

Simulation Optimization Systems Research Laboratory (SOS Lab): Website Components and Related Archives

McMaster University, Hamilton, Ontario, Canada.

Dr. John W. Bandler founded the Simulation Optimization Systems (SOS) Research Laboratory in 1983. Bandler formed the Laboratory with the aim of advancing the state of the art in modeling and optimal design of complex engineering systems, including modeling and electromagnetic optimization of devices, circuits, and systems in the radio frequency, wireless, and microwave arenas.

The SOS Lab actively published research reports from 1983 to 2002.

This document lists important components of the SOS Lab website.

It also provides a selection of snapshots (captures) of <http://www.sos.mcmaster.ca/> and its constituent web pages archived at the Internet Archive's Wayback Machine.
