Health Sciences. In 1989, the new School of Physiotherapy and Occupational Therapy was added. The Faculty offers the following undergraduate degree programmes: Doctor of Medicine (M.D.), Bachelor of Science in Nursing (B.Sc.N.), Bachelor of Health Science (B.H.Sc.) in Occupational Therapy, Physiotherapy or Midwifery.

In addition to its undergraduate programmes, the Faculty of Health Sciences also has the responsibility for the Postgraduate (Internship and Residency) Education programmes.

Through the School of Graduate Studies, the Faculty offers the Medical Sciences programme leading to the M.Sc. and Ph.D. degrees in the following research areas: Cell Biology and Metabolism; Hemostasis, Thromboembolism, Atherosclerosis; Molecular Virology and Immunology; Neuroscience and Behavioural Sciences; Physiology/Pharmacology; and Reproductive Biology and Human Genetics. The M.Sc. -- Medical Sciences -- programme is available in the research area of Design, Measurement and Evaluation.

Interprofessional programmes, postprofessional in nature and leading to an academic diploma, are also offered. These include: Behavioural Sciences; Occupational Health and Safety; and Child Life Studies.

The Faculty of Health Sciences collaborates with the Division of Health Sciences at Mohawk College in educational programmes for other health professions based at the College.

Research programmes encompassing the broad spectrum of health have been established, including basic and applied research and various aspects of health-care delivery. The graduate programmes in medical science are related to the various areas of health research.

The Health Sciences Centre at McMaster provides educational and research facilities for medicine, nursing and other health professions. It includes a teaching hospital (the McMaster University Medical Centre, a division of the Chedoke-McMaster Hospitals) with extensive ambulatory clinics for primary and specialized aspects of patient care. The building has been designed to bring into close proximity the programmes for the various health professions and to integrate the facilities for education, research and patient care in the Faculty of Health Sciences.

In addition to the Health Sciences Centre, education, research and clinical programmes are based at the Hamilton General Hospital, the Henderson General Hospital, the Hamilton Psychiatric Hospital, St. Joseph's Hospital, the Chedoke division of the Chedoke-McMaster Hospitals, St. Peter's Hospital and the Health Sciences Education Centre, Mohawk College. Extensive use is made of a variety of community agencies. A satellite programme has been developed with institutions in Northwestern Ontario. In accordance with the plan to coordinate the development of specialized health services among the Hamilton and District hospitals, the Postgraduate Education programmes in medicine have been developed on a regional basis.

ADMISSION AND REGISTRATION

Application to any programme in the Faculty of Health Sciences implies acceptance on the part of the applicant of the admission policies and procedures, and the methods by which applicants are chosen for the Health Sciences programmes.

Registration in any programme in the Faculty of Health Sciences implies acceptance on the part of the student of the objectives of that programme and the methods by which progress toward the achievement of those objectives is evaluated.

The following describes the regulations governing admission and registration in the Health Sciences programmes, and should be considered in conjunction with specific admission requirements described on the following pages for the School of Medicine (M.D.), the Midwifery programme (B.H.Sc.), the School of Nursing (B.Sc.N.) and the School of Occupational Therapy and Physiotherapy (B.H.Sc.).

The following application deadlines are strictly enforced. Deadline dates are for consideration of admission to a programme in the following September.

Programme	Deadline
● Medicine (M.D.)	November 1
● Midwifery (B.H.Sc.)	February 1
● Nursing (B.Sc.N.)	
Applicants directly from Ontario Secondary Schools ...	May 1
Diploma Registered Nurses	February 15
Applicants with Other Qualifications	February 15
Transfers from other degree Nursing programmes	July 1
● Occupational Therapy and Physiotherapy:	
(Second Degree Programme) (B.H.Sc.)	January 15

The University reserves the right to change the admission requirements at any time without notice.

As places in the degree programmes of the Faculty of Health Sciences are limited, admission is by selection of applicants, and possession of published minimum requirements does not guarantee admission. The University, therefore, reserves the right to grant admission to a limited number of students, and to refuse readmission to any student whose academic performance or general conduct has been unsatisfactory, or who has withdrawn from the programme for a period in excess of one academic year.

An evaluation of Unsatisfactory in the School of Medicine signifies that the student has failed to meet these objectives and the University may require the student to withdraw from the School at any time.

The University reserves the right to require the withdrawal of a student should his or her conduct so warrant.

FALSIFICATION OF ADMISSION INFORMATION

An applicant supplying documentation or evidence which, at the time, or subsequently, is found to be falsified will be withdrawn from consideration. Any student admitted to the programme having submitted false evidence will be withdrawn.

HEALTH REGULATIONS FOR ADMISSION

Before registration, students must file with the University evidence of a recent health examination and chest X-ray. More detailed medical information will be required upon acceptance into the programme.

CLINICAL COURSE REQUIREMENTS

Where, in the opinion of the Faculty, the performance of the student in clinical practice may jeopardize or endanger the welfare of the patient or the patient's family, the student may be removed from clinical experience any time during the academic year, until continuation in the course is reviewed.

INFORMATION AND ACADEMIC COUNSELLING

In certain programmes, a faculty member is selected for each student in the September of entry to a degree programme and provides each student with advice on evaluations, electives and other educational needs throughout the programme. In the M.D. programme, the advisor is also responsible for the collation of all evaluations and completion of the final transcript. Changes in advisors may be entertained as each student becomes acquainted with Faculty well enough to choose his or her own advisor.

The academic advisory role for B.Sc.N. students is fulfilled by the Coordinator of Studies (Nursing). Students are also encouraged to consult individual faculty members regarding career planning.

TRANSPORTATION

Students are responsible for expenses involved in transporting themselves to community agencies, making home visits, or in connection with clinical study.

LICENCE TO PRACTISE

All graduates who wish to engage in clinical practice in any of medicine, midwifery, nursing, occupational therapy and physiotherapy are subject to any qualifying examinations and other requirements by the licensing bodies for each of these professions. In addition students should be aware that a licence may be denied if they have been convicted of a criminal offence for which a pardon has not been granted. A student in such a position should consult the respective licensing body about such a situation.

THE SCHOOL OF MEDICINE

The School of Medicine, established in 1965, offers major programmes in undergraduate, postgraduate and graduate medical education. The clinical programmes use not only the teaching hospital and extensive ambulatory care and research facilities at the McMaster University Medical Centre division of the Chedoke-McMaster Hospitals, but also the clinical teaching units at each of the major Hamilton hospitals and community health-care centres.

The undergraduate medical programme for the M.D. degree was initiated in 1969, graduating its first students in May 1972. At present, 100 students are admitted to the programme each year. The academic programme operates on an 11 months-a-year basis and students qualify for the M.D. degree at the end of the third academic year. The curriculum has been designed to involve medical students in a broad range of human health problems throughout their education and to prepare them for effective working relationships with patients, colleagues, and society.

Postgraduate training programmes currently include: Anesthesia, Community Medicine, Critical Care, Emergency Medicine, Family Medicine, Internal Medicine (and subspecialties), Laboratory Medicine (and subspecialties), Obstetrics and Gynecology, Pediatrics (and subspecialties), Psychiatry, Radiology, and Surgery (and subspecialties).

More details on these postgraduate programmes are available from the Postgraduate Medical Education Office.

The Northwestern Ontario Medical Programme (NOMP) has been developed in cooperation with the Thunder Bay Medical Society and physicians in towns in Northwestern Ontario. Clinical training opportunities exist in community hospitals adjacent to Hamilton. Excellent clinical experience in these settings is part of both the undergraduate and postgraduate medical programmes.

Graduate programmes leading to the M.Sc. and Ph.D. degrees are offered in Biochemistry and in Medical Sciences. An M.H.Sc. (Health Care Practice) programme is interprofessional in nature and is for experienced health professionals who wish advanced preparation as clinicians.

The Medical Programme

7880

The three-year programme in Medicine uses an approach to learning that should apply throughout the physician's career. The components have been organized in a relevant and logical manner with early exposure to patients and case management. Flexibility is ensured to allow for the variety of student backgrounds and career goals.

GENERAL OBJECTIVES

The aim of the undergraduate medical programme is to provide students with a general professional education as physicians. The programme enables students to build on previous education and experience, using available learning resources and opportunities. The competencies achieved by graduates will qualify them to proceed to further postgraduate training. While most graduates will be involved directly with the care of individual patients, it is expected that some will choose careers concerned with the health of populations and the development of new knowledge.

The overriding objective to be achieved is the demonstrated ability to identify, analyze and manage clinical problems in order to provide effective, efficient and humane patient care.

Enabling objectives consisting of knowledge, skills and professional behaviour comprise the following:

Knowledge

To acquire and put into practice concepts and information required to understand and manage health-care problems. The study of human structure, function and behaviour will be guided by an analysis of the determinants of health and illness. A spectrum of factors will be considered in both the external and internal environments of individuals when deciding on preventive, therapeutic, rehabilitative and supportive management.

Skills

To acquire and use the following skills:

- 1. Critical Thinking Skills:** The application of certain rules of evidence to clinical, investigational and published data in order to determine their validity and applicability.
- 2. Clinical Skills:** The ability to acquire, interpret, synthesize and record clinical information in managing the health problems of patients, considering their physical, social and emotional function. Included is the use of the clinical reasoning process.
- 3. Self-Directed Learning Skills:** The ability to identify areas of deficiency in one's own performance, find appropriate educational resources, evaluate personal learning progress and use new knowledge and skills in the care of patients.

Professional Behaviour

To recognize, develop and maintain the professional behaviour required for a career as a health professional. Acquiring the authority to intervene in the lives of patients carries with it the obligation to act responsibly:

- 1. toward oneself:** to recognize and acknowledge personal assets, emotional reactions and limitations in one's own knowledge, skills and attitudes, to build on one's assets and to overcome areas of limitation;
- 2. toward patients and their families:** to be able, under appropriate supervision, to take responsibility for the assessment and care of patients and their families;
- 3. toward colleagues:** to contribute to productive communication and cooperation among colleagues engaged in learning, research or health care;
- 4. toward the community:** to contribute to the maintenance and improvement of the health of the general population.

LEARNING METHODS

To achieve the objectives of the undergraduate medical programme, students are introduced to patients within the first level of the curriculum. In this way, students understand the relevance of what they are learning, maintain a high degree of motivation and begin to understand the importance of responsible professional attitudes.

The students are presented with a series of health-care problems, requiring for their solution the understanding of underlying physical, biological and behavioural principles, the appropriate collection of data and the critical appraisal of evidence. In each problem area, the student may select the most appropriate issues to ensure the understanding and application of fundamental concepts. This flexibility provides an opportunity for early consideration of individual interests and goals. The faculty function as learning resources or guides. Learning by a process of inquiry is stressed.

The central focus of the programme is the tutorial. The class is divided into small groups, each with a tutor. In the tutorial session students develop a series of learning objectives from each health-care problem and negotiate how they will approach their learning tasks. They then acquire the knowledge and skills to meet the objectives of the unit in which they are working. They also learn to work as a team, helping and learning from peers. The study habits and sense of responsibility to self and others provides a basis for life long working and learning habits. Attendance at tutorials is mandatory.

Students admitted to the undergraduate medical programme have the responsibility and privilege of taking an active role in the planning and evaluation of the education programme. Through representation on most policy-making and implementing committees, students can influence decisions in such areas as education, philosophy, faculty recruitment, and curriculum design. It is expected that all students will participate in the continuing reappraisal and improvement of the programme. Such participation is a hallmark of the School.

STUDENT EVALUATION METHODS

The evaluation format has been designed to complement learning in the undergraduate medical programme. Evaluation methods have been developed to measure how well the student achieves the stated educational objectives in the various units of the programme. Continual evaluation of the student occurs within the tutorial setting with input from students, their peers, faculty preceptors, and the tutor.

Two problem-solving exercises, carried out individually with each student, are required in each unit. At the completion of the unit, the tutor is responsible for the final summary statement of student learning progress. The tutor prepares a written summary of observation of the student's performance in the tutorials and all associated activities during that unit. A copy of the evaluation summary is given to the student and to the student advisor while the original is kept in the student's evaluation file.

In addition to the tutorial-based evaluation, the accumulation of medical knowledge is assessed at regular intervals by means of the Personal Progress Index. This is a multiple-choice format. Results are given to the students for self-evaluation and, in summary form, to the student advisor. Progress testing is in addition to, and does not replace, tutorial- and performance-based evaluation.

The Evaluation Working Group, a subcommittee of the Undergraduate Medical Education Committee, has the responsibility of working with the Medical Programme to assist with the development and implementation of evaluation methods to provide timely and helpful information to assist students and faculty in assessing progress and performance.

UNIT 5			UNIT 6 THE CLERKSHIP Unit 6 includes 2-8 week blocks (16 weeks) of elective time						HOLIDAYS			
UNIT 6 THE CLERKSHIP (CONTINUED)			REVISION	GRADUATION								

The Curriculum Plan

The curriculum of the undergraduate medical programme comprises six units, an elective programme and revision time. The Curriculum Plan showing the relative proportion of time accorded to these units is illustrated on the chart above.

There is less of a division between the preclinical parts and the clinical parts of the M.D. programme than in more traditional schools. Patient contact and clinical skills development start in Unit 1 and increase throughout the programme. The scientific background for 'understanding patients' problems, while more intensively studied in earlier units, continues to be applied as it is relevant to the care of patients in clinical situations.

PROGRAMME OUTLINE FOR UNIT 1

The goal of Unit 1 is to provide an introduction to the undergraduate medical programme, emphasizing a global view of the determinants of health and illness. Factors from the molecular to the global environment will be considered, as they determine the clinical presentation in an individual. Concepts and information from three knowledge perspectives will be studied: the population perspective, the behavioural perspective and the biological perspective. Students will begin to acquire basic skills of critical appraisal, clinical skills and, in particular, learning skills. During this unit, students will become familiar with the health care system in the Hamilton region and the opportunities for learning which it offers.

This unit is the foundation for all the following units and not specifically preliminary to Unit 2.

PROGRAMME OUTLINE FOR UNITS 2-4

These units are concerned with the systematic study of human structure, function and behaviour and are organized around systems of the body, as follows:

- Unit 2 Cardiovascular, Respiratory and Renal Systems
- Unit 3 Hematologic, Gastroenterologic and Endocrine Systems
- Unit 4 Neurologic, Locomotor and Behavioural Systems

Throughout these body-systems oriented units, students are expected to become self-directed learners capable of critically evaluating newly acquired information.

PROGRAMME OUTLINE FOR UNIT 5

This unit is designed as an integrative unit and organized on the overall theme of The Life Cycle. Health-care problems from the community are studied. Major themes include reproductive health, child and adolescent health, occupational and environmental health and health of older persons.

Students have an ongoing opportunity to consolidate their clinical, learning and critical appraisal skills. There are opportunities to make field trips to a variety of health-care settings and agencies.

PROGRAMME OUTLINE FOR UNIT 6 — THE CLERKSHIP

In this component of the programme students participate in the direct care of patients as they learn about the management of health and illness. All prior objectives apply, but the health-care problems are real patients. Students become self-sufficient in contemporary medicine, but are able to sense when today's medicine becomes out-of-date by adopting good habits of learning and assessment.

The Clerkship programme consists of rotations in Medicine, Surgery, Family Medicine, Psychiatry, Pediatrics, Obstetrics and Gynecology, and in elective time of which one-half must be spent in clinical medicine. The compulsory components of the clerkship are carried out in teaching practices and in all the teaching hospitals in the Hamilton region. The elective experience can be spent in various activities utilizing local, regional or distant resources.

ELECTIVES

Electives are an integral part of the Curriculum Plan. They may be considered the epitome of self-directed learning, since students must define goals for electives which are appropriate for their own learning objectives and which represent specific areas of educational need or interest. The responsibility for planning electives rests with each student in collaboration with the student advisor.

The three types of electives in the undergraduate medical programme are:

- 1. Block Electives:** These are sections of the curriculum for full-time elective activities. Block Electives occur after Unit 3 (six weeks), after Unit 4 (four weeks), and during the Clerkship (16 weeks).
- 2. Horizontal Electives:** These are undertaken concurrently with other parts of the curriculum. Horizontal electives are entirely voluntary and are not required for completion of the programme. It is particularly important that the student's advisor be involved in all decisions concerning the selection and carrying out of horizontal electives.
- 3. Enrichment Electives:** There are arrangements in place for students from each class to devote longer periods of time (from six to 12 months) to the pursuit of special academic experiences. The intent is to encourage students to explore possible careers in special "frontier" areas of medicine and health care. Examples include: research training and experience; community health projects; international health opportunities. These experiences are often undertaken following Unit 5 or during the first half of Unit 6. Some experiences may provide partial funding (e.g. by student research fellowships).

REGULATIONS FOR LICENCE TO PRACTISE

A degree in medicine does not in itself confer the right to practise medicine in any part of Canada. To acquire this right, university graduates in medicine must hold a certificate of the College of Physicians and Surgeons of the province in which they elect to engage in practice. Students in Ontario medical schools are not required to register as students with the College of Physicians and Surgeons of Ontario. Students intending to practise outside Ontario are urged to consult the licensing body of that province regarding registration.

Licensing requirements vary somewhat among the provinces. The current Ontario requirements for issuance of a Certificate of Registration Authorizing Independent Practice are:

- 1) Certification by the Royal College of Physicians and Surgeons of Canada or the College of Family Physicians of Canada;
- 2) Parts I and II of the Medical Council of Canada Qualifying Examination;
- 3) Canadian Citizenship or Landed Immigrant Status.

In general, students are expected to obtain a certificate from either the College of Family Physicians of Canada or from the Royal College of Physicians and Surgeons of Canada in order to be licensed in the province of Ontario.

CANADIAN RESIDENT MATCHING SERVICE (CaRMS)

The Matching Service is a clearing-house designed to help final year Canadian medical students obtain the post-M.D. programme of their choice, and to help programme directors obtain the students of their choice. It provides an orderly method for students to decide where to train and for programme directors to decide which applicants they wish to enrol. For both students and directors, it removes the factors that generate unfair pressures and premature decisions.

Further information is available from the MD Admissions and Records Office (Health Sciences).

BASIC LIFE SUPPORT TRAINING

Effective for the class entering in September 1995, all students are required to have taken a Basic Life Support course prior to registration in the medical programme. Courses are readily available in most communities.

Admission Policy for the Medical Programme

The official admission policy for the undergraduate medical programme for September 1996 shall be as published in the 1996 Ontario Medical School Application Booklet. Refer to the 1996 Instruction Book for deadlines. This booklet is available through:

Ontario Medical School Application Service (OMSAS)
PO Box 1328
650 Woodlawn Road West
Guelph, Ontario, N1H 7P4

Please note that the admission policy is reviewed annually, and the admission requirements from the previous year may not apply.

Because of the nature of the selection procedures, deadlines are enforced strictly. All relevant documentation must be provided by the specified deadlines. Applicants must follow the instructions precisely.

SELECTION PROCEDURE

The intention of the McMaster Undergraduate Medical Programme is to prepare students to become physicians who have the capacity and flexibility to select any area in the broad field of medicine. The applicant is selected with this goal in mind. Faculty, medical students and members of the community are normally involved in the review of applications.

Application to the medical programme implies acceptance by the applicant of the admission policies and procedures, and the methods by which candidates are chosen for the programme.

Applications must be submitted by November 1, 1995, 4:30 p.m. EST. Approximately 400 applicants will be invited for interviews in Hamilton in March or April. Invitations for interview are determined on the basis of applicants' academic performance, and an assessment of their preparedness for a career in medicine and suitability for the McMaster Undergraduate Medical Programme. From this group a class of 100 is selected.

TRANSCRIPT NOTES

It is expected that all applicants will request all transcript materials in a timely fashion, to allow adequate time for processing requests and for receipt at OMSAS by the prescribed deadline. For this reason, applicants are strongly urged to request two sets of transcripts. One must be sent by the institution directly to, and received by OMSAS by December 1, 1995; the second copy should be sent to the applicant to ensure that the request has been fulfilled. Applicants should retain all receipts and correspondence related to their transcript request. Evidence to show that applicants have requested transcripts in a timely fashion may be requested by McMaster University.

It is not normally possible to notify applicants of any outstanding transcripts before December 1, 1995. Therefore, it is totally the applicant's responsibility to ensure that all transcripts and Registrar statements are received at OMSAS by December 1, 1995. Failure to meet this requirement will result in the disqualification of the application.

All transcripts must be submitted directly to OMSAS by the post-secondary institutions attended. McMaster requires that applicants provide transcripts of all courses/programmes attended at any post-secondary institution. This includes community colleges, CEGEPs, junior colleges, pre-university programmes, etc.

Failure by the applicant to comply with the instructions or to meet the deadlines will result in disqualification of the application.

ACADEMIC ELIGIBILITY

Applicants must report on the Academic Record Form all grades received in the degree credit courses in which they have ever registered. Failure to report courses, programmes or grades on the Academic Record Form will result in the disqualification of the application. All grades are converted by the applicant on the Academic Record Form to a 4.0 scale according to the OMSAS Undergraduate Grading System Conversion Table. (The Conversion Table is provided with the OMSAS Application.)

All applicants must fulfill the requirements described below in both (a) and (b).

- a. By September 1, 1996, applicants must have completed a minimum of three years undergraduate work. Only degree credit courses taken at an accredited post-secondary institution will be considered.

Two of the three years must be above Level/Year I. A "year" is the full block of work specified for a year or level of the programme in the appropriate university calendar. If requested, applicants must provide evidence that the requirement has been met.

An applicant who has completed a diploma at a CEGEP must have completed by September 1, 1996, at least two additional years of degree credit work at an accredited post-secondary institution. One of those years must be a full programme of courses above Level/Year I.

Applicants who have satisfactorily completed the requirements for a baccalaureate degree in less than three years by November 1, 1995 are also eligible.

- b. By November 1, 1995, applicants must have achieved an overall simple average of at least second-class (B) standing in their academic work to date. A "B" average is considered to be an OMSAS overall converted average of at least 3.0 on the 4.0 scale.

If an applicant has not achieved the overall B standing in the OMSAS converted average, but has completed a graduate degree, the graduate degree will be taken into account to assess eligibility.

Academic Assessment will be as outlined in the Ontario Medical School Application Booklet.

AUTOBIOGRAPHICAL SUBMISSION

Applicants must provide an Autobiographical Submission which is a description about their preparedness for medicine and suitability for the McMaster Undergraduate Medical Programme.

The Autobiographical Submission Booklet is included in the application kit provided by OMSAS.

The Autobiographical Submission Booklet includes detailed instructions with regard to the length and format of responses. Those instructions are considered to be part of the Admission Policy and Procedures for the McMaster Undergraduate Medical Programme.

Failure to comply with the instructions for the Autobiographical Submission Package will result in disqualification of the application.

GEOGRAPHICAL CONSIDERATION

The geographical status is determined from the Autobiographic Sketch. Applicants may be asked to provide evidence of geographical status. In selecting applicants for interview, the bona fide place of residence will be used in the following order of priority:

1. Hamilton Health Region and Northwestern Ontario (defined as west of Wawa to the Manitoba Boundary);
2. the rest of Ontario;
3. the rest of Canada; and
4. other countries.

To qualify for 1) or 2) above, an applicant must:

- a. be a Canadian citizen or permanent resident by November 1, 1995, and
- b. have resided for at least three years in the area since the age of 14. Attendance at a university in the area for at least three years by the date of possible entry to the programme satisfies the second requirement.

Any other applicant who is a Canadian citizen or permanent resident qualifies for 3.

All other applicants qualify for 4.

INTERVIEWS

Approximately 400 applicants will be invited to Hamilton for an interview. The selection of these applicants is based on the composite score which weights equally the grade point average from the Academic Assessment and the scores from the Autobiographical Submission. Geographical consideration is applied to determine the composition of the pool of applicants that are selected for interview. While all applicants from Geographic Category 4 (other countries) are considered, they may be selected for interview only if they are judged on each criterion to be clearly superior to other applicants.

Because the interviews involve many other people, applicants must attend on the date and time specified. Applicants are responsible for their own travel expenses.

Each applicant participates in the two components of the interview: the Simulated Tutorial and the Personal Interview.

In the Simulated Tutorial a group of applicants discuss a health problem/situation. The applicant's group skills and problem-exploration skills are assessed.

In the Personal Interview, the applicant is interviewed by a team which is not involved in the assessment of the Simulated Tutorial. Before an applicant meets the interview team, the interviewers are given the candidate's Autobiographic Sketch.

The Autobiographic Sketch is not assessed but serves as a background for the interviewers. In making the overall assessment of the applicant, the Personal Interview team considers the following areas: problem-exploration skills, self-appraisal skills, interpersonal skills, career choice, and suitability for the McMaster programme.

SELECTION

All the information resulting from the process described above, as well as the Confidential Assessments from referees, is reviewed and used in the final selection.

Successful applicants will be notified the last working day in May 1996.

UNSUCCESSFUL APPLICANTS

Applications from one year are not held over to another year. If an unsuccessful applicant wishes to reapply, a new application package, including supporting documentation must be submitted, using the OMSAS Application, the OMSAS Instruction Booklet, and the McMaster Autobiographical Submission for the new admission selection cycle.

APPLICATION FOR DEFERRAL OF REGISTRATION

Applications received in the fall of 1995 are for the academic year commencing in the fall of 1996. Applicants who will not be ready or able to begin studies in the fall may withdraw their applications without prejudice. Application fees cannot be refunded.

Deferred registration may be granted **only** under **exceptional** circumstances. Deferred registration applications may be requested only by those candidates offered a place in the class on the last working day in May and by those who have accepted that offer. The application must be submitted by deadlines, determined from year-to-year (normally within two weeks of the offer of admission).

SPECIAL APPLICANTS

Candidates who believe they are eligible for this category must contact, in writing, the Administrative Assistant, MD Admissions and Records before making a formal application. The formal application containing all relevant information and documentation must be made by October 1 to be considered for that year.

This category is designed to provide opportunities only to those who:

1. have not attended a post-secondary institution as a full-time student, or
2. have completed less than 10 full courses as a part-time student, or
3. are First Nations applicants who wish to be considered under this category.

To be eligible for consideration under this category, the candidate must demonstrate exceptional competence and motivation, and must:

1. have completed at the time of application, at least four full degree credit courses. These courses must be completed with the equivalent of an overall average of at least a B on the McMaster grading scale. A current university transcript must accompany the request for consideration;
2. have been employed or active in the community for at least seven years since leaving high school;
3. be a resident of Ontario.

Candidates who meet the above specifications will be assessed on having made an exceptional contribution to society. In this, candidates must have shown creativity, initiative and leadership.

ADVANCED STANDING/TRANSFER

The structure of the McMaster programme requires that all students begin in Unit I. Therefore, there is no provision for advanced standing admission.

Financial Information

Financial difficulties are among the most frequent problems experienced by students in undergraduate medical schools. At McMaster, these are intensified by the lack of opportunity for summer employment as well as by the relative scarcity of financial assistance funds available to the medical school.

In this situation, it is incumbent on students admitted to the M.D. programme to clarify immediately their personal financial situation and to secure or identify sufficient support to meet their financial obligations over the subsequent three years. The School of Medicine cannot assume this responsibility.

In 1993-94, the academic fees (tuition and student supplementary fees) for a student in the McMaster Undergraduate Medical Programme were:

CANADIAN CITIZENS AND LANDED IMMIGRANTS

Year I and II	\$4,581
Year III	3,162

VISA STUDENTS

Year I and II	\$20,870
Year III	14,023

In addition, the cost of books and diagnostic equipment for a Year I student was approximately \$1,500. Students are also responsible for their transportation costs related to clinical study.

Financial assistance is available to Ontario residents from the federal and provincial governments through the Ontario Student Assistance Program (OSAP). To be eligible a student must be a Canadian Citizen or permanent resident of Canada and fulfill certain requirements for residency in Ontario. Students who are legal residents of other provinces need to check with their respective provincial financial aid programmes about eligibility for support. In addition, the following sources of funding are available to undergraduate medical students.

ABBOTT MEMORIAL SCHOLARSHIP LOAN FUND

This fund was established by the Federation of Medical Women of Canada. Small loans are available to any female medical student or first-year intern. In special cases, a loan up to \$1,000 may be made to a student for recognized postgraduate training. Loans are payable within five years of date of issue, after which time interest will be charged at a rate of 5% compounded annually.

Information regarding these loans may be obtained from the Secretariat, Federation of Medical Women of Canada, Box 8244, Ottawa, Ontario, K1G 3H7.

MEDICAL OFFICER TRAINING PLAN

The Department of National Defence administers a programme for medical students known as the Canadian Forces Medical Officer Training Plan. Under this plan, students may be subsidized (tuition, plus pay) throughout their undergraduate medical studies and internship. To qualify for enrolment a student must be acceptable without condition in a course in medicine in a Canadian university or in an accredited internship.

Further information on this programme and on the career opportunities in medicine in the Canadian Armed Forces may be obtained from local Canadian Forces Recruiting Centres. In Hamilton, the Recruiting Centre is at 150 Main Street West. Telephone (905) 523-2751.

OTHER FUNDS

The School of Medicine administers a small loans and bursaries programme to assist medical students with demonstrable need. Unfortunately, these funds are limited and cannot be relied on to meet a major portion of any student's financial obligations. The source of these funds includes: The Ontario Medical Association Bursaries and Loan Fund; The William Andrew Vanderburgh Sr. Memorial Fund; and the Ripley Estate Bursary and Loan Fund.

For further information, contact Robert Wakefield, (905) 525-9140, ext. 22979.

ACADEMIC AWARDS

The School of Medicine has in the past indicated its preparedness to recognize students who distinguish themselves and the University by virtue of their scholarship and their contribution to the university community. At the same time, the School has indicated that the terms of reference for such awards should neither compromise the spirit of cooperative scholarship which characterizes its M.D. programme nor replace its priority of concern for financial assistance awards.

A small, but growing number of estates and agencies have donated funds to the University and the School of Medicine for purposes of recognizing scholastic merit among medical students. In order to meet the requirements of these awards within the spirit of cooperative scholarship, these funds are administered by the School's Student Financial Aid Committee to support individual students in their pursuit of specific elective projects or activities.

Students are required to submit an application through the Electives Office, outlining the nature of their work and the need for funds. For further information, contact Robert Wakefield, (905) 525-9140, ext. 22979.

B.H.SC. MIDWIFERY PROGRAMME 6501**Programme Overview**

The programme is jointly offered by McMaster University, Laurentian University and Ryerson Polytechnic University and leads to the degree Bachelor of Health Sciences (B.H.Sc.) in Midwifery. Students enrol in one of the three post-secondary institutions. In addition to meeting all requirements of the joint programme, students must satisfy the academic regulations of the institution in which they are enrolled.

The curriculum includes courses from basic sciences, social sciences, health sciences, women's studies and electives, in addition to clinical courses. A variety of course formats are used, with a mix of large and small group situations. Distance learning formats, such as teleconferencing, are used extensively. Full-time students will complete the programme in three 11-month blocks.

Each student will be assigned to a midwifery practice for an extended period of clinical practice. This ensures that students will provide continuity of care to clients and obtain continuity of supervision from a clinical preceptor. As far as possible, a variety of midwifery practices and other sites are used to facilitate the locating of students in their geographic areas of choice. In addition to a placement with a midwife preceptor, clinical experience is obtained in hospital settings and in conjunction with a family physician, an obstetrician and in elective placements. Students will be brought together for several days at three times during the three-year programme as a means of fostering professional identity and group support.

Ryerson Polytechnic University offers the opportunity for part-time study and flexible scheduling. The sequence of courses and course load must be individually arranged. The suitability of part-time study for meeting clinical requirements is being carefully assessed. **Periods of full-time participation will be necessary in intensive courses and clinical placements.** Laurentian University offers the opportunity to study in French or English.

The programme reflects the philosophy of midwifery in Ontario and its focus on women's participation in their health care. The importance of public involvement in the evolution of the profession is evident in the ongoing participation of health-care users in programme advisory and evaluation activities and in student admission and evaluation activities. The programme works closely with practising midwives and other maternity-care providers to ensure a high-quality clinical environment for students.

Curriculum Plan

The curriculum plan sets out the programme in a three-year timetable of full-time study. The course sequence moves from foundation courses in basic and social sciences, women's studies and health sciences to the application of knowledge in clinical practice. Students enrolled in a programme of part-time study will follow an alternate curriculum plan.

The distance learning format (teleconferencing) requires that students convene in small groups. These will usually be on the university campus, but may be in other locations.

Students undertake some focused clinical activities in Level 1 to foster an understanding of clinical basis of the profession. In Levels 2 and 3 there are extended opportunities to acquire clinical skills and to integrate theoretical material with clinical practice in addition to completing the courses necessary to acquire the broad base of knowledge of a health professional. While efforts will be made to place students in the geographic location of their choice for their extended clinical practice, students may be required to travel or relocate in order to be placed in a practice that can provide suitable clinical supervision. Students must be prepared to supply their own transportation and to cover their living costs during clinical placements.

There are three (3) opportunities for students in the three (3) locations to meet together. The week-long intensive orientation and beginning of the course, Introduction to Midwifery, is held at Laurentian University in August of the year of entering the programme. Students are required to attend this session and to live in residence. The exact dates and locations of these opportunities are arranged on a year to year basis.

Admission Process and Criteria

The following are the requirements for admission in the academic year 1995/96. Please note that the admission policy is reviewed annually and the admission requirements from previous years may not apply.

Because of the nature of the selection procedures, deadlines are strictly enforced. All transcripts **must** be provided by the specified deadline. All applicants must provide all transcripts from OAC level (or equivalent secondary school) studies and all courses/programmes attended at any post-secondary institution. It is totally the applicant's responsibility to ensure that all transcripts are received at the University by **February 1** of the year in which registration is expected. Failure of the applicant to comply with instructions or meet the deadline will result in disqualification of the applicant.

As places in the Midwifery Programme are limited, the admission process is competitive. **Possession of the published minimum requirements does not guarantee admission.**

Applicants must apply for admission to the Midwifery Programme and indicate their choice of University in which to be enrolled. Applicants wishing to study in Laurentian's French language programme must submit their documents, the supplementary application forms and personal questionnaire in French.

ADMISSION CRITERIA

All applicants **must** present courses in three subject areas: English or Anglais; Biology or Chemistry; Social Science; with a minimum overall average of 70%.

Applicants from Ontario Secondary Schools or Equivalent:

The following are the minimum academic requirements for students applying directly from an Ontario high school:

1. One of OAC English, OAC anglais I or OAC anglais II;
2. One of OAC Biology or OAC Chemistry;
3. An OAC in social science (history, sociology, psychology, geography, law);
4. Completion of additional OAC's to total six credits, with a minimum overall final average of 70%.

Students applying from other provinces or countries must complete the equivalent of the above-mentioned OAC subjects to be eligible for consideration.

Applicants must be registered in or have completed required subjects by the application deadline. For those currently registered in required subjects, interim grades must be submitted and final grades available by June 30, 1995.

Post Secondary (College) Applicants:

Applicants with post-secondary studies (college level, CEGEP) must have completed courses that are equivalent to the OACs in the **three** subject areas specified above. The average in the subjects presented must be 70% or better.

Prior/Current University Studies:

Applicants with at least two full-time years at an accredited university at the time of application must have completed OAC subjects (or their secondary school equivalent) or corresponding university courses in at least **two** of the three subject areas noted above. The applicant's overall average from all university work including the two subject areas, must be a minimum of 70%.

Mature Students:

A mature student is defined as a student who is at least 21 years old prior to his/her first day of classes (for Laurentian and Ryerson applicants as of December 31st of year of admission); has not attended secondary school for at least two years; and has not previously attended university. Applicants in this category must have completed the three OAC courses (or equivalent) in the three subject areas outlined above with a minimum overall average of 70%.

Mature candidates lacking the above academic background will be advised to upgrade by either taking OAC courses or equivalent university level courses. Those who take OAC upgrading may have the two-year absence from formal studies regulation waived.

Transfer or Challenge Credit:

Applicants with previous university courses **may** be exempt from electives or other non-clinical courses in Level 1 and 2. The actual amount of credit awarded to an applicant will not be determined until the conclusion of the overall admissions process. Each application will be assessed on an individual basis. An offer of admission does not guarantee that credit will be awarded. For students entering the programme in September 1995, transfer/challenge credit will **not** be available for Midwifery clinical courses. Applicants should be aware of each University's residency requirements and time span completion policies. Transfer or challenge credit will not generally reduce the time span required to complete the programme.

Further details about the availability of challenge exams or other means of obtaining advanced credit for programme requirements will be available at a later time in the admissions process. Applicants who wish to be considered for advanced credit should proceed with the general application materials.

DEFERRAL OF ADMISSION

Those students offered admission will not be granted a deferral and will be asked to reapply.

SELECTION PROCEDURE:

The intention of the Midwifery Education Programme is to prepare students to become midwives who have the ability to give the necessary supervision, care and advice to women during pregnancy, labour and the postpartum period, to conduct deliveries on her/his own responsibility and to care for the newborn infant. In order to fulfill this criteria, midwives must have a thorough and rigorous academic preparation.

Midwives, as primary health care providers within our society, are expected to have well-developed interpersonal skills. They must be highly competent in areas of health education, counselling and interprofessional collaboration. Applicants to this programme should expect to be thoroughly assessed for their ability to exhibit and further develop these important personal/professional qualities.

Application to the Midwifery programme implies acceptance by the applicant of the admission policies and procedures, and methods by which candidates are chosen for the programme.

The admission process is detailed in three steps:

1. **Assessment of Academic Eligibility:** Review of applications for completeness and evidence of academic eligibility according to the criteria listed above.
2. **Review of Personal Submissions:** Each applicant is asked to answer five (5) questions in a typed submission not exceeding five double-spaced pages. This submission is the opportunity for applicants to show how their background experiences and personal attributes are well-suited to being a midwife. The submissions will be scored by teams of two evaluators who have no information about the academic background of the applicant.
3. **Personal Interviews:** Those who have obtained the highest scores on the personal questionnaire will be invited for a personal interview. Interviews will be conducted by teams of three, consisting of a faculty person, midwife, consumer or midwifery student who have no previous information about the applicant. Interviewers will assess applicants in areas such as their motivation to become a midwife, their awareness of midwifery in Ontario and career goals.

A total review of each applicant's file will help determine offers of admission at the conclusion of this three-step process. A waiting list will be formed for any places that become available.

UNSUCCESSFUL APPLICANTS

Applications are not held over from one year to another. If an unsuccessful applicant wishes to reapply, a new application, including transcripts and supplementary materials must be submitted. Unsuccessful applicants may request feedback about their application for the current year. Applicants must make their requests in writing to the programme no later than June 30th of the year of application.

APPLICATION DEADLINE

Submission of completed application forms to the Ontario Universities' Application Centre and all supporting documents/transcripts, must be received by the University no later than **February 1** of the year in which registration is expected.

FINANCIAL INFORMATION

In 1994-95 the tuition fees for a student in the Midwifery Education Programme were \$3,454.00. Supplementary fees may vary among the three institutions, but are estimated at \$400.00.

A confirmation fee may be required at the time of acceptance of an offer of admission.

Financial assistance is available from the federal and provincial governments through the Ontario Student Assistance Programme (OSAP). Students intending to apply for OSAP may begin their application process to OSAP once they are notified about receiving an interview. The final status of your application can be confirmed with OSAP at a later date.

Additional costs include books, supplies, and other learning resources estimated at \$500.00-\$1000.00.

Students should expect to cover their own travel and accommodation costs for the clinical components of the programme. Students are expected to cover a portion of costs for accommodation and meals when students meet together at one site three different times during the programme.

Academic Regulations**CONTINUATION IN THE PROGRAMME**

In order to continue in the Midwifery programme students must achieve a CA of at least 4.0 in all graded courses and achieve a pass/satisfactory performance in all clinical (midwifery) courses.

Students will be placed on probation if they obtain a CA less than 4.0 but not lower than 3.5, overall in all graded courses or do not achieve a pass/satisfactory performance in all clinical (midwifery) courses.

If students fail to meet the minimum grade requirements in the required courses or a pass/satisfactory designation in the clinical courses, they may, at the discretion of the Programme Chair in consultation with a reviewing committee, be allowed to repeat the course. The minimum grade requirements must be met after repeating a course.

Students will be granted programme probation for one reviewing period if their CA is less than 4.0, but no lower than 3.5, and they have not been on probation before. If the CA fall below 3.5, students will be required to withdraw from the programme.

GRADUATION REQUIREMENTS

In order to graduate with a Bachelor of Health Science in Midwifery, students must complete the overall programme including electives, with a CA of at least 4.0 on all graded courses as well as complete and satisfy all the requirements for clinical performance throughout the programme. In addition, all courses for the degree must be completed within five years of attempting the first midwifery course.

Professional Membership

The programme requires that all students become members of the College of Midwives and the Association of Ontario Midwives when they enter the programme. The College of Midwives requires all applicants to disclose any past criminal or professional proceedings. The total cost for these memberships is approximately \$200.00 annually.

Qualifying for Registration by the College of Midwives

The practice of midwifery is regulated by the College of Midwives under the Midwifery Act, 1991 and the Regulated Health Professions Act, 1991. The College of Midwives has approved a set of core competencies for entry to practice which guide the Midwifery programme's curriculum.

Regulations under the Midwifery Act set out the following for registration: attendance at a minimum of 60 births, of which the student must be involved as a primary caregiver for 40; 30 births must include care throughout pregnancy, labour and the puerperium.

Graduation from the Midwifery Education Programme does not guarantee registration with the College of Midwives. All applicants to the College must meet additional registration requirements.

Regulatory requirements are subject to change from time to time. The programme will maintain a close working relationship with the regulatory body so that students obtain the required clinical experiences to be eligible for registration.

THE SCHOOL OF NURSING

In 1942, McMaster University began its first programme in Nursing, which was operated cooperatively by the University and the Hamilton General Hospital. Since the establishment of McMaster University's School of Nursing in 1946, students have received a Bachelor of Science in Nursing degree upon graduation. The programme has functioned completely under the supervision of the University, while enjoying the full cooperation of community hospitals and agencies in the operation of its clinical courses. In July 1974, the Schools of Nursing and Medicine became the Faculty of Health Sciences.

In 1982, the Post Diploma Stream of the B.Sc.N. Programme was introduced. This second category of admission is available to provide opportunities for Diploma Registered Nurses to receive a B.Sc.N. degree.

Applicants often wish to discuss the implications of embarking upon a degree programme in nursing. During the school year Health Sciences Information Sessions for high school students are presented. Details about these sessions may be obtained from the Student Liaison Office (Gilmour Hall, Room 102, (905) 525-9140, ext. 24786). Applicants not applying directly from high school may discuss aspects of the admission process by calling (905) 525-9140, ext. 22232, or writing directly to the Admissions Coordinator (Nursing) HSC-2E10.

All enquiries about the Clinical Health Sciences (Nursing) graduate programme should be directed to the Graduate Programme Office, HSC-3N26, (905) 525-9140, ext. 22982.

The B.Sc.N. Programme

The B.Sc.N. programme promotes the development of nursing as a caring, client-centred, scientifically based profession. With an emphasis on problem-based, small group, self-directed learning, the programme provides a general baccalaureate education in nursing for the preparation of professional nurses who will practise in a variety of health-care settings. Central to our mission is the preparation of nurses who will work to enhance the quality of health of individuals, families, communities and society. In fulfilling its mission, the B.Sc.N. programme promotes in its graduates skills to prepare them for life-long, self-directed learning, critical thinking, advocacy and collective action.

As students progress in the B.Sc.N. programme, they will find an increasing emphasis on interpersonal skills, independent learning, and leadership qualities. Applicants should evaluate their own potential for developing abilities to interact with others and to assume leadership roles. Learning is both a process of inquiry and a skill which is developed as a life-long activity and which takes place in an environment conducive to openness and sharing among faculty and students. Emphasis on small group tutorials and self-directed learning promotes the development of self-evaluation skills and critical thinking abilities. Extensive audio-visual, laboratory and library resources support a belief in the importance of independent study. Students apply concepts from Nursing and related disciplines to their experiences in classroom and clinical settings. In addition, opportunities exist for international clinical practice experiences.

Evaluation by self, peers and faculty is part of an on-going process of assessment of the achievement of clinical, course, and programme objectives.

BELIEFS AND GOALS

We believe that nursing is a scientific activity which seeks to describe, understand and accept reality as human beings experience it, and to provide professional care in this context.

The scientific activity of nursing involves critical appraisal, ability to selectively utilize research findings and the use of a problem-solving process.

We believe that all human beings are unique, self-interpreting individuals with potential and with freedom of choice in determining the quality of life. Both the nurse and the client (individual, group or community) are accountable for their decisions and actions.

The unique contribution of nursing is in professional caring, which has both scientific and humanistic components.

At McMaster, we believe that health care is a team responsibility and that nursing education can be offered most beneficially in an interprofessional setting.

We believe that we can contribute to the development of nursing as a profession by producing graduates who:

1. Demonstrate personal characteristics that reflect a developing professional meaning; that is:
 - a. recognize the intrinsic dignity, worth and uniqueness of persons
 - b. demonstrate sensitivity and awareness of personal assets and limitations
 - c. demonstrate advocacy, empathy, tolerance, accountability
 - d. maintain ethical standards
 - e. think rigorously and critically
 - f. foster independent and collaborative practice
 - g. provide leadership for change.
2. Accept responsibility for life-long learning and professional growth.
3. Identify and understand internal and external influences on human health.

4. Utilize knowledge of biological, physical, verbal, emotional and spiritual factors in nurse/client situations.
5. Demonstrate knowledge of the impact of interprofessional interchange on nursing, other health disciplines and the health-care system.
6. Demonstrate nursing practice that reflects knowledge of the processes of change, caring, coping, valuing, learning and critical appraisal.
7. Demonstrate a comprehensive approach to nursing practice in a variety of settings.
8. Support and promote a humanistic and scientific approach to the care of nursing clients.

Admission Policy and Procedure

ADMISSION POLICY

Application to the B.Sc.N. programme in the Faculty of Health Sciences implies acceptance on the part of the applicant of the admission policies and procedures, and the methods by which applicants are chosen for the programme.

As places in the B.Sc.N. programme are limited, admission is by selection, and possession of published minimum requirements does not guarantee admission.

There are two streams of study for the completion of the B.Sc.N. degree. The Basic (A) Stream requires four years of study, and is available to: those applying directly from an Ontario secondary school, or with qualifications equivalent to OACs, and applicants with other qualifications including mature students and university students.

The Post Diploma (B) Stream can be completed in two years of full-time study and is available to Diploma Registered Nurses only. This programme can also be completed on a part-time basis.

The requirements and application deadlines vary depending on the applicant's background. Please note carefully the sections that follow as to procedures and requirements.

Applicants from Ontario Secondary Schools or Equivalent

Half of the places in Level I are held by students with OACs or equivalent. The selection method is by academic qualifications. Offers of admission are made the first part of June and may be based on final or interim grades available at that time. Offers based on interim grades will be conditional upon maintaining satisfactory performance on final grades.

Applicants with Other Qualifications and Diploma RNs

The selection method is based on academic qualifications, and a personal qualities' score comprised of ratings obtained on an autobiographical questionnaire and a personal interview. The response to the questionnaire is assessed by teams of assessors normally representing the faculty, the students or alumni, and the community. As a further selection process, applicants may be invited to a personal interview in early May.

Applicants are responsible for their own travel expenses. Failure to accept the invitation to an interview will result in cancellation of the application. The scores awarded by the assessors are final.

All applicants will be informed of the admission decision by mid-June. Where courses were in progress at the time of application, the offer of admission will be conditional upon the applicant achieving an overall final B- average in the required units (ie. 12 units for other qualifications and six units for Diploma RN). Failure to meet the condition will result in withdrawal of the offer of admission. Candidates who have not yet completed the required course work please refer to the *Nursing Occasional* category in the *Admissions Requirements* section of this Calendar.

ADMISSION PROCEDURE

Applicants from Ontario Secondary Schools

Applicants currently completing OACs apply through the Ontario Universities' Application Centre (OUAC). Application forms are available in secondary school guidance offices. The secondary school will forward the mid-term and final transcripts directly to OUAC in support of the application.

Applications for all studies beginning in September must be received by OUAC no later than May 1.

Transcripts of courses either completed or in progress and the completed questionnaire must be included with the application. Diploma RN applicants must also include their Certificate of Competence. Applicants enrolled in diploma nursing programs at the time of application must be eligible to write the nursing registration examinations no later than June of the year of application to the B.Sc.N. programme.

Students enrolled in other programmes at McMaster University wishing to apply to the B.Sc.N. programme are considered applicants "with Other Qualifications" (see section "B" below). If you wish to apply to the B.Sc.N. programme, submit a completed application to the B.Sc.N. office at the above address by February 15.

ADMISSION REQUIREMENTS

A student who plans to enter the Undergraduate Nursing Programme may qualify under one of the four categories (A to D) described below.

A. APPLICANTS TO THE BASIC (A) STREAM FROM SECONDARY SCHOOLS Requirements

1. One of OAC English I, OAC Anglais I or OAC Anglais II;
2. OAC Chemistry;
3. One of OAC Calculus, OAC Algebra and Geometry, OAC Finite Mathematics;
4. One of OAC Biology, or OAC Physics;
5. Completion of two additional OACs to total six credits.

Note: Application to the programme must be made within two years of completion of the OAC requirements. The admission average will be calculated on the best six OAC subjects, including the four required subjects.

Applicants with Qualifications Equivalent to OAC Requirements

Applicants from other provinces and countries must achieve the equivalent to the qualifications listed above in their secondary school graduation year.

Early Admission Stream (Nursing)

Applicants who qualify in January for early admission may be admitted directly into the B.Sc.N. programme and may begin their elective course work in May.

Nursing courses normally start in September.

B. APPLICANTS TO THE BASIC (A) STREAM WITH OTHER QUALIFICATIONS

Applicants who do not qualify under Category A normally should:

- 1.a be currently enrolled in first year of a University programme and have a university admission average of at least 75%; or
- 1.b provide evidence of achievement of a minimum of B- in at least 12 units (or equivalent) of university degree credit courses. (These courses may be taken as a full-time or part-time student and university correspondence degree courses are acceptable.)

Note: University degree credit courses completed prior to admission will be assessed for advanced credit, following admission to the programme, by the Coordinator of Studies.

2. submit a completed original and three copies of their response to the questionnaire provided in the application package. Applicants will be evaluated on the basis of the material submitted above and may be invited to come to McMaster in early May for an interview. Applicants are responsible for their own travel expenses.

Failure to attend the interview will result in cancellation of the application. The scores awarded by the assessors are final.

C. ADMISSION FROM OTHER DEGREE NURSING PROGRAMMES

Applicants who are currently enrolled in a Nursing degree programme at another university may wish to transfer into the B.Sc.N. programme at McMaster. Availability of space in the level requested will be determined by the Coordinator of Studies (B.Sc.N. programme). Even if no space is available, the applicant may choose to complete the admission process and be placed on a waiting list. Applicants normally should:

1. contact the Coordinator of Studies to discuss placement in the programme;
2. submit a completed original and three copies of their response to the Questionnaire provided in the transfer application package;
3. submit an official letter from the Dean/Director of the programme in which the applicant is currently enrolled stating that the applicant is in "good standing" in that programme (good standing is interpreted as at least a B- average in nursing courses);
4. submit a current official transcript.

The applicant may be invited to McMaster for a personal interview. Applicants are responsible for their own travel expenses.

Applications for transfer into the B.Sc.N. programme to commence studies in September must be received by the Admissions Coordinator (Nursing) no later than July 1.

D. DIPLOMA REGISTERED NURSES (B) STREAM

Any nurse holding, or being eligible for, nursing registration prior to the date of entry to the programme will be considered for admission to the Diploma RN (B) Stream of the Undergraduate Bachelor of Science in Nursing programme.

Applicants currently enrolled in a diploma nursing programme must be eligible to write the registration examinations no later than June in order to be eligible to apply to the Post Diploma Stream.

Advanced credit is granted for 33 units of work to nurses who graduated from an approved diploma nursing programme and who are admitted to the B.Sc.N. programme. Those offered admission to this two-year programme enter at Level III.

Applicants in this category normally should:

1. possess a current Certificate of Competence as a Registered Nurse in Ontario, or be eligible for reciprocity, or be eligible to write and subsequently pass the Registration examinations.
2. provide evidence (transcripts) of a minimum of a B- grade in at least six units (or equivalent) of University degree credit work. University correspondence degree courses are acceptable. University degree credit courses completed prior to admission will be assessed for advanced credit, following admission to the programme, by the Coordinator of Studies.
3. submit a completed original and three copies of their response to the questionnaire provided in the application package. Applicants will be evaluated on the basis of the material submitted in 2 and 3 above. Candidates may be invited to come to McMaster in early May for an interview. Applicants are responsible for their own travel expenses. Failure to attend the interview will result in cancellation of the application. The scores awarded by the assessors are final.

UNSUCCESSFUL APPLICANTS

Applicants are not held over from one year to another. If an unsuccessful applicant wishes to reapply to the B.Sc.N. programme, a new application, including supporting documentation, must be submitted.

Unsuccessful applicants may inquire about their application for the current year. The applicants must make their requests in writing to the Chair of the Undergraduate Nursing Admissions Committee. No inquiries will be considered after August 31 of the year of application.

APPLICATION FOR DEFERRAL OF REGISTRATION

Deferred registration may be granted only under exceptional circumstances, to those candidates who have been offered a place in the class and have accepted that offer. Deferred registration applies to the subsequent year of admission and no other year. The request for deferral, outlining the reasons for the request, must be postmarked no later than July 31 of the year of admission for which deferral is requested.

Academic Regulations

In addition to meeting the General Academic Regulations of the University, students enrolled in the B.Sc.N. programme shall be subject to the following programme regulations.

Registration in the B.Sc.N. programme implies acceptance on the part of the student of the objectives of that programme and the methods by which progress toward the achievement of those objectives is evaluated.

Since the academic regulations are continually reviewed, the University reserves the right to change the regulations.

The University also reserves the right to cancel the academic privileges of a student at any time should the student's scholastic record or conduct warrant so doing. Where, in the opinion of faculty, the performance of the student in clinical nursing practice may jeopardize or endanger the welfare of the patient, or the patient's family, the student may be removed from clinical experience any time during the academic year until continuation in the course is reviewed. The clinical activities associated with any clinical course must be successfully achieved for attainment of a passing grade in the course.

PART-TIME STUDENTS

Students will be permitted to enter, proceed through and graduate from the B.Sc.N. programme (A) or (B) stream, on a part-time basis. University and programme regulations governing the full-time undergraduate students will govern the part-time student.

As enrolment is limited, places reserved for part-time students at each level will be restricted. Normally, Nursing courses are available only during the day. Electives may be taken either in the day or evening.

Guidelines have been established for part-time study. Applicants are advised to seek counselling from the B.Sc.N. programme before engaging in part-time study.

B.SC.N. PROGRAMME ACADEMIC REGULATIONS

A student must:

1. achieve a Cumulative Average (CA) of at least 3.5; and
2. achieve a grade of at least C- in the graded Nursing and required Health Sciences courses with the exception that a grade of D-, D or D+ is permissible in one Level I Health Sciences course and only once in required Health Sciences courses beyond Level I.
3. achieve a Pass designation in all clinical courses and the clinical component of N1F04 and N1G04.

The following courses are designated clinical courses:

- Basic (A) Stream: NURSING 2L03, 2P03, 3X04, 3Y04, 4J07, 4K07
- Diploma Registered Nurses (B) Stream: NURSING 3L05, 3M05, 4S06, 4T06

All clinical courses above Level I are evaluated on a Pass/Fail basis. Areas of excellence in practice are noted in a detailed evaluation summary for each course.

(A course for which credit has been granted may be repeated only when approval is granted by the B.Sc.N. Programme Chair in consultation with the programme Reviewing Committee.)

CONTINUATION IN THE PROGRAMME

To continue in the B.Sc.N. programme a student must obtain a CA of at least 3.5. A student whose CA is at least 3.0, at the discretion of the B.Sc.N. Programme Chair in consultation with the programme Reviewing Committee, may proceed in the programme and will be placed on programme probation. A student may be placed on programme probation only once during the total programme.

FAILURE

A student whose CA is less than 3.5, and who has not been granted programme probation, may not continue at the University.

A student who fails to obtain a CA of 3.5 at the completion of the programme probation may not continue at the University.

A student may normally repeat a level of work only once.

If a student fails to meet the minimum grade requirements in the required graded Nursing and required Health Sciences courses or a Pass designation in the clinical nursing courses, the student may, at the discretion of the Programme Chair in consultation with the programme Reviewing Committee, be allowed to repeat the course in which the minimum grade or Pass requirement has not

been met. If a student fails to meet the minimum grade or Pass requirements after repeating the course, he or she may not continue in the Faculty. A student may normally be allowed to repeat only one clinical and one non-clinical Nursing or Health Sciences course during the programme.

Curriculum for the B.Sc.N. Programme

BASIC (A) STREAM

6390

The Faculty has planned the curriculum so that the study of nursing, the physiological, psychological and social sciences, and the humanities are interrelated and span the entire programme. In Level I, the amount of nursing experience is relatively small; the major proportion of study is in the behavioural and natural sciences. The nursing component increases progressively through Levels II, III, and IV, as the study of natural sciences is completed. Normally, because of timetable constraints, courses must be taken in the level indicated in the curriculum.

ELECTIVES

Thirty units of electives are to be selected from disciplines of the student's choice, of which a minimum of 12 units are to be chosen from courses designated as Level II or above. For some courses, the amount of duplication of required content will preclude their being used for elective credit in the B.Sc.N. programme.

REGISTRATION TO PRACTISE NURSING

On receiving the B.Sc.N. degree after successful completion of the (A) Stream of the B.Sc.N. programme, graduates are eligible to write the RN Licensing Examinations which are administered by the College of Nurses of Ontario. Application to write the RN Licensing Examinations is made through the Faculty of Health Sciences.

DIPLOMA RN (B) STREAM

6391

The programme of study for Diploma Registered Nurses is integrated with existing course offerings. The practice of nursing in diverse clinical settings will occur in all academic terms. The curriculum is designed to build on the existing knowledge and skills of the students, to prevent duplication of learning experiences and to prepare the students to function in the expanded role in community and institutional settings.

The curriculum is planned for two full calendar years if taken on a full-time basis. If taken on a part-time basis, students are normally allowed six years after the first Nursing course to complete the programme requirements.

Each level of the programme will consist of eight months of academic study with concurrent clinical practice.

The Nursing Management Programme, which was previously administered and is currently endorsed by the Canadian Nurses Association, was transferred to McMaster in 1993. The Programme is offered to Registered Nurses located throughout Canada and internationally by means of distance education. It is also offered locally through individual self-directed study and tutorial.

The course work is designed to familiarize Registered Nurses with the theory and clinical application necessary to function effectively in a management position. Content includes theory and techniques of management, leadership, organizational development, motivation, change, labour relations, legal implications, ethics, research and finance. Separate modules are available in budgeting and total quality management.

Enrolment is by approval of the Coordinator. Further information may be obtained through the Programme Office.

The Northern Nursing Programmes

Offered by McMaster University, School of Nursing in conjunction with Health Canada, Medical Services Branch, the Northern Clinical Programme and the Northern Community Nursing Programme are designed to meet the educational needs of nurses who provide primary health care services within First Nations and Northern communities in Canada.

ADMISSION POLICY AND PROCEDURE

Nurses for the Northern Nursing Programmes will be selected by Health Canada, Medical Services Branch and McMaster University based on the criteria of experience, education, initiative and personal suitability. Geographic diversity among participants is actively sought. All candidates must be currently registered as a nurse in a province or territory in Canada and be employed by Health Canada, Medical Services Branch or a Band Council.

ACADEMIC REGULATIONS

Students in the Northern Nursing Programmes shall be subject to the General Academic Regulations of the University and the regulations of the B.Sc.N. programme.

Northern Clinical Programme

6393

The Northern Clinical Programme has been designed as a thirteen week programme to provide educational opportunities for the integration of advanced clinical assessment skills and relevant knowledge in the physical, biological and behavioural sciences necessary for delivery of nursing care in First Nation communities in Northern Canada. These skills not only include the advanced physical assessment necessary to intervene in acute, chronic and emergency situations, but also the decision-making and problem-solving skills necessary in rapidly changing situations.

Northern Community Nursing Programme **6392**

The programme focuses on the theory and practice of community based nursing care. Students develop strategies designed to promote health, prevent disease, and reduce the burden of illness within the First Nations and Northern communities.

Over the nine-month period, students come to McMaster to participate in four courses each of which comprises sixty hours of intensive classroom and group work focused on relevant community health skills and principles. Each course is followed by a work-study practicum conducted in the student's home community. The work study practicums are linked to the course content and to each other as they build on progressively more challenging skills and concepts.

Paediatric Oncology Programme

6394

In order to accommodate the educational needs of registered nurses working in paediatric oncology, a programme has been developed within the context of the existing post-diploma stream. This programme affirms the McMaster curriculum model of student-centred, problem-based or problem-focused teaching and learning; respect for the adult learner; a curriculum cognizant of and responsive to evolving nursing practice, a commitment to interprofessional approaches and a commitment to a strong scientific component. Students enrolled in the programme will be actively linked with one of the provincial tertiary paediatric haematology-oncology sites and maintain their clinical practice at that institution. The courses themselves will emphasize the existing literature and practice modalities in paediatric haematology-oncology and incorporate these into some of the present post-diploma baccalaureate courses.

SCHOOL OF OCCUPATIONAL THERAPY AND PHYSIOTHERAPY

McMaster University offers two Bachelor of Health Science (B.H.Sc.) second-degree programmes in Occupational Therapy and Physiotherapy. McMaster will no longer offer the B.H.Sc. degree completion programme for those who currently hold a diploma from Mohawk College in Occupational Therapy or Physiotherapy.

B.H.Sc. (OT/PT) Second Degree Programmes

The two second degree programmes, offered in collaboration with Lakehead University, have been designed to graduate therapists in two calendar years. These graduates will possess the knowledge, skills and professional behaviour to practice in a complete range of settings in either urban or rural locations. The collaboration with Lakehead University will add a further dimension, that of understanding the specific health issues unique to northern Ontario, as well as an awareness of the career opportunities available in these regions.

The content of the curricula is in accordance with accreditation guidelines and the scope of practice as described by each of the professions. Students are expected to achieve a sense of the influence of family, society, and culture as they explore the mechanisms of health, disease, disability, prevention and treatment.

The aim of the Bachelor of Health Sciences programmes in Occupational Therapy and Physiotherapy is to provide students with the opportunity to build on their first degree and to acquire a professional education. Upon graduation they will be able to function as competent basic-level clinicians in a variety of hospital and/or community health settings. Competence entails the integration of knowledge, skills, and professional behaviour in order to analyze and manage health problems.

Curriculum

The time is divided into seven units of full-time study over a period of 24 months. The content of each unit is profession specific; however, there are occasions when Occupational Therapy and Physiotherapy students study together. The total programme consists of 100 units of credit; 70 units of academic study and 30 units (30 weeks) of clinical practice. One of the unique features of the programmes is the integration of clinical education/fieldwork experiences with academic study. Within each of the specialty units, a six-week clinical placement follows eight weeks of academic study.

NORTHERN STUDIES STREAM

Both programmes, Occupational Therapy and Physiotherapy, offer a Northern Studies Stream option. The goal of the NSS is for students to develop an awareness and appreciation of Northern health issues. Half of the students in each programme will participate. Interested students apply for this option during the first term of the programme. Final selection of students for the Northern Studies Stream remains with the University.

The Northern Studies Stream encompasses either one 14-week specialty unit or one six-week clinical fieldwork placement. The eight weeks of academic study occurs at Health Sciences North on the Lakehead University Campus in Thunder Bay and the clinical fieldwork placements occur in various Northwestern Ontario communities.

Currently, the 14-week units offered in the NSS are Units II and III (Physiotherapy) and Unit IV (Occupational Therapy). Limited numbers of the other six-week clinical fieldwork placements are also offered in the Northern Studies Stream.

Funded by the Ministry of Health, travel to and from McMaster and accommodation in Northwestern Ontario is provided for the Northern Studies Stream students.

TEACHING/LEARNING METHODS

The curricula of both programmes emphasize that the process of learning is equal in importance to the content. The learning methods are, therefore, based on the philosophies of self-directed and problem-based learning:

Problem-Based Tutorials

Problem-based learning takes place in small groups in which a tutor acts as a facilitator of student learning. Students are presented with health-care problems that have been carefully designed and selected for each unit. These problems promote the exploration of the underlying biological, psychological, and behavioral determinants of health as well as the principles of therapy. Large group interactive resource sessions may be offered to enhance access to content experts and other resources.

Students learn and practice group skills, share knowledge, become comfortable with changing leadership positions, and give and receive feedback.

The size of tutorial groups may vary from five to seven students. Tutorial group membership is changed for each unit in the programme in order to maximize interaction among students and faculty.

Tutors are usually occupational therapists or physiotherapists who are knowledgeable in the content area of the unit, and expert in tutoring in a problem-based format. The same tutor meets regularly with the group throughout the unit. Tutors also serve as role models in the professional socialization process.

Clinical Skills Laboratories

Clinical skills laboratories use a variety of formats to help students learn the clinical skills of assessment, treatment and other aspects of clinical practice. Laboratory sessions are designed to complement the health-care problems used in problem-based tutorials. The clinical skills learned in the laboratory section of each unit are applied and integrated into the clinical education component of the specialty units.

The focus of clinical skills laboratories changes through the units. Unit I stresses basic clinical skills, Units II through V focus on specialty areas of practice, and Unit VI is designed to develop skills in consultation, administration, and other advanced clinical skills.

Inquiry Seminars

These seminars are designed to provide opportunities to explore and discuss major topic areas and theoretical concepts which are central to the development and practice of the professions. Presentations by content experts, small-group problem-solving, and large-group discussion are utilized to provide the means and impetus for these investigations.

Topics chosen for inquiry seminars are used to complement the major themes in each programme unit and may vary from year to year. The seminar leaders include faculty members and experts from the community.

Clinical Education

Students spend a total of 30 weeks in full-time clinical practice. Clinical education is organized in a variety of health-care facilities including teaching hospitals, community hospitals, health-care agencies, specialized centres, private clinics, and other community facilities throughout Ontario. Students integrate academic learning into practice under the supervision of qualified therapists.

The University Coordinator of Clinical Education (PT) or University Fieldwork Coordinator (OT) is responsible for arranging all clinical placements. No student may make her/his own arrangements with any clinical facility.

Placements are limited and subject to availability. Therefore, students will be required to complete some clinical education units in Northwestern Ontario or elsewhere outside of the Hamilton area.

The students are expected to provide their own means of transportation to each clinical facility and to cover costs of travel and parking. Travel to and from the cities where clinical placements will be offered in Northwestern Ontario will be arranged by the Northern Studies Stream, through funding made available through the Ontario Ministry of Health.

Occupational therapy students will be assessed an additional fee for the use of the computerized clinical placement service of the Canadian Association of Occupational Therapists.

Independent Study

An independent study is completed during Unit VI. It may consist of an extensive literature review on a selected topic, a simple research design/proposal, or participation in an ongoing research study or clinical project. Evaluation of the independent study is based on a learning contract which is negotiated by the student with a faculty member during Unit V.

Student Evaluation Methods

A variety of methods are used to assess student performance throughout the programmes, including written and oral evaluations, presentations, and tests of clinical skills.

Admission Policy and Procedure

Enrolment in the second-degree programmes in Occupational Therapy or Physiotherapy is limited to 60 in each programme. Final selection of applicants for admission is made by McMaster University. The admission process considers academic achievement, personal qualities and experience. Personal qualities and experience are assessed on the basis of an autobiographical submission and a personal interview. Assessors are drawn from the faculty, the community, and students.

ELIGIBILITY

Applicants must:

1. At the time of application, have achieved a minimum grade point average of B- or 70% (2.7 on the 4 point grade scale) over the last two years of full-time academic study or the equivalent.
2. By June 30 in the year of admission, have completed an undergraduate baccalaureate degree at a recognized university, and have achieved/maintained a minimum overall grade point average of B- or 70% over the last two years of full-time academic study or the equivalent.

For those who have pursued their undergraduate degree on a part-time basis, eligibility assessment will be made using the courses equivalent to the last two years according to their programme.

No preference will be given for any specific subject area in which the degree has been obtained.

APPLICATION PROCEDURE

Application packages with detailed instructions are available from:

**Office of the Registrar
McMaster University
Gilmour Hall, Room 108
Hamilton, Ontario, L8S 4L8**

or

Registrar's Office, Lakehead University

All application packages must be submitted directly to Admissions, OT/PT Building (T-16) McMaster University. Deadlines will be strictly enforced.

The applicant is responsible to ensure that the following is received on or before **January 15**:

- a. application forms: the McMaster application, autobiographical submission, and academic record form;
- b. transcripts for all university degree credit courses and programmes in which the applicant has been enrolled;
- c. application/assessment fee.

Academically eligible applicants are ranked on the basis of their grade point average over the last 2 years of full-time university study or the equivalent, and the score on their autobiographical submission. Those ranked among the top applicants to each of the Occupational Therapy and Physiotherapy programmes are invited for a personal interview.

Interviews are conducted between **April 1** and **May 15** in either **Hamilton** or **Thunder Bay**, according to the applicant's preference. Applicants invited to an interview are notified approximately three weeks in advance of their interview. All applicants are responsible for their own travel costs to and from the interview.

All applicants will be notified of the admission decision by June 1.

FINANCIAL INFORMATION

In 1994-95 the academic fees (tuition and supplementary fees) for a student in the McMaster Undergraduate Occupational Therapy or Physiotherapy Second-Degree programmes are \$4,000 for three terms, September to August. It is estimated that books and supplies cost an additional \$750 annually.

Financial difficulties are frequently experienced by second degree students. For these programmes difficulties are intensified by the lack of opportunity for summer employment as well as the relative scarcity of financial assistance available to second degree students.

Financial assistance may be available from the federal and provincial governments through the Ontario Student Assistance Programme (OSAP). To be eligible a student must be a Canadian citizen or permanent resident of Canada and fulfill certain requirements for residency in Ontario.

Academic Regulations

Students in the B.H.Sc.(OT) and B.H.Sc.(PT) programmes, in addition to meeting the general University academic regulations, must follow these specific programme requirements.

Registration in the B.H.Sc.(OT) and B.H.Sc.(PT) programmes implies acceptance on the part of the student of the objectives of that programme and the method by which progress towards those objectives is measured. The University reserves the right to cancel the academic privileges of any student at any time that the student's scholastic record or conduct warrants doing so. Where the performance of the student in a clinical setting may jeopardize or endanger the welfare or safety of a patient or a patient's family, the student may be removed from the clinical setting any time during the academic year, until continuation in the course is reviewed.

COURSE LOAD

All courses are required. No exemptions or substitutions will be granted. All course work toward the B.H.Sc.(PT) and B.H.Sc.(OT) must be completed as McMaster University courses. A student may not take a course load consisting of a partial unit. All courses within each unit must be taken concurrently.

DEANS' HONOUR LIST

Students will be evaluated for standing on the Deans' Honour List only upon completion of the programme. Students will be named to the Deans' Honour List if they receive no failing or remedial course grades throughout the programme, and achieve a minimum average of 9.5, calculated using the grades on all courses taken throughout the programme.

CONTINUATION IN THE PROGRAMME

Students are reviewed at the end of each unit, and at the end of the academic component in each of the specialty units (Units II to V). Students must achieve a grade of at least C- in every course at each review to continue in the programme. A grade of F in any course results in a student being required to withdraw from the programme.

A student who obtains a credit for a course, but achieves a grade below C-, is required to successfully complete remedial work in order to continue in the programme. Upon successful completion of the remedial work, the new grade assigned for the course is C- in all cases. The remedial work must be completed prior to the beginning of the next unit unless otherwise specified by the Programme Academic Review Committee. If the remedial work is not successfully completed, the original grade will stand, and the student will be required to withdraw from the programme.

A student is allowed to do remedial work only twice during the programme. Upon the third time that credit is obtained in a course but the grade is below C-, the student is not allowed to perform remedial work, and is required to withdraw from the programme.

The first time a student becomes ineligible for continuation in the programme or voluntarily withdraws from the programme, he/she is permitted to apply for readmission in writing to the Programme Chair. The request must be made at least three months prior to the beginning of the unit to which the student is requesting readmission. Normally, a student who is readmitted to the programme must repeat all courses of the unit in which he/she became ineligible to continue.

A student who becomes ineligible for continuation in the programme a second time or who voluntarily withdraws from the programme a second time, may reapply only through the regular admissions process.

The latest possible date for readmission is two years from the beginning of the unit from which the student withdrew.

FACULTY OF HUMANITIES

Dean of Humanities

E. Simpson/A.B., Ph.D.

Associate Dean of Humanities (Studies)

F.A. Hall/Assoc.Dipl., B.Mus., M.A., Ph.D.

Director of Academic and Administrative Services

P.A. Kalnins/B.A.

Student Advisor

S.A. Richard/B.A.

"The humanities tell us how men and women of our own and other civilizations have grappled with life's enduring, fundamental questions: What is justice? What should be loved? What deserves to be defended? What is courage? What is noble? What is base? Why do civilizations flourish? Why do they decline?..."

"Mankind's answers to compelling questions are available to us through the written and spoken word — books, manuscripts, letters, plays, and oral traditions — and also in non-literary forms, which John Ruskin called the book of art. Within them are expressions of human greatness and of pathos and tragedy. In order to tap the consciousness and memory of civilization, one must confront these texts and works of art."

— William J. Bennett

The humanistic disciplines — philosophy, languages and literature, history, music, art and drama — are those fields of critical enquiry which help us to know ourselves through an understanding of humanity's creative and intellectual traditions, its moral and aesthetic values and its spiritual and material aspirations, and through the realization of human memory. The task of the humanistic scholar is to cultivate an appreciation for traditional learning, and to generate new ideas about the nature of human conditions; to discover, through historical perspective, the processes which link past and present; and to bring to bear on the problems of an age of rapid and often unsettling transformation perceptions informed by values which make us more, rather than less, human and civilized.

The attainment of precise knowledge and fresh insights through lectures, class discussions, reflection, analysis and writing is the essence of study in the Faculty of Humanities' seven academic units. These are:

- School of Art, Drama and Music
- Department of Classics (Ancient History and Archaeology, Classical Languages and Literature)
- Department of English
- Department of French
- Department of History
- Department of Modern Languages (German, Hispanic Studies, Italian, Japanese, Russian)
- Department of Philosophy

In addition, the Faculty offers the following interdepartmental programmes:

- Honours Comparative Literature
- Honours German Area Studies
- Honours Linguistics
- Combined Honours in Literary Studies
- Honours Modern Languages
- Honours Modern Languages and Linguistics
- Honours Russian and East European Studies

PROGRAMMES AND DEGREES

A. Level I Programmes

ADMISSION REQUIREMENTS

Students intending to qualify, after Level I, for admission to a degree programme in one of the Humanities disciplines should complete Humanities I. Students intending to enrol in a degree programme in Music should complete Music I, although students may enter a B.A. programme in Music from Humanities I.

The admission requirements for Humanities I and Music I are described in the *Admission Requirements* section of the Calendar.

12 units Elective of which at least six should be selected from courses offered by a Faculty other than Humanities

No Humanities I student may take more than six units of work in any single subject, except in the case of CLASSICS 1B06 and 1L06.

* Students with an OAC in Greek or Latin will register for six units of Level II Greek or Latin in lieu of the 1Z06 course.

** **Portfolio Required: ART 1F06:** The prerequisite for ART 1F06 requires permission of the School of Art, Drama and Music based on **required portfolio interview**. If you intend to take ART 1F06 which is required for entrance into any Honours Art programme, you must make an appointment with the School for a portfolio interview in March. The portfolio should contain a variety of original work in different media, including work derived from both firsthand observation and the imagination. Aptitude in art and academic ability are both considered in the selection process. In exceptional circumstances where distance does not allow for an interview, portfolios may be submitted in the form of colour slides or photographs. Late applications will be considered subject to space availability and merit after the first allocations have been confirmed in June. **Acceptance into ART 1F06 is contingent upon receiving written confirmation from the School of Art, Drama and Music.**

*** Students wishing to take Music courses other than MUSIC 1A06 must make arrangements with the School of Art, Drama and Music for qualifying tests.

Students admitted to Music I (0370) must complete 30 or 33 units of work as follows:

18-21 units MUSIC 1B06, 1CC3, 1D03, 1E03 (or 1E06), 1G03.
(Permission of the School of Art, Drama and Music is required for MUSIC 1E06.)

12 units Electives, 6 of which may be from courses in another Faculty.

B. Degree Programmes

Upon successful completion of Humanities I, a student may be admitted to a programme of study leading toward a Bachelor of Arts degree. (Completion of Music I may lead to a Bachelor of Music or Bachelor of Arts degree.) There are three ways to complete a Bachelor's degree in the Faculty of Humanities.

SINGLE HONOURS PROGRAMME

Three years of study, beyond Level I, concentrated in the work of a single discipline (e.g. History). After three years of Music study beyond Music I, students receive a B.Mus. degree.

COMBINED HONOURS PROGRAMME

Three years of study, beyond Level I, concentrated in the work of two disciplines (e.g. English and Philosophy). In fact, a student can combine study in any two Humanities disciplines, or one Humanities discipline and a subject from another Faculty where appropriate (e.g. History and Political Science, Philosophy and Biology) or one Humanities discipline with Women's Studies or Japanese Studies.

MINOR

A minor is an option available to a student enrolled in a four-level programme. A minor consists of at least 18 units of Level II, III, or IV courses beyond the designated Level I course(s), **using elective units only**, that meet the requirements set out in the programme description of that minor. A student is responsible for ensuring that the courses taken meet these requirements. Those who have the necessary requirements may apply for recognition of that minor when they graduate. If recognition for a minor is granted, this recognition will be recorded on the student's transcript. For further information please refer to *Minors* in the *Academic Regulations* section of this Calendar.

B.A. PROGRAMME

Two years of study, beyond Level I, concentrated in the work of a single discipline.

The content and the requirements of single Honours, Combined Honours and other B.A. programmes are found further on in this Calendar under the title Programmes for the B.A., B.A. (Honours) and B.Mus. Degrees.

There are a number of Humanities courses which may be taken as electives without prerequisites. Individual course descriptions, by Department, are given under the section entitled *Course Listings*.

Not only are students from other Faculties able to take individual courses which have no prerequisites, but they are also able to transfer into any of the degree programmes offered by the Faculty of Humanities. For the majority of programmes in the Faculty, admission may be gained after the successful completion of any Level I programme at the university, providing this includes the necessary programme requisites as outlined in the admission statement for each Humanities programme as described under Programmes for the B.A., B.A. (Honours) and B.Mus. Degrees.

SECOND LANGUAGE PROFICIENCY

Students embarking on Humanities programmes should be aware that most graduate schools require, for admission, proficiency in at least one, and frequently two, languages other than English. In this Faculty, proficiency in at least one language other than English is regarded as an essential tool for students interested in English Literature, Comparative Literature, Drama and Linguistics. Generally, proficiency in more than one language is a hallmark of most highly-qualified Humanities' graduates seeking the widest range of post-graduation academic and employment opportunities.

PART-TIME STUDY

Students wishing to enter any programme offered by the Faculty of Humanities and pursue a programme on a part-time basis should consult the appropriate Departmental Counsellor(s) before making their plans.

It is anticipated that at least the following Honours programmes in the Humanities will be available to those part-time students who are only able to take their work in the evening during the Fall/Winter session: Art History; Drama; English; History; Philosophy.

For part-time students who are only able to attend evening classes during the Fall/Winter session, the following B.A. programmes are available: Art History; Classics; Drama; English; French; History; Philosophy.

ACADEMIC REGULATIONS

Students enrolled in Humanities programmes, in addition to meeting the General Academic Regulations of the University, shall be subject to the following Faculty Regulations and Policies.

ADMISSION AND READMISSION TO THE FACULTY OF HUMANITIES

Because of resource limitations, the University and Faculty of Humanities reserve the right to limit enrolment in any programme or course to the number which can be taught effectively. Enrolment will be by selection based on academic achievement.

Admission as a Second Bachelor's Degree student or as a Continuing Student is by selection and may be limited.

Admission is not guaranteed.

Students completing McMaster Level I programmes may be given preference for admission to limited enrolment programmes over students from other programmes or other universities.

Students from other Faculties are able to transfer to degree programmes offered by the Faculty of Humanities provided that they have obtained a Cumulative Average of at least 3.5 and have completed the necessary requirements for admission to a programme.

Students who do not meet these requirements must submit a Request for Special Consideration to the Associate Dean of Humanities (Studies). Such requests for transfer are not automatic or guaranteed and will be considered at the same time as applications for readmission (see below).

Applications for readmission must be made, in writing, to the Associate Dean of Humanities (Studies). Readmission requests for September must be submitted by July 15 and for January by November 30.

Applications should explain the reasons for the student's inadequate performance and should include relevant documentary evidence, for example a letter from a physician outlining any medical condition that might have affected the student's academic performance or final grades. Readmission cases will be carefully screened and the evidence considered will include the student's academic performance before and after admission to McMaster, as well as the nature of the reasons cited in the application letter and the accompanying documentation. **Readmission is not guaranteed.**

ENGLISH AND HISTORY PROGRAMMES: ADMISSION FROM OTHER POST-SECONDARY INSTITUTIONS

Enrolment in English and History programmes is limited, with priority given to students who have completed Level I at McMaster University.

Applications, together with all supporting documents, from students from other post-secondary institutions who wish to be considered for admission to these programmes at McMaster must be received by the Registrar's Office no later than June 15. Note that English and History programmes at McMaster may be commenced only in September.

REGISTRATION AND COURSE CHANGES

It is the responsibility of the student to ensure that the programme of work undertaken meets the requirements for the degree. When registering or making changes to course selection, students must seek the written approval of the Associate Dean (Studies). Dates for final registration and course changes appear in the *Sessional Dates* section of this Calendar and are rigidly adhered to.

CROSS-LISTED COURSES

Students wishing to take a cross-listed course which is taught by the Department/School offering the student's programme must register for it under that programme subject listing. For example, ART HIST 2B03 is cross-listed as CLASSICS 2B03, so students in an Art History programme wishing to register for this course must register for it under the course designation of ART HIST 2B03.

DEADLINES

The Faculty of Humanities will not consider applications for admission after the dates stated in this Calendar. Registrations after the stated deadlines will not be accepted unless documentation is provided showing good cause and including permission of instructors to enter classes late. Dropping and adding of courses will be permitted only within the periods stated in this Calendar.

SUMMER IMMERSION PROGRAMMES IN FRENCH

You must obtain approval from the Associate Dean (Studies) prior to participating in any language immersion programme.

The government-sponsored summer language bursary programme offers university students the opportunity to take French courses at a large number of accredited institutions. Students wishing to attend another university in order to participate in a language immersion programme must: (a) petition the Associate Dean (Studies), (b) submit detailed course descriptions for assessment, and (c) obtain a Letter of Permission.

Students registered in a programme in French may take a maximum of six units of credit in this manner as elective work only. Students not registered in a programme in French may take up to 12 units of credit.

ACADEMIC REGULATIONS PERTAINING TO MUSIC PROGRAMMES

Normally, students with an undergraduate degree in Music will not be admitted to a B.Mus. degree programme as a second undergraduate degree.

THIRD YEAR STUDY ELSEWHERE/ HUMANITIES STUDY ABROAD

Students registered in any Honours or Combined Honours programme in the Faculty of Humanities may apply to replace all or part of the work of their third year with an acceptable programme of study taken at a university or equivalent institution approved by the Faculty of Humanities.

To be eligible to take part in this programme, students must have completed at least 60 units of work with a Cumulative Average of at least 7.0. Individual programmes may have additional requirements. All requirements must be satisfied by the end of the Fall/Winter session (September-April) preceding the commencement of study elsewhere. Students taking part in this programme do not have the option of graduating with a three-year B.A. degree on the basis of work completed in this programme, but must return to McMaster University to complete their final 30 units of work.

No fees are payable to McMaster University for the Third Year Study Elsewhere programme, but students must pay all associated travel, study, and living expenses. For students in need of financial assistance, OSAP (the Ontario Student Aid Programme) may be available for this programme. In addition, assistance with travel expenses may be available from McMaster University bursary funds.

Students interested in applying for this programme should consult the Coordinator, Humanities Study Abroad and their department(s) or School about one year before they plan to begin their study elsewhere. No later than the end of January, students must propose a programme of study for approval by their department(s) or School and the Coordinator.

While they are engaged in study elsewhere, students must maintain links by correspondence with their departmental academic counsellor(s) at McMaster.

Students may receive up to 30 units of credit for a full year of study in Third Year Elsewhere programme. The awarding of all credit for work completed elsewhere may be confirmed only after departments have received transcripts and reviewed students' academic achievements following their return and after they have officially registered for Level IV. In certain cases, students may be recommended for the Deans' Honour List on the basis of work completed elsewhere.

SPRING COUNSELLING

During the Spring Counselling period:

1. Information sessions are held by departments in the Faculty of Humanities to discuss undergraduate programmes, course offerings for the next academic session, etc.;
2. Students seeking admission to a Level II programme for the following Fall/Winter session must complete an "Application for Admission to Level II" available in the Humanities Faculty Office in Chester New Hall, Room 112;
3. Students in Levels II or III who wish to transfer into Level III or IV programmes in Honours English or Honours History or Level III of the B.A. English programme must complete an "Application for transfer to Level III or IV" available in CNH 112;

4. Students in Levels II, III, or IV obtain a copy of the new Undergraduate Calendar from the Office of the Registrar and updated Degree Audit Reports from the department offering the programme in which they are registered.

The dates for the Spring Counselling period may vary somewhat from year to year; however, the specific dates and information will be posted on campus, outlined in the campus newspaper and will be announced in some classes. It is the student's responsibility to participate in these counselling activities.

SCHOOL OF ART, DRAMA AND MUSIC

Beginning July 1, 1995, McMaster welcomes a new School of Art, Drama and Music. All students are invited to participate in this initiative.

PROGRAMMES IN DRAMA**NOTES**

1. The School of Art, Drama and Music offers a broadly based programme of study in the history, theory, and critical understanding of the dramatic text in performance. Programme requirements at Level II are designed to expose students to the breadth of the study through four foundation courses -- in the history of performance, the structures of theatrical texts, the medium of film, and the art of acting. Level III courses offer more specific approaches to the study of performance. A limited amount of student specialization within the programme is possible at this level. The Honours Seminars at Level IV focus on independent research and are restricted to Level IV Honours Drama students. Students are advised to note carefully the prerequisites for all courses. Students are also advised to take note which courses are offered in alternate years.
2. A number of courses that directly pertain to the study of Drama are offered by other departments: Classics, English, French, Modern Languages, Kinesiology, and Women's Studies. These are recommended as electives and are listed at the end of the Drama course descriptions. With the approval of the School of Art, Drama and Music, a limited number of courses from the list may be available as substitutes for Drama courses, and counted toward the fulfillment of a programme in Drama. Students are advised that there may be restrictions on enrolment in these courses.
3. Students registered in Honours Drama are strongly urged to complete six units of non-introductory work in a language other than English. Students in Combined Honours are strongly urged to complete an introductory course in a language other than English (OAC level or equivalent).

The Faculty of Science provides studies through the following Departments:

- Biochemistry
- Biology
- Chemistry
- Computer Science and Systems
- Geography
- Geology
- Mathematics and Statistics
- Materials Science and Engineering
- Physics and Astronomy
- Psychology

Most Departments offer four-level Honours B.Sc. programmes with a specialist option which requires concentration of studies in a specific discipline.

Many Departments offer four-level Honours B.Sc. programmes (Complementary Studies Option) which require somewhat less concentration in the discipline and 21 units of Complementary Studies, 18 units of electives which include at least six units of Level III and IV courses, and six units electives.

Students registering in Honours programmes with the specialist option are strongly encouraged to select their electives from the Complementary Studies courses.

A number of Departments offer Combined Honours degrees which are academically more challenging than single Honours programmes.

Honours degrees in Molecular Biology and Biotechnology and in Biology and Pharmacology (a five-year Co-op programme) are organized by Committees of Instruction involving the Faculties of Health Sciences and Science.

The Honours degree in Science (Complementary Studies Option) requires a breadth of studies in science; at least one course each from chemical, earth, life, mathematical and physical science is required. The Honours degree in Science (Environmental Science Option) requires a similar breadth of studies in science, while providing a focus on environmental science.

Three-level B.Sc. programmes provide a science education which is less demanding than the Honours programmes. Three-level B.Sc. programmes are offered in Earth Science, General Science, Life Science, Mathematical Science and Physical Science.

ACADEMIC REGULATIONS

Students enrolled in Science programmes, in addition to meeting the general Academic Regulations of the University, shall be subject to the following Faculty Regulations:

COURSE SELECTION

It is the responsibility of the student to ensure that the selection of courses meets the degree requirements for the programme in which the student is registered and that the stated prerequisite courses were completed with a grade of at least D-.

SEQUENCE OF COURSES

Students in the Faculty of Science must have completed or be registered in the courses for Level I before they may register for courses beyond Level I.

LIMITED ENROLMENT PROGRAMMES

Because of resource limitations, the University reserves the right to limit enrolment in any programme or course to the number which can be effectively taught. In the Faculty of Science, enrolment will be by selection, based on academic achievement. Students should consult with the Departments concerned if there are any questions about entry to limited enrolment programmes. Enrolment is limited in all Honours Co-op programmes.

Admission is limited for all single, Combined Honours four-level B.A., B.Arts Sc. and B.Sc. programmes involving Biochemistry, Biology, Molecular Biology and Biotechnology, and Psychology.

SCIENCE COOPERATIVE EDUCATION

The Faculty of Science has instituted Co-op programmes in Honours Biochemistry, Honours Biology and Pharmacology, Honours Geography and Environmental Science, and Honours Medical and Health Physics. Additional Honours Co-op programmes, such as Honours Computer Science Co-op, are in the planning stages and may be offered in the future subject to resource availability.

All Honours Co-op programmes are Specialist Option programmes. They have limited enrolment and admission will be by selection. Employment must be full-time during the work term. Students enrolled in Co-op programmes must be registered in full-time studies during the academic terms of their programme. With written permission from the work term supervisor, one three unit course may be taken during each four-month period of a work term. These units may not be used to reduce the academic term course load. A Science Co-op Fee will be assessed during each academic term of a Co-op programme.

For further information, please consult the Associate Dean of Science (Studies) or Science Cooperative Education in the Faculty of Science.

COOPERATIVE INTERNSHIPS

The Faculty of Science offers students the opportunity to participate in 12-16 month full-time paid work placements in industry to provide work experience related to their academic curriculum. Students compete for placements with participating companies through an application and interview process. In order to accept an Internship, students must be in Level II or III of a four-year programme, and be eligible to return to complete their undergraduate degree. A fee is assessed following the start of the placement.

For further information, please consult the Associate Dean of Science (Studies) or Science Cooperative Education in the Faculty of Science.

FIELD COURSES

Field courses are offered through the Departments of Biology, Geography, and Geology. Some of these courses are taken outside the Fall/Winter session, during the spring or summer.

Students who enrol in field courses must pay **both**:

- a fee to the department to cover travel expenses, room and board **and**
- the associated tuition fee to McMaster at Fall registration.

Although students initially register for field courses through the appropriate departmental offices, it is their responsibility to include field courses on their registration forms for the appropriate Fall/Winter session.

Detailed information regarding field courses may be obtained from the individual departmental offices. Students who are interested in taking a field course should consult the departmental offices for information and deadlines.

LETTERS OF PERMISSION

Students enrolled in Science programmes may apply to take elective courses at another university on Letter of Permission. In special circumstances, prerequisite courses may be taken on Letter of Permission. Applications must be submitted to the Associate Dean of Science (Studies) Office.

WORKLOAD

All programmes in the Faculty of Science may be taken by full-time and part-time students, with the exception of the Honours

Biochemistry (Co-op Option), Honours Biology and Pharmacology, Honours Geography and Environmental Science (Co-op Option), and Honours Medical and Health Physics (Co-op Option) programmes. Students enrolled in Co-op programmes must be registered in full-time studies during the academic terms of their programme.

Students must maintain a full academic load during the Fall/Winter session to be eligible for scholarships available to full-time students.

A full academic load in the Fall/Winter session is also required of applicants for Natural Sciences and Engineering Research Council (NSERC) Undergraduate Research Awards. To be eligible for the Deans' Honour List an academic load in the Fall/Winter session of at least 30 units is necessary.

Students are expected to avoid timetable conflicts among their courses, and students on a full academic load should ensure the number of courses is balanced in each term.

INTERNATIONAL STUDY DURING LEVEL III OF HONOURS PROGRAMMES

There are two ways to undertake international studies during Level III of an Honours programme; via a Formal Exchange Programme or a Third Year Study Elsewhere programme.

Formal Exchange Programme During Level III of Honours Programmes

See the *Academic Regulations* section of this Calendar.

Third Year Study Elsewhere Honours Programme

Third Year Study Elsewhere is not available at universities with which McMaster University has a Formal Exchange Agreement.

Students registered in single or Combined Honours programmes in the Faculty of Science are encouraged to apply to study the whole of a third year at an appropriate university*.

To be eligible to take part in this programme, students are expected to complete Level II with a Cumulative Average of at least 6.0. Students must pay all associated travel, study and living expenses. For students in need of financial assistance OSAP (Ontario Student Aid Programme) grants and loans may be available for this programme. Furthermore, McMaster University offers some bursaries to those in need of help.

Students interested in this programme should begin discussion with the Associate Dean of Science (Studies) about one year before they plan to enrol elsewhere.

Students must propose an academic programme that must be submitted to the Department for approval. Academic approval must be completed by the end of February for registration in the Fall.

Students must maintain links through correspondence with their departments at McMaster University while they are engaged in study elsewhere. All credit for work completed may only be confirmed after departments have reviewed the students' academic achievement following their return and registration in their final year of study. The maximum credit available in this way is normally 30 units for the full year of study, equivalent to Level III. In certain cases, students may be recommended for the Dean's Honour List on the basis of work undertaken in the programme.

*There are approved universities in the following areas: Rhône-Alpes (France), Baden-Württemberg (Germany), Lombardy (Italy) and Catalonia (Spain).

COURSE CHANGES

All course changes must be made through the Office of the Dean of Science (Studies) and are subject to the deadline dates established by the University. (See *Sessional Dates* section of this Calendar.)

Beyond the September deadline date, first-term courses may be cancelled up to the November deadline but may not be replaced by second-term courses; beyond the January deadline date, second-term courses may not be replaced. Students who cancel a full-year course by the January deadline date may add a three-unit second-term course.

March Counselling

Counselling is available throughout the year from the Office of the Associate Dean of Science (Studies) and the academic

departments in the Faculty of Science. However, it is highly recommended that all students in the Faculty of Science make a counselling appointment with a Departmental Undergraduate Advisor during the March Counselling period.

During the March Counselling period:

- 1) Information sessions are held by the Faculty of Science departments to discuss undergraduate programmes, future graduate study opportunities, career options, etc.;
- 2) students in Levels II, III, and IV obtain up-to-date Degree Status Reports (Degree Audits) for the programmes in which they are registered, and a copy of the new Undergraduate Calendar;
- 3) all Level I students seeking admission to a Level II programme for the following Fall/Winter session must complete an "Application for Admission to Level II";
- 4) students in Levels II or III who wish transfer to another programme for the following Fall/Winter session must complete an "Application to Transfer to Another Programme";
- 5) students wishing to take courses requiring permission, including limited enrolment courses and Science Inquiry courses, **must** apply to the appropriate department for permission;

The dates for the March Counselling period may vary somewhat from year to year. The dates and information for March 1995 Counselling Period will be posted on campus, outlined in the campus newspaper, and will be announced during classes. It is the student's responsibility to participate in March Counselling activities.

ADMISSION TO LEVEL II PROGRAMMES

Any student seeking admission to a Level II programme in the Faculty of Science for the following Fall/Winter session must complete an "Application for Admission to Level II" during the March Counselling period. This form, which allows students to rank four programme choices, must be completed by the end of March and returned to the Office of the Associate Dean of Science (Studies).

The admission criteria for Honours B.Sc. and B.Sc. programmes are described explicitly in the individual programme descriptions in this section. For admission to all Level II programmes in the Faculty of Science, students must meet the minimum requirements. In addition, admission to limited enrolment programmes is also based on CA achieved and students will be admitted by a selection committee. See *Limited Enrolment* in this section of the Calendar.

Level I students must meet the admission criteria for a Level II programme according to the Calendar in effect when they registered. Students must follow the programme requirements of the Calendar in force when they enter Level II, except when a later Calendar explicitly modifies such requirements.

Students will receive an admission decision at about the time they receive their grade reports in June. The Office of the Associate Dean of Science (Studies) will approve registrations only for the programme to which a student was granted admission.

PROGRAMME TRANSFERS

Up to the end of Level III, students may be permitted to transfer between Faculty of Science programmes on the recommendation of the Department concerned and with the approval of the Associate Dean (Studies).

Students are eligible to apply for transfer from a B.Sc. programme to a related Honours Programme or between the Honours Complementary Studies Option and the Specialist Option of a programme provided that they have:

- 1) attained a CA of at least 6.0, **and**
- 2) satisfied the requirements for all levels of the programme preceding the level to which they seek a transfer.

Permission to transfer to a programme is subject to any exceptions or special restrictions outlined in the *Admission* statement or the *Programme Notes* for that programme.

It is the student's responsibility to apply to the Associate Dean of Science (Studies) Office for a programme transfer for the following Fall/Winter session during the March Counselling period. Students will be notified of the results of their applications in early June. Programme transfers are not normally permitted during the Fall/Winter academic session.

LIMITED ENROLMENT COURSES

In the *Course Listings* section of this Calendar, certain courses are described as having an enrolment limit, by the phrase: "Enrolment is limited" which appears below the prerequisite statement. There are two types of limited enrolment courses as follows:

1) For the first type of limited enrolment course, enrolment is controlled by requiring that permission be obtained prior to registration in the course. Courses requiring such permission may be identified by checking the course prerequisite which states as a requirement: "permission of the instructor, department, coordinator, chair", etc.

It is the student's responsibility to apply to the corresponding departmental office for permission during the March Counselling period for courses in which they wish to register for the following Fall/Winter session.

During the May Reviewing period, the departments will make the selections for the limited enrolment courses. During the summer registration period, the Office of the Associate Dean (Studies) will approve only those limited enrolment courses for which a student has obtained the appropriate permission. If permission has not been obtained, the course will be deleted from the registration. Students must state an alternate course on their registrations for each limited enrolment course selected.

If a limited enrolment course is an absolute requirement for a programme, then students in that programme have a guaranteed place in the course. This will be noted in the course prerequisite.

2) The second type of limited enrolment course makes no mention of obtaining permission. The enrolment in these courses is controlled on a first-come, first-served basis. Students must state an alternate non-limited enrolment course on their registrations for each limited enrolment course of this type selected.

COURSES REQUIRING PERMISSION

Courses requiring permission may be identified by checking the course prerequisite which states as a requirement: "permission of the instructor, department, coordinator, chair", etc.

It is the student's responsibility to apply to the corresponding departmental office, instructor, etc. for permission during the March Counselling period for courses in which they wish to register for the following Fall/Winter session.

DEADLINES

The Faculty of Science will not consider applications for admission, admission to a second degree or continuing studies, registration, deleting, cancelling, or adding of courses after the deadlines stated in this Calendar under *Sessional Dates* and *Application Procedures* sections, unless written documentation is provided showing good cause.

READMISSION TO THE FACULTY OF SCIENCE

A student who is ineligible to continue in the Faculty of Science or who "May Not Continue At The University" may normally not apply for readmission for one full academic year. Exceptions may be made only when there are extenuating circumstances which are supported by written documentation.

Application for readmission must be made in writing by **June 15** to the Chair of the Committee on Readmissions, Office of the Dean of Science (Studies), and should include an explanation of the student's previous academic performance and reasons why the student would expect to succeed in the programme if readmitted. If the student has been Required to Withdraw for one calendar year, a letter of reference from an employer may be required.

Readmission is not guaranteed.

FORMER SCIENCE STUDENTS

Students who were previously registered in a Science programme and in good standing but did not register during the last academic year (Fall/Winter or Summer session) must write to the Dean of Science (Studies) Office to seek permission to continue their studies. The letter should explain academic activities since the last registration.

If five years have passed since the last registration at McMaster please see the *Application Procedures* section of this Calendar.

Regulations for Honours, B.Sc. and Major Programmes**ADMISSION TO HONOURS B.SC. PROGRAMMES**

The admission criteria for the Honours B.Sc. programmes are described explicitly in the individual programmes descriptions in this section.

Admission to Level II is limited for some programmes in the Faculty of Science. For further information please see *Admission to Level II Programmes* in this section of the Calendar.

ADMISSION TO B.SC. PROGRAMMES

The admission criteria for the B.Sc. programmes, in each of the areas Earth, General, Life, Mathematical and Physical Science, are listed under the heading *Three-Year B.Sc. Programmes* in this section.

Students are advised to seek counselling to ensure that their course selections are appropriate. Students who identify a subject area of emphasis should seek counselling from the corresponding department.

For more information, please see *Academic Regulations* section of this Calendar.

GRADUATION FROM HONOURS B.SC. AND B.SC. PROGRAMMES

To graduate from a programme, students must meet the course requirements of the Calendar in force when they enter that programme, with the exception that a later Calendar may explicitly modify such requirements.

The requirements for graduation from these programmes are described under the heading *Graduation* in the *Academic Regulations* section of this Calendar.

TRANSFERRING TO GRADUATE WITH A THREE-YEAR B.SC FROM AN HONOURS B.SC. PROGRAMME

Students who successfully complete Level III of any Honours B.Sc. degree may request permission from the Associate Dean of Science (Studies) Office for transfer to graduate with a three-year B.Sc. degree.

GRADUATION FROM B.SC. MAJOR PROGRAMMES

For students who graduate with the B.Sc. Major degree in 1995 the Graduation Average will be superseded by the Cumulative Average: this is based on the weighted average of all area courses taken before September 1993 and on all courses taken from September 1993 onwards. A Cumulative Average of at least 4.0 must be attained for graduation.

The social sciences are concerned with the systematic study of activities and human relationships in societies which range from the pre-industrial to the post-industrial. There is also growing interest among social scientists in the interaction between people and their natural and artificial environments. Developments in theory and refinements of method have, in recent years, given great impetus to social science studies and research.

The Faculty of Social Sciences includes the following departments or schools and programmes:

Anthropology, Economics, Gerontology, Kinesiology, Labour Studies, Political Science, Religious Studies, Social Work, Sociology, Geography and Psychology have programmes in the Faculty of Social Sciences as well as in the Faculty of Science.

The Faculty offers Bachelor of Arts, Honours Bachelor of Arts and Professional programmes.

PROGRAMME NOTES

1. Students registered in Honours B.A. or B.A. programmes in the Faculty of Social Sciences are required to complete six units of courses chosen from the Faculty of Humanities and/or the Department of Religious Studies. Students enrolled in Religious Studies programmes are required to complete six units from the Faculty of Humanities. It is recommended that this requirement be completed in Level I.
2. Normally, a student will take only six units of Level I work in any one discipline. In special circumstances a student may be permitted to take up to 12 Level I units in one discipline.
3. Many programmes in the Faculty of Social Sciences require Mathematics. The Centre for Continuing Education offers three levels of non-degree math skills courses developed to help students upgrade their competence in mathematics in preparation for university study (CCE 101, CCE 102 and CCE 108). For students in Social Sciences, completion of CCE 108 will be recognized as satisfying the prerequisites for MATH 1K03 and STATS 1L03. For more information, please contact the Centre for Continuing Education.

B. Degree Programmes

HONOURS PROGRAMMES

The Honours programmes provide a concentration in the particular field, as well as an extended time of study, and are normally a requirement for those who contemplate proceeding to graduate studies.

Students enrolled in an Honours programme in the Faculty of Social Sciences, in addition to meeting the University requirements for an Honours degree (see the *Academic Regulations* section in this Calendar) must also fulfill the following breadth and skills requirements prescribed by the Faculty: at least 12 units of Level I Social Sciences courses; six units, not in the student's Honours subject(s), selected from the Faculty of Humanities and/or the Department of Religious Studies. (Students enrolled in Religious Studies programmes are required to complete six units from the Faculty of Humanities); six units of Research Methods, in the students' Honours subject(s) prescribed by the Department(s) and HUMAN 2C03. Honours programmes in the Faculty of Social Sciences consist of a total of 120 units of work, normally completed over four years, and include in the body of work prescribed by the Department(s) at least three units of the History of Thought of the candidate's Honours Social Sciences discipline(s) and six units of Inquiry and Honours seminar.

Honours (Specialist Option): In addition to Honours programmes, the departments of Economics, Geography, Labour Studies, Psychology and Sociology offer an Honours (Specialist Option) programme which has different requirements from the Honours degree. The requirements in Honours (Specialist Option) will prepare you for graduate study in the discipline. Students intending to complete a Minor would normally register in an Honours programme rather than an Honours (Specialist Option) programme. In departments which offer an Honours but not a Specialist programme, the Honours programme will fully qualify you for graduate study.

Combined Honours Programmes: Subject to possible timetable restrictions, and provided that the student meets the requirements for entry into each of the relevant Honours programmes, a student may combine work in any two departments and be graduated with a Combined Honours degree in the two subjects. These combinations are available within the Faculty, with programmes in the Faculty of Humanities, with the Arts and Science programme and with the Women's Studies programme. The Honours Gerontology degree is offered only in combination with another subject. All Combined Honours programmes must be approved by both Departments concerned as well as by the Office of the Associate Dean(s) (Studies). Students will normally complete approximately 36 units of work beyond Level I in each component of the programme (normally 12 units per level in each subject).

Minor: A minor is an option available to a student enrolled in a four-level programme. A minor consists of at least 18 units of Level II, III, or IV courses beyond the designated Level I course(s) that meet the requirements set out in the programme description of that minor. A student is responsible for ensuring that the courses taken meet these requirements. Those who have the necessary requirements may apply for recognition of that minor when they graduate. If recognition is granted for a minor, this recognition will be recorded on the student's transcript.

COMBINED B.A./B.S.W.: The School of Social Work offers a Combined B.A./B.S.W. programme of studies leading to a B.A. and a B.S.W. degree. (See the programme description in this section.)

The B.S.W. degree may be attained separately only by those students who have already received one or more undergraduate degrees.

BACHELOR OF KINESIOLOGY: The Department of Kinesiology offers a programme of studies leading to the B.Kin. degree. (See the programme description in this section.)

BACHELOR OF ARTS PROGRAMMES: B.A. programmes consist of a total of 90 units of work, normally completed over three years.

The only three-level Combined Bachelor's degree programme is in Gerontology and Another Subject. The other subject may be from the Faculty of Social Sciences or the Faculty of Humanities. This programme may also be combined with the B.S.W. as a four-level programme.

Students are strongly advised to take advantage of the extensive advisory services provided by the Faculty. New students in particular should plan a programme of study that will allow them a number of options for Level II.

Part-time Studies

Subject to limitations of course offerings, a student may pursue on a part-time basis any programme in the Faculty of Social Sciences, except for the B.Kin. programme. Normally, students will arrange their programme of studies in consultation with a Student Advisor in the Office of the Associate Dean (Studies) and with the Undergraduate Advisor of the appropriate Department(s).

ACADEMIC REGULATIONS

Students enrolled in a programme in the Faculty of Social Sciences, in addition to meeting the Academic Regulations of the University, shall be subject to the following regulations of the Faculty of Social Sciences.

ADMISSION AND READMISSION

Students from other Faculties are able to transfer to degree programmes offered by the Faculty of Social Sciences provided they have obtained a Cumulative Average of at least 3.5 and have completed the necessary programme admission requirements.

Students who do not meet these requirements must submit a Request for Special Consideration. Such requests for transfer will be considered at the same time as applications for re-admission (see below).

A student who *may not continue at the University* may apply for readmission. Application for readmission must be made in writing to the Office of the Associate Dean of Social Sciences (Studies). Guidelines for the letter of application may be obtained from the Office of the Associate Dean (Studies). Deadlines for readmission application are the same as application deadlines for admission to the University. See *Sessional Dates* section of this Calendar. Readmission applications will be carefully reviewed and the evidence considered will include the student's academic performance before and after admission to McMaster, current Faculty admission requirements, the letter of application with any supporting documentation and the student's ability in English.

Readmission is not automatic or guaranteed.

Decisions on requests for transfer and requests for readmission will be made after July 15 for entry or re-entry in September.

HUMANITIES/RELIGIOUS STUDIES REQUIREMENT

Students registered in the Faculty of Social Sciences except for those in B.Kin. and B.P.E. and those combining a B.A with a B.S.W., are required to complete six units of courses chosen from the Faculty of Humanities and/or the Department of Religious Studies.

Students enrolled in Religious Studies programmes are required to complete six units from the Faculty of Humanities.

Students registered in the B.A. programme in Economics will fulfill this requirement by completing ENGLISH 1D06. Students in Psychology programmes should note the additional Business, Humanities or Science requirements.

DEADLINES

The Faculty of Social Sciences will not consider applications for admission, admission to a second degree or continuing studies; registration, or dropping and adding of courses after the deadlines stated in this Calendar under *Sessional Dates* and *Application Procedures*, unless written documentation is provided showing good cause, as determined by the Faculty Admissions, Study and Reviewing Committee.

COURSE SELECTION AND CHANGES

A student must ensure that the selection of courses meets the degree requirements for the programme in which the student is registered, that any prerequisites have been met, and that the appropriate written permission has been obtained if required. Considerable inconvenience can result for a student whose registration does not meet the requirements.

All registrations, programme changes and course changes must be approved by the Associate Dean (Studies) and are subject to the deadline dates established by the University as published in this Calendar under the *Sessional Dates* section.

Qualified students are permitted to transfer between B.A. and Honours programmes with the approval of the Associate Dean (Studies). Transfers are subject to the deadline dates established by the University.

WITHDRAWAL

Students who wish to withdraw from the University are required to advise the Dean of Studies Office in writing. Students must surrender their McMaster Identification Cards to the Dean of Studies to ensure the processing of any fee refunds. Students who fail to withdraw formally from any course(s) by the stated deadlines will remain registered whether or not they attend classes and will be assigned a grade.

COURSES IN KINESIOLOGY AND SOCIAL WORK AVAILABLE FOR UNDERGRADUATE CREDIT

Some Kinesiology and Social Work courses may be taken by students in other programmes as electives for undergraduate credit. Enrolment in these courses requires written permission of the department or instructor. These courses are:

- KINESIOL 3P03, 3Q03, 4E03, 4L03, 4M03, 4Q03 (KINESIOL 3SS3 and 4J03 may be taken as elective courses by undergraduates not in Kinesiology without permission of the instructor, but may be subject to enrolment restrictions.)
- SOC WORK 3C03, 3G03, 3H03, 4B03, 4C03, 4J03, 4K03, 4M03, 4Z03

All other Social Work or Kinesiology courses are open only to students registered in those programmes.

LETTER OF PERMISSION

If you wish to attend another university to take courses which will carry credit toward a McMaster degree, you must obtain permission ahead of time. To do this you must seek a Letter of Permission from the Associate Dean (Studies) and pay the appropriate fee. You should take note of any conditions on the Letter of Permission that might apply, including the requirement of a grade of at least C- for transfer credit. Courses taken at another university cannot be used to satisfy the university's minimum residence requirements, will not be included in the calculation of the McMaster average, and therefore cannot be used to raise standing. The transcript designations will read "COM", indicating "complete", when a grade of C- or better is attained. You must be in good standing in the Faculty to be eligible to take work on a Letter of Permission.

INTERNATIONAL EXCHANGE PROGRAMMES

There are a number of official exchange programmes offered to undergraduate students registered in the Faculty of Social Sciences, including Province of Ontario Exchange Programmes in Germany and France, and McMaster University-wide Exchange Programmes in China, Denmark, El Salvador, Germany and the United Kingdom. Official exchange programmes offer students the most inexpensive means of studying abroad as students participating in these exchanges avoid the foreign student fees by paying fees to McMaster. You may, however, arrange to study elsewhere for a year independent of the official exchange programmes.

All students must have completed at least one year of continuous study and be in good standing to be eligible to participate in an exchange. In most cases, students who participate in exchange programmes go abroad for the third Level of an Honours programme.

Students interested in any exchange programme **must discuss their plans with their department and with the Office of the Associate Dean (Studies) if they intend to transfer credit to their McMaster degree programme.** Such discussions should begin about one year before they plan to enrol elsewhere.

For further information please see *International Study* in the *Academic Regulations* section of this Calendar.

Acceptance to the Ontario and University-wide Exchange Programmes is by recommendation. Application forms can be obtained from:

DEPARTMENT OF KINESIOLOGY

Students entering the University starting in September 1994 will follow the requirements for the Bachelor of Kinesiology programme. Those students who entered the University prior to September 1994 will follow the requirements for the Bachelor of Physical Education Programme as outlined below. Beginning in 1995, as currently enrolled students complete the B.P.E. programme, they will be given a choice of whether they wish to graduate with the B.P.E. or B.Kin. degree.

Bachelor of Kinesiology (B. Kin.) 2308**Enrolment in this programme is limited.**

The Department of Kinesiology offers a four-year programme leading to the degree of Bachelor of Kinesiology (B.Kin.). The programme differs somewhat from the majority of Physical Education/Kinesiology programmes in the province in that students begin to take courses leading to the degree in Level I. The programme is divided into two distinct parts.

During Levels I and II students take a core of 36 units of required theoretical courses in which they are introduced to the various subdisciplines of Kinesiology and a core of six units of required practicum courses.

During Levels III and IV students are free to select from a variety of Kinesiology electives in both theory and practicum areas. These courses, supplemented by the arts and science electives selected by the student, may be grouped in various ways with career and/or graduate study goals in mind.

NOTES

1. Beginning in September 1995, practicum courses are graded as Pass or Fail and are not included in the calculation of the Cumulative Average. (In 1994-95 practicum courses were graded as A, B or F.)
2. **Readmission**
A student who is ineligible to continue in the B.Kin. programme may apply for readmission after not less than one year. Application for re-admission must be made in writing to the Undergraduate Coordinator by **March 31** of the year in which readmission is desired. Students will not be considered for readmission unless they have achieved a B- average in at least 24 units of university course work.
Readmission is not guaranteed.
3. **Work load**
In any Fall/Winter session, a student may not register for more than the required 33 units without the approval of the Undergraduate Coordinator.
4. **Transferring into the B. Kin. Programme**
Enrolment of transfer students from another university or another McMaster programme is limited and applicants must normally have at least a B- average in their previous university work to be considered. Students transferring from another university should see the *Admission Requirements* and *Application Procedures* sections of this Calendar. McMaster students interested in transferring should contact the Undergraduate Coordinator.

SCHOOL OF SOCIAL WORK

Combined B.A./B.S.W.

ADMISSION

Completion of any Level I programme, including PSYCH 1A06 and SOCIOL 1A06, normally with a CA of at least 6.0 and evidence of personal suitability, which may be evaluated by one or a combination of written statements, tests, or interviews.

An applicant must complete Level I by April of the year in which application is made.

In choosing Level I courses, the student should take care to include those courses that will allow entry to the B.A. programme. Students should consult the relevant sections of the Calendar and/or the Office of the Associate Dean (Studies).

Enrolment in the Combined B.A./B.S.W. programme is limited. Students who intend to apply for the combined B.A. and B.S.W. programme must consult the School of Social Work prior to application.

All applications for admission to the School of Social Work are considered annually and must be made **directly to the School well before March 1** for the Fall/Winter term. First Nations students may select an alternate application process. Those who wish to do so should consult the School of Social Work for details.

Applicants **transferring** from other universities (see *Two-Tier Applications* below) **must also apply** through the Ontario Universities' Application Centre (OUAC) and are required to meet the introductory Psychology and Sociology prerequisites.

Students admitted to the Combined programme who have completed B.A. work beyond Level I normally will require three years after admission to complete the programme.

TWO-TIER APPLICATIONS

If you are transferring from a university other than McMaster, or a college, you must complete **two** application forms as follows:

1. General Application (December 1)

If you wish to study *full-time*, obtain a 105 application form from the Admissions Office of any Ontario university. Complete the form showing *both* your interest in the B.A./B.S.W. programme, and the subject you wish to take for the B.A. component. The form should be returned to OUAC, with the appropriate fee.

If you wish to study *part-time*, fill out a McMaster University Application form which can be obtained from OUAC or directly from McMaster, at the Office of the Registrar, Gilmour Hall, Room 108. Complete and return this form to OUAC with the appropriate fee.

To allow adequate time for the processing of the General Application, applicants are advised to submit their applications **by December 1**.

2. Supplementary Application (March 1)

After the General Application has been received at McMaster, the School of Social Work will mail you a Supplementary Application form, which must be completed and returned directly to the School of Social Work by **March 1**. **To avoid delay, you should request this form personally through direct contact with the School of Social Work.** This form is used to decide when applicants are able to write an admissions test, which is scheduled for two dates in March of each year, both on site and at alternative testing centres outside Hamilton.

Adequate time is needed to make these arrangements and to complete the admissions process. Therefore, it is *impossible* to consider applicants whose Supplementary Application arrives after the March 1 deadline.

WOMEN'S STUDIES PROGRAMME

Director

Joan Coldwell/B.A., M.A. (London), Ph.D., (Harvard)

Administrative Assistant

Pat Young

Women's Studies is a rapidly expanding discipline which brings fresh new approaches to scholarship. It focuses on women's contributions to civilization in all fields of endeavour, past and present. It examines the ways in which ideas about women have developed and tests the validity of those ideas in the light of new knowledge and theories. It establishes the importance of gender as a category of analysis in scholarly enquiry, social relations, cultural expression and belief systems.

Students choose a subject they wish to pair with Women's Studies and work towards a combined degree. By offering a Combined Honours B.A. degree with another subject of the student's own choice, Women's Studies encourages the reassessment of the traditional academic disciplines in order to create a more balanced understanding of women and men.

Women's Studies courses are interdisciplinary, allowing students to explore the relationship between different branches of knowledge and to test the presuppositions of established theoretical frameworks in any area of enquiry. The Director of Women's Studies advises students on selection of appropriate courses.

The programme emphasizes the integration of theory and practice, with small-group teaching, personal attention to individual development and the encouragement of student-designed research at all levels.

The Women's Studies programme is committed to understanding and seeking to improve the conditions of life for all women. Students in the programme are trained in feminist theories and in applied skills, enabling them to be creatively responsive to community needs and to be capable of critically analyzing women's issues and problems in the local and international work world.

Graduates of the programme will find many career options in such areas as education, health care, labour relations, personnel management, industrial and government consulting, as well as in work for higher degrees in Women's Studies.

ACADEMIC REGULATIONS

THEME SCHOOLS

The concept of a Theme School was outlined in a key series of recommendations in the University's Strategic Plan. A Theme School is a centre of interdisciplinary learning in which a group of faculty members identifies a set of intellectual problems arising out of their research, establishes a programme of study focused on these problems, and gathers a group of students interested in learning about these problems. Students and faculty will form an intellectual community that will explore these problems through self-directed learning and independent study.

Theme Schools will be taken as a Minor in conjunction with any four- or five-year programme. (See *Minors* in the *Academic Regulations* section of this Calendar.)

It is anticipated that Theme Schools' life cycles will normally be five years. They will accept approximately 60 students a year for three years with the objective of graduating about 180 students by the end of the cycle.

The subject area of Theme Schools will vary over time, depending on the interests of faculty and students.

Individual Theme Schools will invite applications for students wishing to enrol early in each calendar year. Normally, students will indicate their particular interests and qualifications. Students selected for a school will be informed in the spring.

Currently, two schools have been approved by the University Senate.

Because Theme Schools are under review, the University cannot guarantee that students will be able to start a Theme School minor in September 1996 or later.

SCHEDULING OF COURSES

Students participating in Theme Schools should be aware that many Theme School courses will be held on Thursday evenings. This is necessary to make Theme School courses available to students from a wide variety of programmes. Every attempt will be made by the Theme Schools to arrange classes that meet the scheduling needs of their students; however, it may be necessary for students to change their optional courses in their Honours programmes to have conflict-free schedules.

THEME SCHOOL ON INTERNATIONAL JUSTICE AND HUMAN RIGHTS

Director

Rhoda E. Howard/B.A., M.A., Ph.D., F.R.S.C.
Kenneth Taylor Hall, Room 202, ext. 24164

Associate Director

Stefania S. Miller/B.A., M.A., Ph.D.

This Theme School takes as its starting point the global consensus on human rights enshrined in the International Bill of Rights of the United Nations, and many other UN documents. The focus will be on comparative international debates about the relationships among modernization, technology, development and human rights. The concept of International Justice recognizes the cultural and ideological diversity that underlies these debates.

The Theme School will concentrate on two of the most important public issues of our time: how to develop efficiently and without violating economic rights; and how to organize societies politically in a manner that permits development and human rights yet does not violate people's sense of community or culture.

THEME SCHOOL ON NEW MATERIALS AND THEIR IMPACT ON SOCIETY

Director

A. John Berlinsky/B.Sc., M.Sc., Ph.D.
A.N. Bourns Building, Room 454, ext. 24683

Throughout history, the discovery and development of new materials have had a profound impact on the evolution of human civilization. Our ability to produce such materials as bronze, iron,

paper and silicon created new directions in science, industry, health care and the arts and have affected all aspects of human endeavour, from war and peace to space exploration to daily living.

This Theme School will explore the discovery of new materials and investigate the impact of materials-driven technology on business, health, recreation, technology, the arts and the environment. The programme should be considered by students with an interest in art, history, sociology, anthropology, environmental studies, engineering, health sciences, science or business.

ACADEMIC REGULATIONS

Theme School Minor programmes are governed by the general Academic Regulations of the University and the regulations described below.

Normally, students will enter a Theme School in Level II and will complete a four- or five-year degree with a Theme School Minor. Continuation in the Theme School normally requires students to maintain standing in their programme.

THEME SCHOOL PROGRAMMES

Each Theme School will admit a maximum of 70 students to the Minor in any given year.

ADMISSION

Admission will be by selection and on condition that a student is accepted into any four- or five-level programme.

PROGRAMME REQUIREMENTS

1. Enrolment in the Theme Schools Minor is limited. Applications for admission in 1995-96 should be made to the respective Theme School Directors. Applications for the Theme School on New Materials and Their Impact on Society will be considered starting January 31 of each year until the enrolment limit is reached. Those students applying to the Theme School on International Justice and Human Rights will be considered starting February 15 of each year until the enrolment limit is reached. Theme School faculty may wish to interview applicants.

2. Theme School on New Materials and Their Impact on Society: Requirements

This programme has three main components:

- a. Courses (TSNM 2B03, 3B03, 4B03, 4C03);
- b. the Theme School Seminar (TSNM 2A02, 3A02, 4A02); and
- c. Research Internship (TSNM 2R06, 3R06).

The Seminar is required of all students for a total of six units. A minimum of 18 units must be taken from among the Theme School courses and research internships. Normally, one or two courses will be taken in the Fall and Winter terms.

3. Theme School on International Justice and Human Rights: Requirements

Students are required to take 24 units of Theme School courses normally in Levels II, III and IV. This Theme School will provide students with a chance to investigate problems of human rights and international justice from an interdisciplinary perspective. Students will conduct individual and group research using problem-based and self-directed learning techniques.

In Level II all students must take TSIJHR 2A06, the Introductory Seminar, and one other Level II Theme School course. In Levels III and IV students may complete their minor by taking an additional 15 units of Theme School courses, including at least six units at Level III and six units at Level IV.

See specific courses and their descriptions listed under *Theme Schools* in the *Course Listings* section in this Calendar.

MINORS AND THEMATIC AREAS

MINORS

The following two listings constitute University-sanctioned Minors in Indigenous Studies and Peace Studies.

No degree is granted for either programme of study, but Honours students can receive a Minor designation on their transcripts following graduation if their chosen Minor programme is successfully completed. Please see the *Minors* subsection in the University's *Academic Regulations* section for further information.

Indigenous Studies

For more information, please contact the Indigenous Studies office, Chester New Hall, Room 231, ext. 27426.

The Minor in Indigenous Studies was developed as a direct response to the wishes of representatives of Indigenous groups in Ontario, of students, and of educators, for greater accessibility to a university education for native students. The structure of the programme was developed by the President's Committee on Indigenous Issues. This Committee, comprising University and Aboriginal representatives, formulates policy on all issues affecting the Indigenous communities at large. The Committee serves as the primary resource on all subjects relating to the education and support needs of the University's Indigenous population, both in Indigenous-specific and general programming and services.

The Indigenous Studies Minor responds to a desire for a programme of study that examines Indigenous people's history, spirituality, and contemporary situation, with particular attention to the Indigenous people's own perspective. As such, the Minor will provide new perspectives on these subjects for non-native students and will enrich the University experience of native students.

The Minor concept has been developed by the President's Committee on Indigenous Issues with significant input from Indigenous representatives from the province. The idea of a Minor was chosen because it responded first to the need of native students to attain a degree in regular academic disciplines while enriching their knowledge of Indigenous societies and culture. Second, it will assist non-native students who wish to learn more about Indigenous peoples as a complement to their chosen programme of study.

Academic Regulations

The Indigenous Studies Minor is governed by the general Academic Regulations of the University and the regulations described below. Students in Honours programmes will qualify at graduation for a Minor in Indigenous Studies if they complete these requirements:

PART-TIME DEGREE STUDIES

The University offers a broad range of educational opportunities if you wish to take degree studies on a part-time basis. In addition to the daytime offerings in the Fall/Winter there is a wide selection of evening classes available in the Fall/Winter and Spring/Summer sessions. There is a limited number of daytime classes scheduled for the Spring/Summer session.

If you take degree courses, you will associate with one of the undergraduate Faculties (Business, Health Sciences, Humanities, Science or Social Sciences). By so doing, you will have the opportunity to consult with the academic counsellors of your Faculty, and with the departments whose courses are of interest to you. If your interests change, it is often possible to transfer to another department or Faculty.

The courses which you take in the early stages of your education will form the basis for choosing your programme of study. The Level I courses will give you the information you need for this purpose, as well as provide the prerequisites for more advanced courses and admission to programmes of study. The programmes of study which are available entirely through evening and summer courses are indicated on the *Degrees by Programme* chart, in the *Degrees and Programmes* section of this Calendar. You should also familiarize yourself with the requirements and information found in the following sections: *Admissions Requirements*, *Academic Regulations* and *Sessional Dates*, as well as the programme descriptions found in the specific Faculty sections.

ADMISSION

Before you register for any degree course or programme, you must apply for admission.

- If you have already completed some university, community college, or other post-secondary education, you will be required to submit official transcripts of this work and a Transcript Assessment Fee, along with your application, in order to be considered for admission and possible credit towards your McMaster programme.
- If you satisfy the University's normal admission requirements for full-time study, you may choose to register for part-time study in most programmes.
- If you do not satisfy these requirements, you may be admissible as a **Mature Student** and given the opportunity to show that you can deal successfully with university work. New regulations are now in effect for continuation as a Mature Student. Initially, you may take only one course at a time.

See the *Admission Requirements* section in this Calendar for details concerning all avenues of admission to degree study.

AVAILABILITY OF COURSES

Although both daytime and evening courses are open to all students, as a part-time student, you may have other responsibilities which restrict you to the courses offered in the evenings, winter and summer. If you can arrange to take day courses in the Fall/Winter session, the options are greatly enlarged.

Normally, publications for part-time students are made available in March for the Spring/Summer session and in June for the Fall/Winter session.

COORDINATOR OF PART-TIME DEGREE STUDIES

The Coordinator of Part-time Degree Studies, Gordon Raymond or the Assistant Coordinator, Tina Horton, may be telephoned at 525-9140, ext. 24324 or 24325, for counselling and to discuss preparation and plans for degree study.

Mr. Raymond's office, Gilmour Hall, Room 103, is open in the day, and in the evening by appointment. More detailed information concerning programmes and courses is provided by the Academic Counsellors within each Faculty as follows:

- Business: ext. 23941
- Humanities: ext. 24326
- Science: ext. 22612
- Social Sciences: ext. 24604

Information about application procedures and admission regulations is available through the Office of the Registrar, (Gilmour Hall, Room 108, 525-4600).

Information about non-degree courses and programmes, including courses for pre-university upgrading, is available through the Centre for Continuing Education (525-9140, ext. 24321).

OFF-CAMPUS CENTRE

McMaster University supports the Mohawk/McMaster Education Information Centre in downtown Hamilton. This centre exists to provide information and maintain comprehensive collections of calendars and brochures concerning educational opportunities across Canada. The staff can help you to make contact with the appropriate persons at McMaster.

The Information Centre is at the Hamilton Public Library (Central Branch), 55 York Boulevard., Hamilton, just off Jackson Square, telephone (905) 525-9140, ext. 22020.

MAPS

The McMaster Association of Part-time Students (MAPS) maintains an office and student lounge in Kenneth Taylor Hall, Room 102, telephone 525-9140, ext. 22021, and publishes a newsletter, *Link*, which is sent to all part-time students. The coffee lounge is open from Monday to Thursday, day and evening, and Friday during the day.

MAPS Executive Director, Bruce Misch, is available during these hours to help students. All part-time students are invited to use these facilities and to assist their Association in its efforts to improve the quality and range of educational opportunities available to students who can only attend university in the evening.

Department Notes:

1. Geology is becoming increasingly specialized. As a result, preparation for employment and research work can involve some difficult decisions about courses. This is particularly true as work on environmental problems becomes steadily more important. As a guide and help to students, the Department of Geology has a pamphlet (*available in the departmental office*) which gives details of possible course streams leading towards careers in environmental science, as well as towards the more traditional areas of energy and mineral resources.
2. In certain cases students lacking the specific prerequisites listed for a course may be deemed, by the course instructor, to have equivalent qualifications. In such cases permission to register in the course may be requested from the instructor.

Department Notes:

1. **Level I Courses:** Either POL SCI 1A06 or POL SCI 1B03 and 1C03 must be completed prior to admission to Honours or B.A. Political Science programmes. Political Science 1A06 is divided into a number of sections taught by different instructors. Course descriptions for the different sections of Political Science 1A06 are available from the Department of Political Science (Kenneth Taylor Hall, Room 527)

2. The Department of Political Science offers courses in four main areas: Canadian Politics, Comparative Politics, Political Theory, and International Politics. The courses are grouped as follows:

Canadian Politics:

POL SCI 2G06, 3C03, 3DD6, 3EE3, 3F03, 3FF3, 3GG3, 3HH3, 3II3, 3JJ3, 3NN6, 3Z06, 4CC3, 4K06, 4O06, 4P03, 4S06, 4W06.

Comparative Politics:

POL SCI 2B06, 2K06, 2M06, 2P06, 3B06, 3D03, 3F03, 3GG3, 3I03, 3J06, 3K06, 3M06, 3P06, 3PP3, 3QQ3, 3RR3, 3V03, 3VV3, 3W03, 3WW3, 3X03, 3XX3, 3Y06, 3YY3, 4AA6, 4F06, 4G06, 4J06, 4P03, 4Q06.

Political Theory:

POL SCI 2O06, 3A06, 3I06, 3KK6, 3O06, 3R03, 4BB6, 4DD6, 4E06, 4S06, 4U06.

International Politics:

POL SCI 2E06, 3AA3, 3BB3, 3EE3, 3E03, 3FF3, 4F06, 4M06, 4MM6.

The remaining courses are grouped as follows:

Research Methods:

POL SCI 2F06, 3G03

Other:

POL SCI 1A06, 3UU3, 4Z06

3. Courses Offered:

Note every Political Science course listed in this Calendar is offered every year. Students should consult the Department after April 1st for the list of courses that will be offered in the following academic year.

4. **Advice on Programme of Study:** All students are encouraged to seek advice from members of the Department in developing a programme of study. All Honours students are strongly advised to discuss their programme with an Undergraduate Advisor to ensure that it meets Departmental requirements.

5. **Prerequisites:** Students should be alerted to those Level II courses that are required to qualify for a number of Level III and Level IV courses. Students who wish to enter courses but who lack the necessary prerequisites must obtain the permission of the instructor.

6. **Required Courses:** POL SCI 2F06 and 2O06 are required for students enrolled in Honours Political Science programmes, and recommended for students in B.A. programmes. However, if students take both these required courses at Level II, they may experience difficulties acquiring the necessary prerequisites for courses at Levels III and IV. Therefore, the Department strongly encourages students to take one of these courses at Level II and the other at Level III. Because POL SCI 2O06 is a prerequisite for Level III and IV courses in political theory, the order in which POL SCI 2O06 and 2F06 will depend on the particular course of study chosen; further advice on this may be sought from an Undergraduate Advisor.

7. **Limited Enrolment Courses:** Level III courses identified as "enrolment limited" have a limit of 50 students; priority will be given to Political Science students.

With the exception of 4Z06, enrolment in all Level IV courses is limited. In courses cross-listed in the Graduate Calendar (4BB6, 4E06, 4O06), the limit is 14 undergraduate students; in all others, the limit is 18.

Admission to Level IV limited enrolment courses is by preregistration preferential ballot. Preference will be given in order to students in the following categories: Level IV Honours and Combined Honours Political Science; Continuing Students who are in Level IV; Level III Honours Political Science programmes; B.A. in Political Science; Others.

All students including part-time degree students, are urged to consult the Departmental Office (Kenneth Taylor Hall, Room 527) no later than May 1, regarding balloting for the following academic year. Permission slips from the Department will be required to complete registration in Level IV limited-enrolment courses.

The University Library System consists of Mills Memorial Library (Humanities and Social Sciences), the Innis Library in Kenneth Taylor Hall, containing a collection of business materials, the H.G. Thode Library of Science and Engineering, and the Health Sciences Library in the Health Sciences Centre. An on-line catalogue covering the holdings of all libraries is available and stacks are open to all library users.

The collection in 1994 contained more than 1,665,553 volumes, 1,374,621 microform items, 174,175 non-print items and 9,997 linear feet of archival material. Current periodical titles number about 13,859.

To help readers, service is maintained at key Reference points in the various libraries. Introductory library tours and subject-related seminars are conducted. Pamphlets describing the hours and services of the different areas are available in each library and on the University gopher.

Mills Library has several collections — Reference, Periodicals, Government Publications, Music and Maps, which contain materials of significance for both Undergraduates and Researchers; and Reserve, which is used mainly by Undergraduates.

The William Ready Division of Archives and Research Collections in Mills Library contains rare books, manuscripts and special book and archival collections, which afford many opportunities for original research. Of outstanding interest are the Bertrand Russell Archives, a massive collection of correspondence and manuscripts supported by books, journal articles, secondary literature, tapes, films and personal memorabilia.

The Eighteenth-Century Collection of British material numbers over 32,000 volumes and is the major Canadian collection in the field. Library fellowships in Eighteenth-Century Studies are offered annually. Among more modern materials are the papers of

Vera Brittain, Marian Engel, Robert Fulford, Pierre Berton, Farley Mowat, Peter Newman, Matt Cohen and many others.

Business interests are reflected in such files as the General Steel Wares Archives, the Macmillan of Canada Archives, the Clarke Irwin Archives, and the McClelland and Stewart Archives. Canadian social and political interests are documented in papers from the Canadian Union of Students, the Canadian Youth Congress, the SUPA/CUCND papers and other related collections. There are holdings of the records of a number of labour unions, including USWA Local 1005, USWA District 6, United Glass and Ceramic Workers (Canada), and the Hamilton and District Labour Council.

The Instructional Development Centre (IDC) is a resource centre for people who teach at McMaster: individual faculty members and teaching assistants (tutors, demonstrators, markers) as well as departments and other groups.

The Centre works closely with the University Committee on Teaching and Learning. This group, which includes a representative of the McMaster Students Union Teaching Awards Committee, two graduate students and faculty members from all six Faculties, provides policy guidance for the Centre, makes recommendations to the University on issues affecting teaching and learning conditions and provides grants for teaching and learning development projects. The Centre's activities include:

Teaching and Learning Grants: The IDC consults with applicants on their proposals and assists them with projects. It also provides administrative services for the Grants program.

Programmes for Teaching Assistants: The Centre plans and organizes T.A. Day, a campus-wide orientation programme for teaching assistants. It also offers a series of short courses on teaching for senior Ph.D. students.

Workshops, Seminars and Conferences: A wide variety of events are offered, conducted by McMaster faculty, visiting resource people and IDC staff. Generally, the topics are ones requested by instructors or departments or are reports by people who have completed Teaching and Learning Grant projects. Subjects typically include teaching large classes, self-directed learning, research on learning and teaching methods, lecturing, small group discussion, simulations and the use of microcomputers in education.

Consultation: A major part of the Centre's work is discussing current courses with instructors. The instructor or department provides the expertise in the course content. The Centre provides information on ways for instructors to evaluate and refine courses. It also arranges contacts with other experienced people and assistance in trying new approaches.

The Centre has a long history of collaboration with student efforts to support excellence in teaching. For example, the IDC provided consultation on refinements to the MSU Teaching Awards programme and the MSU Handbook The Disabled Student as well as on grants the MSU has received for its own teaching and learning projects.

Resources: The IDC has a library of books on university teaching and learning, example audio-visual materials and microcomputer programmes. It also has video-tape equipment (for use in workshops and for taping classes at the request of instructors) and some microcomputer equipment for familiarization seminars and for faculty to use in evaluating educational software.

Students, especially those working as teaching assistants, are invited to visit the Centre.

COUNSELLING AND CAREER SERVICES

Director

Bill Wilkinson

Counselling Service

Laurie Barlow Cash/Career Counsellor

David Lawson/Career Counsellor

Debbie Nifakis/Counselling Psychologist

David Palmer/Academic Skills Counsellor

The Counselling Service is a resource provided by the University to promote the personal, academic and career development of McMaster students.

The department offers many counselling, assessment and information services to help students deal with personal and social problems, succeed in their studies, clarify educational and career goals, obtain employment, and gain the most from their university experience.

Peer Helpers assist students in assessing their needs and in determining which of our services or programmes might be most appropriate. They also provide a wide variety of services, under supervision of the counselling staff.

Personal problems which students discuss with counsellors often concern family and peer relationships, or such unwanted feelings as anxiety, stress, loneliness, depression, low self-confidence or loss of motivation - all of which can interfere with concentration and academic performance.

All discussions between students and counsellors are voluntary, private and confidential. Whenever required, students are given assistance in locating other specialized help both on and off campus.

Many students seek help in defining their interests, personalities and abilities in order to make decisions about academic choices and career goals. The lack of such goals can be a barrier to sustained academic effort.

Students also ask for help in writing resumés and in preparing to look for employment after graduation. Together with the Placement Service, the department provides assistance designed to prepare graduates and recent alumni to find jobs.

For students who are dissatisfied with their academic performance, their effectiveness in studying or in managing their time, the department provides counselling oriented toward effective learning and study skills.

In addition to individual counselling, the department provides group programmes, workshops and presentations about such topics as educational and career planning, the employment search process, applying to professional and graduate programmes, assertive communication skills, writing skills, stress management, building self-confidence, speaking in public, procrastination, writing tests and exams, and preparing for university.

The department maintains a Resource Centre of career, educational and work-abroad information for use by all members of the University community and general public.

It is an administrative centre for Graduate Record Examinations, the Law School Admission Test, the Medical College Admission Test, and the Miller Analogies Test.

Students are invited to visit the office in Hamilton Hall, Room 302, Monday through Friday, 9 a.m. to 5 p.m. (Wednesday to 7 p.m.) to arrange to talk with a Peer Helper or a counsellor, to inquire about current programmes, or to use the Resource Centre. The telephone number is 525-9140, ext. 24711.

In conjunction with career counsellors, placement staff provide workshops and presentations on resume development, preparing standardized application forms for on-campus recruitment, conducting an effective job search, and preparing for employment interviews.

On-Campus Recruitment Programme

Kenneth Taylor Hall Room 118****Voice: (905) 529-7070****TTY: (905) 521-8709****Fax: (905) 522 7102**

The Office for Ability and Access provides support services, resource referral and advice to applicants and students on process and policy issues related to the University and students with disabilities.

The office consists of professional staff, support staff, and volunteers who can assist students in meeting their educational objectives.

Initiatives and services undertaken by the Office for Ability and Access include:

- campus accessibility issues
- provision of technical equipment services
- alternate media formats based on the individual needs of students
- on-campus professional services or referral to external community resources
- direct services to students in providing skill/process workshops on a variety of issues
- direct involvement with student and/or programme/faculty as required
- promotion of the ability of all qualified applicants

The University encourages persons with disabilities to apply for admission to its programmes. Students must meet the University's academic criteria for admission to a programme.

All students are expected to satisfy the normal requirements for courses and programmes (including final examinations) although accommodations concerning an educational programme may be authorized to assist students in the completion of assignments, tests, examinations and other course requirements. Associate Deans (Studies) may authorize accommodations based on the need of the individual and the programme of study.

SELF IDENTIFICATION FOR STUDENTS WITH DISABILITIES

To ensure continuity of assistance with University programming within departments, faculties and programmes, students are strongly encouraged to self identify through the Office for Ability and Access.

The Office for Ability and Access works with all self-identified students in providing the necessary support services and network which will lead to a positive educational experience.

Self identification, supported by proper documentation, and the subsequent assistance which can be provided to students in obtaining their university education can be best described as a working partnership.

**NOTIFICATION OF STATUS TO
THE OFFICE FOR ABILITY AND ACCESS**

Students are encouraged to self identify early (two to three months prior to enrolment) in order to ensure sufficient time to coordinate their special needs requests within the University.

Students are expected to deal with most day-to-day issues relating to their personal course work. However, students seeking assistance with educational concerns, must work closely with the office

while they are on campus in order to be assisted. Students not wishing accommodation assistance are encouraged to keep in contact with the office should a need for assistance arise during the term.

Students are required to inform the Office for Ability and Access of accommodation needs for final examinations at least one month prior to the exam period. This allows sufficient time to verify and arrange reasonable and appropriate accommodation. Notifications must be received by November 6, 1995 for Term 1 exams and by March 9, 1996 for Term 2 and 3, unless extraordinary circumstances prevail.

STUDENTS WITH TEMPORARY DISABILITIES

Students with disabilities which are temporary in nature, are also encouraged to identify themselves to the Office for Ability and Access. Accommodations and assistance can be given as may be required.

CONFIDENTIALITY

All academic, personal information and health or disability related information is confidential. It will be treated in accordance with the University policy on freedom of information.

RESIDENCES

The University owns and operates 10 on-campus residences, accommodating a total of 2,786 students. The nine traditional-style residences consist of two women's residences (248), one men's residence (102), five co-educational residences (1,688); and Matthews Hall, consisting of a co-educational International House and la Maison Francaise (112) and a co-educational Quiet House (135).

Residence Admission

Sixty percent of the traditional spaces are reserved for incoming first-year students. In past years, admission offers to residence have been based on a student's admission average to his/her academic programme. The average has typically been in the high 70s to low 80s range. (Housing Services is considering the possibility of increasing the number of residence spaces available to first year students. Students will be notified of any change in residence admission policy in the new year, should it occur.)

All students in these nine residences are required to purchase the minimum small meal plan. Meal plans are not valid over the Christmas vacation period. Optional regular and large meal plans are also available for use at all Hospitality Services locations on campus. Students purchase a meal card which is debited only for food purchased.

In addition, an apartment-style residence (Bates Residence) accommodates approximately 500 male and female students. The apartments are unfurnished (except for a stove, refrigerator, carpeting and drapes) and are set aside for students above Level I, including a limited number of graduate and transfer students and special cases. Bates students can purchase an off-campus meal plan directly from the Express Centre, Commons Bldg., room B101B.

The University is unable to provide any on-campus facilities for married students. Students in this category may wish to use the services of the Off-Campus Housing Office, located in Room 118, Wentworth House.

The responsibility for the overall administration of the University residence system lies with the Director of Housing Services. The Director determines policies, budgets, and, on the recommendation of the Manager, Residence Life, appoints a Hallmaster from the University community to serve as a mentor and leadership figure in each residence. The Director, along with the Manager, Residence Life, works with the residence government and Hallmasters to fashion a mature residence community in which self-discipline is maximized. The Hallmasters work with the student government and students on collective projects and individual personal concerns. The office of the Director of Housing Services is located in Commons Building, Room 101, ext. 22909.

The Manager, Residence Admissions is responsible for admission systems, withdrawals, medical and grade appeals and waiting lists. The Manager reports to the Director of Housing Services. Enquiries for residence information should be directed to the Manager, Residence Admissions, Housing Services, Room 101, Commons Building, telephone ext. 24342.

Students will receive a residence application and a letter of instruction regarding application procedures with their letter of acceptance from the university. Guaranteed offers of residence will be confirmed upon receipt of a Residence Application form and a deposit before a specified deadline which will be applied to the student's residence fees. Students who do not receive an offer of residence, but wish to be placed on a waiting list, must return the completed Residence Application form before the specified deadline date. If a residence space has been assigned, but is not required, the student must cancel, in writing, to Housing Services by the specified deadline date. Failure to do so will result in forfeiture of the full amount of the deposit.

McMASTER UNIVERSITY ALUMNI ASSOCIATION

The mission of the Association is to support the University, to have a committed and active association membership, and to have an efficient and effective organization. Following convocation, all graduates of McMaster University automatically become members of the McMaster Alumni Association.

Alumni support the University in a variety of ways and the Association strives to serve its members. This relationship benefits the University and is more important in these days of limited resources. Alumni continue their relationship with McMaster by becoming involved with branches, travel programmes, special events and committee work. Alumni branches have traditionally been geographic, but have recently grown to include academic disciplines such as Engineering, Nursing, Business, Health Sciences, Geography and Social Work and affinity-based branches such as the MSU Alumni, the Lettermen's Association, the Women's Athletic Alumnae, and the Student Alumni Association to name a few.

The affairs of the Association are managed by the Alumni Board, which is comprised of elected officers, members with portfolio, and the alumni representatives to the University Board of Governors and Senate. The Board meets quarterly with its Executive members, who are responsible for carrying out alumni business between Board meetings.

The link between the Alumni Association and the University is through the Director and staff of the Office of Alumni Advancement. This office maintains address information on all graduates, provides the Association branches and committees with support services and organizes a variety of alumni programming. The office is located in Chester New Hall, Room 111, (905) 525-9140 ext. 23900.

Together, the Association and the Office of Alumni Advancement are responsive to the diverse interests of alumni. Events such as Alumni Weekend Homecoming, reunions, business lunch programme and services such as travel programmes, Bell Ambassador Programme, McMaster MasterCard, home and auto insurance, group life insurance and continuing education courses are a few of the many ways in which the Association serves its alumni.

A very important aspect of the Association's mission will always be to support McMaster. Alumni who maintain a relationship with the University provide valuable energy, skills, resources and expertise which contribute to the welfare of the University. These graduates of McMaster, through a life-long link with the University, contribute to and benefit from the existence of this fine University.

ATHLETICS

Director of Athletics and Recreation

Thérèse Quigley

The Department of Athletics and Recreation provides a wide variety of opportunities for students involved in high performance athletic competition, intramural and club competition as well as recreation, fitness and instructional programmes.

A diverse programme of recreational activities is available for those who wish to keep fit, compete in active pursuits at their own level, and enjoy sports and active living opportunities of their choosing. Access to the various facilities on campus is open to all McMaster students. Many different club activities are available, along with instructional assistance. Off-campus field trips in canoeing, horseback riding, hiking and many other opportunities are offered on a cost recovery basis.

A highly developed intramural programme is a very popular outlet for student activity. Intramurals run from early fall until late spring and provide students with a competitive environment that still fosters social interaction.

The varsity programme offers inter-university competition in 31 sports for men and women. Highly skilled coaches help McMaster athletes achieve their potential while competing against other universities in Ontario and across Canada. The outstanding efforts of McMaster's student-athletes and the social involvement of student supporters are focal points of student life on campus. Varsity events are a major source of school spirit for competitors and spectators alike.

Services of the MSU: Most of the services are run by a staff, a manager and the executive of the Students Union. These services include two campus bars (the Downstairs John and Rathskeller), a convenience store (the Bread Bin), an Information Centre, a games and billiards room (the Cue), a radio station (CFMU 93.3 fm), a newspaper (the Silhouette), a Design & Copy Centre, an advertising department (CAB), an Emergency First Response Team (EFRT), a student walk home attendant team (SWHAT), an Off-Campus Housing Office, a Student Health Education Centre (SHEC), a Day Care Centre, a yearbook (Marmor), an Ombuds, a programming department (which organizes Welcome Week, Homecoming, Winter Carnival and other special events) and over 100 clubs (areas including academic, political, religious, cultural and general interest).

Student Government: The Student Representative Assembly (SRA) governs the MSU. It is a council composed of 35 members who are elected by their fellow students in the respective faculties. The President is elected by the entire student body while the Vice-President and Treasurer are elected by the SRA. The duties of the SRA are to set policy for the MSU, approve annual budgets and to make decisions about capital purchases.

Committees: Under the direction of the SRA, committees have been established in the areas of university affairs, external affairs, services and promotions, teaching awards, finances, events, elections, human rights, gender equality, environment, alcohol awareness and constitutions, by-laws and policies.

McMASTER ASSOCIATION OF PART-TIME STUDENTS (MAPS)

MAPS exists to look after the special interests of part-time degree or certificate students, who have a different educational experience than full-time students. University fees for these students include an assessment to support the Association.

The Association's lounge and office are open all year, Monday to Thursday, from 10 a.m. to 8:55 p.m., and Friday, from 10 a.m. to 2 p.m., when classes are in session.

MAPS Executive Director Bruce Misch is available to help students. If you have a question pertaining to university procedure or a problem of any kind, Bruce or the MAPS staff, can either supply the answer or put you in touch with someone who can.

The part-time student newsletter, The LINK, is published on a regular basis, and will be sent to your professor or class representative for distribution to you. If you do not receive a copy, call or drop by the office.

MAPS provides the opportunities and methods for part-time students to communicate their needs and ideas to university officials, by ensuring representation on university governing bodies and committees, and by the Association's direct contact with university administrators on matters such as course availability, evening services and tuition fees.

MAPS is also pleased to offer two awards, the Centennial Award and the Martin W. Johns Award. MAPS has also established a bursary to assist students who have demonstrated financial need.

If you are a part-time student, MAPS is for you. It is a way to bridge the gap between you and the University, by helping you feel a part of McMaster's student body. We urge you to participate as often as possible in the academic and social events which will be available to you at McMaster.

The MAPS lounge and office are located in Kenneth Taylor Hall, Room 102, ext 22021.

ONTARIO STUDENT ASSISTANCE PROGRAMME

Financial aid to help students meet the costs of post-secondary education is available from the federal and provincial governments through the Ontario Student Assistance Programme (OSAP) which consists of four plans:

- Canada Student Loans Plan
- Ontario Student Loans Plan
- Ontario Special Bursary Plan
- Ontario Work-Study Plan

To be eligible for assistance under each of these plans, a student must be a Canadian citizen or permanent resident of Canada and fulfill certain requirements for residency in Ontario. The amount of financial aid awarded is determined by a need-testing procedure.

It is strongly recommended that students apply by June 30 to ensure that their applications are processed by September. Currently, it takes eight to 10 weeks to process a regular OSAP application.

All of the government programmes described in this text are modified and restructured annually to reflect the changing needs of students from the Province of Ontario. It is, therefore, recommended that you discuss your specific financial requirements with a counsellor in the Student Financial Aid and Scholarships Office as early as possible.

Canada Student Loans Plan

This is a federal government plan, administered by the provincial government, which provides loans to needy students for completion of any level of study. Maximum assistance under this plan is about 40% of standard costs at an Ontario institution.

Loans are available to full-time students enrolled at recognized post-secondary institutions anywhere in the world.

The federal government also provides Canada Student Loans for needy part-time students. These loans cover a student's costs for tuition, books, transportation, day care and incidentals and are interest bearing after 30 days.

Ontario Student Loans Plan

This plan provides loans to full-time students whose financial needs are not fully covered by the Canada Student Loans Plan. This plan also helps part-time students or students enrolled in programmes not eligible for the Canada Student Loans Plan.

Ontario Special Bursary Plan

This plan helps exceptionally needy students who are unable to attend school full-time but need post-secondary training to improve their job prospects.

Bursaries are available to such part-time students enrolled at recognized post-secondary institutions in Ontario only.

Work-Study Programme

The Work-Study Programme complements the original plans in the OSAP package. It offers part-time jobs to needy students during the school year to help them meet exceptional costs, often unexpected, not recognized under OSAP. It also helps students who lack the resources expected under OSAP criteria or, whose assessed need under OSAP is not met because of loan maximums or, who do not wish to borrow further due to high debt load.

Costs of this plan are shared by the provincial government and a local sponsoring agency which must be a non-profit organization, such as the University.

The University Senate, acting on behalf of generous benefactors and donors to the University, bestows academic awards on entering, in-course and graduating students to encourage and recognize high levels of scholarship.

In recognizing such scholastic achievement, the University requires all recipients of academic awards to fulfill a set of general conditions, in addition to meeting the particular terms attached to individual academic awards. The general conditions and terms have been established to ensure equity in competition and a high academic standing. Any interpretation of the conditions attaching to academic awards is solely the prerogative of the Undergraduate Council.

TERMINOLOGY

An explanation of the terminology used to describe Academic Awards is provided in the sections of the Calendar described below. Please refer to the *Glossary* section of this calendar for definitions of **Continuing Students**, **Cumulative Average (CA)**, **Level**, **Full-time Students**, **Post-Degree Students**, **Review and Reviewing Period**.

Baccalaureate Degrees are those listed in the *Degrees and Programmes* section of this calendar, the abbreviations of which start with the letter B, such as B.A., B.Com.

Failures are determined by reviewing period, not by session. They include failures in Extra courses.

Full Load is calculated for Undergraduate In-Course Academic Awards and is the number of units specified in the Calendar for an individual level of a programme (e.g. Honours Biology and Psychology, Level II: 33 units). If the Calendar does not specify the programme requirements by individual levels, divide the total units for all levels by the number of levels, discarding the remainder. A full load is not required to be eligible for graduation awards.

Graduation Awards are granted to eligible students on the completion of their graduating session.

In-Course Awards are granted to eligible students, based on academic achievement in other than their graduating session.

Part-time Studies Awards are referred to under Section 2, Category C. To be eligible for these awards, students must have been registered in at least 50% of all units attempted at McMaster, while fulfilling the University's definition of a part-time student as described in the *Glossary* section of this Calendar.

Session, for scholarship purposes, refers to the Fall/Winter session. The Fall/Winter session is the period from September to April as defined in the *Sessional Dates* section of this Calendar.

Full-load Average (FA) is the weighted average computed for Undergraduate In-Course Academic Awards. It is based on the successful completion of a full load of course units, as defined by programme and level. It includes only those courses taken in the Fall/Winter session. Overload courses (courses over and above full load) and Extra courses taken during the Fall/Winter session are included in the Full-load Average.

SECTION 1. GENERAL CONDITIONS FOR ACADEMIC AWARDS

- The University Academic Awards listed below are provided exclusively for students entering, registered in, or graduating from baccalaureate degree programmes at McMaster University. Continuing Students, Post-degree Students, and students registered in the McMaster Medical programme are not eligible for these awards.
- To ensure a wide distribution of the limited number of awards, there are restrictions on the number of awards that a student may receive. An eligible student may be granted:
 - travel scholarships and awards such as books and medals; and
 - awards continued from a previous year (including entrance scholarships), except as provided by the particular terms of an award; and
 - either one award greater than or equal to the value of a Senate Scholarship and one award of less than the value of a Senate Scholarship, or two awards of less than the value of a Senate Scholarship.
 When a student is named the winner of an award but may not retain it because of the conditions listed above, the next eligible student will be granted the award.
- The monetary benefits of travel scholarships, awards won by part-time students and graduating students, and awards such as books and medals will be disbursed directly to the student.
- The monetary benefits of other awards will be disbursed only if the recipient is registered in a baccalaureate degree programme, or a specific programme when explicitly required by terms of award, at McMaster University in the next Fall/Winter session after the award was earned and will be allocated in the following manner:
 - the monetary benefits of award(s) will be credited to the student's academic fees account up to the value of the academic fees prescribed for a full load of work as specified in the Calendar for the level and programme in which the student is registered.
 - the monetary benefits of award(s) which exceed the value of academic fees as prescribed for a full load of work for the level and programme in which the student is registered will be credited to one or more of the student's other University accounts (e.g. residence, and/or bookstore, etc.).
 Amounts in excess of the student's monetary obligation to the University will be disbursed directly to the student in November or December.
- Awards credited to the student's academic fees account are not refundable in cash under any circumstances.
- Awards credited to the student's academic fees account may be used only to defray academic fees for baccalaureate degree courses taken during the Fall/Winter session in which the account is credited with the awards. Students wishing to defer the benefits of an award to a later session should apply to the Director, Student Financial Aid and Scholarships. Approval of applications is not automatic, and deferrals are not normally granted for more than one calendar year.
- Students holding four-year, full-fee scholarships who choose to accelerate their programme and to complete their degree earlier than normal by completing Spring/Summer session courses and who wish to employ the benefits of their award to defray the academic fees for such courses should apply to the Director, Student Financial Aid and Scholarships. Approval of applications is not automatic.
- The University reserves the right not to grant an award in the absence of a suitable candidate, and to limit the number of awards when there are too few suitable candidates. The University also reserves the right to withdraw, or amend the terms of, any award.
- The particular terms for University Academic Awards are listed in Section 2.

- A.2** To be considered for an entrance award, students must obtain at least a first-class average in the secondary school credits required for University admission. All students who meet this requirement and who apply for early admission to the University not more than two years after completion of their secondary school studies will automatically be considered as applicants for entrance awards, unless a separate application is explicitly required by the particular terms of the award.
- A.3** Where explicitly required by the particular terms of an award, recipients must register and remain registered in the Faculty/ Programme specified. Registration in, or transfer to, another programme of study at any time will result in forfeiture of the award. Students are advised to consult with the Director, Student Financial Aid and Scholarships about making changes to their programme of study.
- A.4** In addition to meeting the General Conditions listed in Section 1, entrance award recipients will begin their studies in the next Fall/ Winter session. Students wishing to defer the benefits of an award to a later session should apply to the Director, Student Financial Aid and Scholarships. Approval of applications is not automatic, and deferments are not normally granted for more than one calendar year.
- A.5** Unless otherwise specified, recipients may retain an entrance award which provides for awards beyond Level I while registered in a first baccalaureate degree programme and until graduation or for four years (five years if registered in a five-level programme), whichever is less. In order to retain such awards, students must complete during each successive Fall/Winter session at the University a full load corresponding at least to:
- either the minimum number of units specified in the Calendar for their level and programme;
