

Cost-effectiveness of the CP@clinic Program

Data from the CP@clinic Multi-Site Randomized Controlled Trial

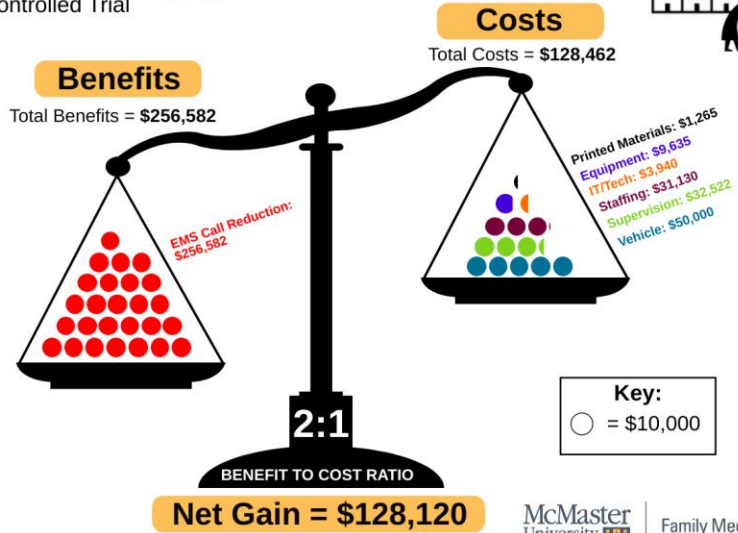

For every **\$1** spent on
The CP@clinic Program, the
Emergency Care System
sees **\$2** in benefits*

*based on 13 social housing buildings & 1461 residents

Net Savings
Per Resident:
\$88

Program Cost Per
QALY is well below
the threshold for
program adoption
in Canada

QALY= Quality-Adjusted Life Year
